## **Rockstar's Temptation** K.T. Fisher

This story is a complicated one. Maisy and Max have been really close for a while now. They clicked straight away and a beautiful friendship blossomed. But is just an innocent friendship? When Maisy's sexy and troublesome younger sister, Lauren comes to town, she begins to stir everything up. Max's eyes wonder and Maisy, for some reason doesn't like it. She tells herself that it's because she doesn't want her sister hurt by his playboy ways, but is that true? Join Max and Maisy on their confusing journey full of heartbreak and turmoil. Where their friendship is stretched to the limits with lust and betrayal. Amongst tragedy and danger, can your heart can lead you in the right direction?

## From Reader Review Rockstar's Temptation for online ebook

### Kim says

Maisy has been close friend with Max for a while now. They hang out together and party together. Maisy has never had a problem with the way Max is. When her younger sister Lauren comes home for Maisy surprise birthday party she stirs things up between Max and Maisy leaving them questioning what is going on between them. Will Lauren's meddling tear these two apart or will it make them see what is really going on between them?

I was gifted this book in exchange for an honest review.

Maisy is the quiet one of the group. She tends to observe what's going on around her and likes to think about things before she acts. Her sister Lauren is the one person who can push Maisy buttons. The only friend who knows what Lauren did to Maisy when they were in high school is Tanya. Tanya flat out tells her friends not to invite Lauren but they don't listen as she offers up no reason not to. Once Lauren is back in town she sees fit to go after what Maisy has. Lauren's meddling makes Maisy realize that Max and her are more than just friends. Maisy has no idea what Max feels but when Lauren shows interest in Max, Maisy warns him to stay away from her.

Max is enjoying the rock star life he has and his close friend Maisy is there for him when he needs her. He's a carefree, strong alpha male who is used to getting any woman he wants. Now with his band mates all settled down and having children, he the only one who is interested in the groupies and partying. When Maisy's friends go to his place to plan her surprise party Max is more than willing to help out. He also has his own plans to surprise her. Once Lauren meets Max, she becomes relentless in her attempts to get him to sleep with her but they all fail, but not without Maisy showing up at the wrong time. Lauren doesn't take no for an answer no matter how many times he brushes her off. Max can't stand that this is hurting her and realizes how they are much more than just close friends.

Lauren is the typical younger sister who is jealous of her old sister and wants what she can't have. She takes advantage that her mother sees her as a perfect little angel and uses it whenever she can to screw Maisy over. Her going after Max is not the first time Lauren has crossed the line and unlikely to be the last.

This is the fourth and final of the books Decoy series and K. T. Fisher ended the series perfectly. The drama Lauren causes between Max and Maisy kept me wondering just how far will she go to ruin her sister's relationships. Once the rest of the crew found out what Lauren was like they did everything they could to support Maisy like any family would. The way this group of characters care for and look after each other is heart-warming. This book had me hooked from the start. Max with a bunch of woman planning a surprise party is something you don't want to miss. K. T. Fisher gave her readers a bonus chapter in this book so we could see what how each band member's family turned out. I always want to know how things turn out in the end for the characters in the series. K. T. Fisher gave her readers just that in the bonus chapter. I have to say this is one of my favorite rock star series and I highly recommend the series to anyone who loves to read romance novels.

## **Nadia Debowska-Stephens (Obsessed by Books) says**

\*\*\*Gifted a copy in exchange for an honest review\*\*\*

I do not know where to start with this review. Read this as it wraps up this series beautifully, with all the characters you have grown to love all appearing in the chapters of the conclusion to the Decoy Series. Read this as a stand alone for an angst filled, will they/won't they romance. Max is a man whore, a rock star and a drop dead gorgeous sex on legs hottie. Maisy is his best friend, successful in her own right and beautiful. Together can they be the next rock star romance success story or should they remain friends? Can Max change his ways, he seems to think so but will he convince Maisy?

" For the right woman I would. I'd protect her with my life and let nothing hurt her, not even me."

This follows their journey as they acknowledge their true feelings and follow their desire. Love is never easy though and you can't choose your family...no spoilers here but don't worry karma is a bitch and we will catch up on that in another book!

The ending had me crying happy tears...it's beautifully written, and crafted with love for the characters and their endings. This book has it all; drama, romance, panty melting sex scenes, twists and turns that shock! I loved every word and recommend this series to everyone who enjoys a good rocker romance...or to those who feel like a change ;)

OK, before we go any further.....

\*\*\*\*\* Here's your warning, YOU NEED SUPPLIES \*\*\*\*\*

For anyone who has been following this series, you know how pretty amazing it is. And how eagerly we

have been waiting Max and Maisy's story, and OMG what a story.

I am not telling you anything about this, my lips are sealed. The only thing I will tell you is OMG HOW HOT IS MAX. This book will make you want to scream and shout. Mainly at Lauren!!!! This book is a book that will get you out of any book funk( when you have lost the will to read anything.) Do not read this when you know you are going to get interrupted, I had started to reading it, then tried to read it on my lunch break, not a good idea let me tell you, you will want to read this straight through without stopping.

KT Fisher has done an amazingly fantastic job of writing this story. When I had read it I was a bit lost. It stayed with me long after I had read it. If you haven't read this series, get reading it wont disappoint.

This is a book that transports you into the world of rock stars. It plays out in your head loud and bright, its hard to remember that it's a book and not a film.

I will say I cant wait for Karma

Kt Fisher, This story is exceptionally written, Its stunning in its entirety. Its amazing. I absolutely love this series.

I give this book 5/5 and 5/5 movie moments.

### **Rosa Sharon (iScream Books Blog) says**

#### **The line between friendship and complicated...**

It's bittersweet to reach the end of the series, sad to not have the next one to wait for. I'm gonna miss the Decoy family.

Waiting for Max to grow up and finally let go of his manwhore ways and bleach the bachelor pad was what I was looking forward to in this book. I got more than I anticipated. As each book is added to the series we get to know more characters and the family grows larger. However; some of those family members are not a welcome addition.

Maisy's sister, Lauren, needs a good b\*tch slap. I'm afraid that Karma is gonna kick her a\$\$\$. Max & Maisy are best friends. They spend lots of time with each other and if they get drunk and share a kiss or two they just laugh it off the next morning. It's kinda cute that Max calls her Maisy Moo and that she has been his wing woman a time or two. But the Decoy family is kinda noticing that Max sure does stare at Maisy a lot. He's very protective of her and if anyone gets handsy on the dance floor it's his job to interfere, isn't it?

When Maisy's sister comes to her birthday party and sets her sights on Max, why does that upset her? It's just sibling issues, it has nothing to do with jealousy, right? Well, I'm guessing that Max & Maisy are the last ones to wake up to the reality of their feelings for each other. We already knew it, didn't we?

They are just scared...what if it doesn't work out? They share the same friends that neither wants to risk. Who knows what Max might have been exposed to with all of his groupies. Even if she did take a risk and give him a chance, would she ever be enough? Could he settle for just one woman? On the other hand, he has lots of experience...can she resist him when he uses his 'skills' on her? (wink-wink)

## **Book Hangover Page says**

FIVE FREAKING ALPHA MALE STARS!!!! I loved all of the Decoy men up to this point but I have to say that Max and Maisy's story is probably my favorite!! I love love love when an Alpha male realizes that his heart belongs to one woman and his determination to capture her in his heart forever becomes the forefront of his brain. The alpha jumps off the pages of this book in an effortlessness that only K.T. can portray. Maisy is probably my favorite Decoy girl she has to overcome so much with her parents and her sister and she is risen above and beyond it all and with a gigantic heart to boot. There isn't anything she wouldn't do for any of her friends or family. The chemistry between these two is unreal and I could not get enough of them. I devoured this book in one sitting and was up until early morning because I just had to see the conclusion to this amazing love story. This book also has the rest of the Decoy characters that you have, like me already fallen in love with. This is the conclusion of the Decoy series (for now) but I have to tell you that the epilogues in this book are written with the completeness that you crave, but also they leave you wanting more from all of the characters. I loved this book and I cannot wait for more! (hint hint) get back in that writing cave miss K.T.!!!

---

## **Emma says**

The fourth instalment in the Decoy series by K T Fisher gives us our favourite band members facing life with the band getting recognition in America and seeing guitarist Max Lawson and close friend Maisy Ashford face the life long question that many people face: should we be more than friends??

Max, the charming, gorgeous and notorious playboy Decoy guitarist, has always had a good friendship with Maisy. She's friends with the other band members and their wives and is a successful architect in her own right. She has no need of his fame, wealth or status. Maisy has no hidden agenda, they've always got on well and have an easiness around each other. But, what happens when the lines of friendship are crossed and you're tempted to take things further?

Maisy is the level headed sensible one, she doesn't want to risk her friendship with Max. But, with a sister who is hell bent on coveting all she has whatever the cost, Maisy has some tough decisions to make: Stay friends with Max and see him with other women or date him and risk being another conquest and be heartbroken when they can't be friends anymore if he's tempted by another. Maybe this one time the temptation will be life changing for all involved one way or another?

We see another side to the playful, charming Max in this book. A fiercely loyal, caring, domineering and protective side. One that will melt your heart and set the pages alight whilst he and Maisy fight the temptation to be together.

This tale takes us on the journey of discovering if what your heart truly desires is worth all the pain, tragedy and heart break that life can throw at you whatever the ultimate cost.

I adore this series and I'm always happy to have a catch up with the other members too during each book, we have Tanya and Jax who add brilliant one liners and Sophia is a force to be reckoned with this time!! I'm sure the epilogue will give many of us that little bit extra that will be a fitting farewell to the series.

## **Anny hernandez says**

I was provided a copy of the book by the Author for an honest review.

HOLY SMOKE I just finish reading this book, and I have to say that I love it, love the characters, and I love the ending of it, I really love and enjoy reading this series, I have to say that reading this book, it made Mad, Cried, and be a little Hurt, but I love every single minute of it, I am gone keep this short since I don't want to give anything away.

Let me just say that their so much going on in this book, This is Max and Maisy story, if you had read the first three book, than you had all ready met Max and Maisy, and if you haven't read it than get to it.

Max and Maisy have being fiends for a while, their friendship turn into them being best friend, but Max have being hiding his real feeling for Maisy, when the girl throw her a surprise birthday party, Maisy cant believe it that Max agree to that, but Maisy was more surprise to find her sister Lauren their, the sister that she cant stand, when Maisy see her sister flirting with Max she is surprise to have the feeling that she gets, but she gets more surprise about the kiss that Max give her, after that night Maisy and Max friendship start to get complicate, but Max is done hiding his feeling for her, and Maisy is ready to take on the feelings that she have for him, but her sister keeps getting in the way, will Max and Maisy finally will let their feeling for each other lose.

I have to say that I did not like the character of Lauren, Maisy sister I couldn't stand her, I did not like the way she was acting, a sister don't act like that at all.

I love the way how Max and Maisy are with each other, I love how Max is always their for her, and how protective he is of her, I love the chemistry that Max and Maisy have, and the sex scene are hot.

I really love and enjoy reading this series, I love it how the band are still together and acts like a family, love it how the girls act like sisters, and love it more how you get to know what's going on with the rest of the couples, I jut love the book and the sires, Author K.T. Fisher THANK YOU FOR THIS AWESOME CHARACTERS AND THIS AMAZING WONDERFUL SERIES LOVE IT.

---

## **Lisa says**

My favourite of the series. Maisy and Max's friends to lovers story grabbed me from the start and wouldn't let me go.

The uncertainties of starting a relationship that could ruin their friendship, coupled with Max's history with women makes this an interesting read with lots of verbal sparring between them. Add in Maisy's sister, Lauren, who is all set on taking Max for herself at all costs and you have a thrill a minute read. Who needs enemies with a sister like Lauren?

This was a fitting end to this series and I will miss the hot men of Decoy and the strong women who captured their hearts.

## KFForever says

Reviewed by Dawn Vickers on behalf of **Kindle Friends Forever**.

This is the fourth and final book in the Decoy series and it doesn't disappoint! K T Fisher has created a sexy world of rockers and the women who love them. Each book is about a different couple but the characters from previous books cross over into each other, so I suggest you read them in order.

Maisy and Max are best friends. They are close but Max has feelings for Maisy that run much deeper than friendship. Maisy loves Max, but lately she's also feeling a little bit more than friendship when she thinks about him. Neither wants to ruin a beautiful friendship, but can they both deny what their hearts are telling them? Maisy's friends persuade Max to let them use his home to throw a birthday party for her which goes great till trouble walks through the door by the name of Lauren, Maisy's sister. She despises her sister; you will find out why when you read the book, and knows nothing good will come of her being here. Lauren has always gone after what other people have and she's going after Max! Max is done hiding his feelings for Maisy and after a kiss, the friendship they both love is changing gears as they start facing their feelings and fears. Even though sister dearest gets in the way at every turn, their love grows.

This is great read. The other characters featured throughout are a family and they look out for each other, and come together when needed. The banter between them all was a joy to read and had me laughing! Max oozes sex appeal. He is loyal and extremely protective of Maisy. They have a great chemistry that grabs you from the very beginning, and the sex scenes! They are so hot which only cements further the deep passion between these two. I will leave it here as I don't want to give anything away!

Every book I have read, I loved. It's been a fantastic ride with these characters; however, I'm sad to see the end of this brilliant series ...but the author has left it open to possibly return. Never say never!

## iamGamz says

### 2.5 Friends to Lovers Stars

*"Come talk to me when you're ready, because you obviously are not ready for this shit."*

Max and Maisy are good friends. He wants her but she sees him for the manwhore that he is. He has finally decided to get his girl, but her evil sister messes things up for him and he almost loses the one woman that he loves.

This story is a bit more interesting and easier to read than the other books in the series. No secret baby in this

book, but the evil sister trope was pulled out of storage for this one. Like the others before it, this is an *ok read* .
