Necropolis (The Necromancer Thanatography #1) Shane Simmons

"Dying is easy. It's staying dead that's hard."

Ancient prophecies, vile creatures of the abyss, and sardonic wit abound in this epic supernatural-suspense mystery/thriller about Rip Eulogy, a modern-day necromancer bridging the gap between the living and the dead for a fee. When the police ask for his help identifying a homicide victim, it's the body of a past client he finds lying on the morgue slab with no clothes, no I.D. and no brain. An old case of post-mortem retribution against an escaped war criminal has come back to haunt Rip at the worst possible moment, just when financial problems, competition from psychics, and a contract killer threaten to put him out of business permanently. What begins as a single unexplainable death leads to a string of murders that promises to culminate in the end of all life on earth.

Tierney Clark says

Unlike any other

This book was exceptional! The author is very well spoken and gives real life to the characters and locations. As far as content it's wonderfully weird and creepy. It's unlike any paranormal-esc book I've read. And the plot is twisted and strange. Excellent book!

Ruthanne Taylor says

I'm not sure what I expected when I bought this book but whatever it was, this wasn't it. The book is reasonably well written & peppered with characters I had trouble believing in or caring about. I will not be buying Book 2. That being said I am sure there are many readers who will really enjoy this book.

Mary Grissom says

Good

It was a very good read until the ending of the book. I thought that he would end the thing that was a Charlie. I suppose that is what happens when there may be another book.

Steven LeRoy Nelson says

Unique and funny. This was an enjoyable read.

Charles Miske says

Drat. I really loved this book. Great snark and cynic level. Great protagonist. Great flow.

Suddenly it bogged down with a little plot twist/device, and got a bit convoluted.

Then it ended. It ended. I did not expect that ending. I was sorely disappointed in that ending.

So it's this necromancer dude, stumbling around doing necromancer things. Trying to scrounge a few bucks out of corpses, etc. Missing bills. Summoning the office assistant from Hell. Stuff like that. Great fun stuff. Totally socially dysfunctional. Can you imagine a cuter and cuddlier protagonist? Were we supposed to not like him much?

Anyway, there is a hint of an upcoming sequel of sorts. I suppose that should give us some hope? We'll see.

Why 4? It was a solid 5 in most ways. But that bogging down in the plot device that I won't spoil for you. That's where the 4 came from. Read it and see for yourself.

Jackie says

Rip is a necromancer and he's been asked to help out in a murder case. Interesting book for a first time read with this author. Don't miss out.

Hannah says

I can't remember why this book was on my Kindle - maybe someone had recommended it? Regardless, it was on my Kindle, so I had decided wanted to read it.

This turned out to be a good story, with interesting characters and an interesting premise. It sort of feels like the Dresden Files, but there are plenty of differences. It's dark, and it's gritty, and it's fascinating.

Johnny says

Very good

This was different and a lot of fun to read.
I'm looking forward to book two.
I don't have a clue how he is going to top this though.

Dawnn Fuss says

Taking Quirky to Amazing New Levels

Once upon a time, as every good story begins, I believed I had met the ultimate in quirky, never-before-imagined characters. Not since Dean Koontz introduced me to "Odd Thomas" have I traversed a mystery with a more unusual gang of misfits than I have now with "Necropolis". Simmons brings together an entire community of multi-faceted, amusing, enduring weirdos I just want to spend more time with. I thoroughly enjoyed every second and can't wait to dive into whatever is next in this fascinating new world.

Jill says

A complex yet easy-to read, beautifully-crafted, dark, funny masterpiece.

I don't know how the author is going to follow it up in the sequels, but I'm looking forward to them!

Grant Ashley says

Genuinely Weird

This novel is the first truly novel novel I've read. It's funny and imaginative, a real page turner, and touching in an odd way.
