Plug and Engage Valentina Heart

Official Description: Cole and Kai only met weekly. They satisfied those annoying primal urges which left the rest of their free time to be used as they saw fit. More than happy with such a solution they never even thought a bit of rough and spice could change everything - until it did.

Original Prompt:

Dear brave author and concomitant Muse,

Because I think some Love can get extreme and there are all kinds of closets... :) I'd like you to consider this odd moment from a sweet, raunchy story, a wacky meet-cute between two fellas who have known each other for years yet not known each other at all...

Yowza. :) My sense is that this is a random hookup that sparks an unexpected connection between casual fuckbuddies as they discover that they are both much less vanilla than they've pretended to be in the past and more connected than they'd ever realized. Could be coworkers or neighbors or simply acquaintances with benefits.

Either or both of these guys may start out closeted about being gay, but this story is really about coming out of the extreme buttsex/fetish?/BDSM? closet and ultimately the ready for real commitment closet.

Here's the twist: this should be ultimately a sweet story, not just raunchy porno hookup with numbers exchanged for subsequent boning. Expectations should be reversed on both sides over the course of time (a night?) together as these guys get past bland hokey-pokey, past spit-on-me and stuff-furniture-into-that-ass, to something tender and hopeful and fragile that stuns them into happily ever after closure. Raunch is great, but it's the meaningful connection that they're after. Surprise them and us! :)

Can you dig it?

Photo Description: A husky red-headed man in work boots, a shoulder harness and not much else, contorts himself against his partner, face straining between tension and pleasure. He hauls one leg up to jam fingers in his own ass. His darker-skinned partner in latex gloves stares down intently as he squeezes a cock ring over the redhead's rampant erection.

This story was written as a part of the M/M Romance Group's "**Hot Summer Days**" event. Group members were asked to write a story prompt inspired by a photo of their choice. Authors of the group selected a photo and prompt that spoke to them and wrote a short story.

“Oh, so you only want me for the rough and kinky stuff?”

“You bet. Now order me around.”

Kai and Cole are fuck buddies for more than three years now. They meet every Friday night. Nothing more, only sex; they haven't even seen each other in daylight.

Kai lives a very well organized life, and this Friday fun is perfect and enough for him.

On the weekends, I'm out of town unless it's raining and sometimes even if it is. I might be climbing, camping, sky diving or mountain biking. You name it, and I probably do it. It's my time. Me, my adrenaline and nature. I really don't need much more.

Now Friday night is release night. Friday nights I get fucked, and while how good it is does depend on my fuck buddy, I have been lucky so far.

But one day something unusual happens between them, and whatever it is, Cole wants to explore it. And he wants it with Kai.

Something had changed between us in that moment and it was something big.

Kai is scared of being in a committed relationship, but Cole is insistent. **I loved Cole:** he is so confident. And although Kai says that neither of them are “relationship material”, I think Cole is actually very good at this.

I'd never been so aware of my own sexuality. Although it was frustrating at times, it was also close to feeling high, only completely natural. I loved it.

The story is told from both Kai and Cole's viewpoints, in first person. I usually don't like first person narrative, because it can be very limited, but here the dual viewpoint is excellent and it allows you to see the whole picture.

It is a light D/s erotic story with a very little pain inflicted, but the main emphasis is not here. Don't worry, the erotica is hot as hell, but it is about how casual sex can turn into a serious, committed relationship.

It is a great story. **No insta-love, no hasty love confessions.** Kai and Cole really take it slow, and it is amazing how they fit each other.

Highly recommended!

A hot and sexy short! And kinky as hell! I enjoyed it a lot...

As for such a short read Kai and Cole are quite easy to like even if we don't know almost anything about them...

The only problem nagging me is a little over-dramatic and rushed ending. We could find out that the guys really care for each other in a better way, IMHO. Hence, 4 stars!!!

Recommended for kinky readers! ;)

Ever just want a friend with benefits? Nothing complicated, just hot sex? Kai has it made with his Friday sex buddy, Cole. Neither Kai nor Cole are out. They keep their relationship quiet and it works well for them. For the past three years, they meet at a set time and enjoy themselves – no talking, just sweaty sex.

One Friday, it changes and Cole can't stop thinking about Kai. This is when things becomes complicated.

Ms. Heart writes the fear of being ousted as a gay man so well. I could feel the terror in Kai. I could also feel the desire Cole had for Kai to be more than just a tight moist hole to stick his dripping dick in. This story of becoming more than just a weekly one-night stand moved me. I loved Cole's push to be more intimate. What really pushed me over the edge was the hot domination by Cole. The bedroom scene with the bedpost had me on fire. I wanted so badly to be in that room watching Kai and Cole together. Ms. Heart describes her sex scenes so well I can see each position, thrust and lick clearly. I love it!

What truly moved me in this story was how lovers become friends. Generally we see the opposite, friends taking that next step become lovers. This backwards method comes across as more intimate, purposeful and meaningful.

This story was a bit too short for me. I want to read more about Kai and Cole. I want to know what happens after the accidental sighting. I want to know how their families handled their relationship. Who am I kidding? I want to read more hot sex scenes between two hot sexy men. I recommend this story to m/m lovers who enjoy two men coming together as more than just a weekly one-night stand.

Valentina - I don't know how you did it, but you definitely wrote what Damon asked for. I'm generally not a BDSM fan (although HSD is seriously making me rethink my position), it was Kai's emotional pain and uncertainty that really gave this story depth beyond the physical acts. I loved how Cole realized that there

were emotions involved - it was beyond kinky sex - yet remained steady under the onslaught of new feelings. Even better was his strength and protectiveness when Kai's world started falling apart.

I am your boyfriend now and I will be there for you. Every step of the way, through every tear, every fall out, every fight and I'll enjoy all the make-up sex. When others turn their back on you – and there will be those who won't even hesitate – I will still be here. To hold you, comfort you and to tell them to go fuck themselves. This is not a convenience for me, or a way to get sex more than just once a week. I already told you, I want something permanent.

Beautiful.... Thank you Valentina.

Um, wow. This story was something else! Vale managed to write a kinky, hot, sweet story that I absolutely loved. Vale always manages to put something unique in her stories which is why I love them so much. I definitely think whether or not you like fisting, bondage or any other element in this story, you should try it out. It's a really great story.

This is the first story I've read where it felt as if the prompt was written *after* the story was written. It wasn't of course. The author managed followed the prompt perfectly, writing the story exactly the way it was prompted. Kudos to the author! The promptee asked for "*a hookup that sparks an unexpected connection between casual fuckbuddies as they discover that they are both much less vanilla than they've pretended to be in the past and more connected than they'd ever realized*". And it really did! The story was good. I loved that Kai and Cole were good together and found out they could be even better together, even though they'd known each other as just fuck buddies for the last three years.

"What are you doing?" I stiffened, my post-climactic bliss dispersed by his out of character behavior.

"I'm holding you." Cole explained calmly, making me feel like an idiot. A panicky idiot.

"Why?" I almost squeaked.

"Because I want to."

The promptee also asked for "*this story is really about coming out of the extreme buttsex/fetish?/BDSM? closet.*" And gosh, did the story do that.

Raise your hand if you thought it was hot.

It was!

You can ponder my level of pervyness later. :P

The scene was greatly written and it showed a connection and trust between the two MCs, and it wasn't downplayed or dirtied or sluttied, which would have put me off immediately. Whether it's totally *safe* is another matter, which *I'm* not going to ponder. I just enjoyed this little shorty.

While reading this, the song Let Go by Frou Frou came up on my playlist and I think that song and this quote say it all, although BookAddict's review is wonderful. This story may have been short, but it was sweet and sexy (like whoa) and beautiful.

A Girl Has No Name says

Plug and Engage was just right for my kinky little heart and it was a perfect short read to make me happy before getting back to work for university.

Since three years, **Kai and Cole** are fuck buddies; they meet each Friday and have satisfying vanilla sex, but they don't know a thing about each other. However, one Friday night is about to change everything.

Something had changed between us in that moment and it was something big.

They both realize that they have **hidden desires** and while Kai is afraid of having more than sex with Cole, Cole is insistent and definitely wants to explore his needs with Kai - only with Kai. Hot and kinky sex follows and you might look at some of your furniture with new eyes after reading this short story.

The story is told both from Kai's and from Cole's POV and I definitely liked to get an insight into both main characters.

4 stars!

CAS says

Damon certainly placed a tall order for this one and Valentina filled it to overflowing. You both have my compliments, Damon for your very creative and challenging prompt and Valentina for writing one of the most compelling and memorable stories in the Hot Summer Days collection under that kind of pressure! ;) Thank you.

You have blown my mind into tiny little pieces and I'm having a hard time gathering my thoughts to express just how much I love this story. I was thinking how much I loved Kai's voice and how I was completely connected to what he was thinking and feeling. Then along comes Cole adding his voice to the mix and from that point on the two voices, blending as one created such a beautiful resonance I was just totally mesmerized and 100% THERE, lost in their world soaking in every single moment and feeling it.

Sarah_loves_books says

Very good sex. And I liked the ending, too.

There were perhaps a couple of awkward places, but otherwise great writing. The sex scenes were extremely well written. And what I want in bdsm.

It kept me reading which is a lot said nowadays.

It's a free short story, click the word *here* in the blurb, and you can read it on this site (you probably have to be in the m/m romance group, though). More erotica than romance, though a relationship budding in the end.

Trix says

That was an unexpected story but very impressive! I was a bit fearful of reading this as the image it sprang from seemed too hard core BDSM for me (that and the fact that fisting is not something I really like).

But the author managed to make it about more than just sex and the BDSM scene. She defined Kai and Cole, she defined the bridge forming between them and revealed the feelings lying dormant in each of them.

Quite a story!

Beck says

Holy crap that was a hot little story! ... I'll never look at a bed frame the same way again! ... I would love, love, love a longer version of this story ... these characters *need* to tell us more about themselves! ... highly recommended if you like to read about kinky fuckery.

Wendy Ann says

I love, love, love a good BDSM story and we definitely got more than that! I didn't think it was possible to come up with anything remotely close to sweet from that picture, and yet the author made the transition from once-a-week fuck buddies to a sweet and caring relationship seem effortless. Understanding the mindset of the characters involved is so important in a BDSM relationship, so I really appreciated the transition between the POV's. I loved Kai's responsiveness and Cole's protectiveness (*"Forget about that. See only me. I'm here, Kai."*). Mmm, totally hot and amazing - adored it!!! Thank you:)
