This story had some great developments that I was not expecting, in terms of both plot and character development. There was more focus on Molly that emphasized how behind her childlike-demeanor/behavior, she is very intelligent and able to effectively strategize and execute plans; this is especially true in the mini-story that opens the volume. Karolina's return to the group with her fiancee Xavin in tow was also a welcome change; she very much is the heart of the group and provides a peaceful/optimistic view to the group. The new Pride hinted at in earlier issues is revealed to be Geoffrey Wilder, Alex's dad pulled from the past by his misguided MMRPG friends and seeking to bring the wife and child lost/never had. A huge development in this story is the death of Gertrude, something I thought impossible since we'd seen her future self in an earlier volume. Touching on this, a big theme in this volume is the issue of choice and destiny, and which one impacts and accurately defines the future. Gertrude's death, and the subsequent negation of that future (perhaps also brought about/avoided through the incorporation of Victor into the group), suggests that it's choice that shapes the future. But the existence of the Abstract, the tome that shows the past and future of the Pride and the events/people surrounding it, suggest otherwise. The book's presence implies that the future is written and something set that is readable and able to be followed. Whether the book changes depending on actions is something that hasn't been made clear yet. Following Gertrude's death and an argument with Nico, Chase and Old Lace have left the group with Abstract and decoder ring in hand. I'm interested to see how the group will be affected by the loss of two key, original members, how the different factions will fare, and if we'll find out more about the Abstract.

My favorite issue in this volume was definitely the first one. While it was probably just filler, Molly is my favorite member of the Runaways and I was glad to see a story that focused on her.

As for the rest, there's an important plot point at the end so the issues can't really be passed over, but they're fairly forgettable in my opinion.

Goddamnit *Runaways*, toying with my feelings like that! Honestly, everything in this volume was unexpected and quite emotionally charged. The reveal of who the mystery character trying to revive The Pride is was a disappointment even though it was a nice surprise that actually made better sense.

Then, there is that ending... My favourite character I thought was written out in the last volume makes a comeback, and like the sacrificial lamb that's required by the Gibborim, another is offered up by Brian K Vaughan. And this time he isn't joking. RIP, unexpected deceased Runaway - you deserved better but what repercussions your death is going to have! It's definitely a game-changer that will shake up the *Runaways*, and I'm dying to know what the future holds.

Joana Veríssimo says

No... nooo... why?! So not fair...

But it was really nice to have some questions answered, especially since they had been growing for a few volumes now, and that issue seemed to have been wrapped up
I'm looking forward to continue reading, but also really scared about what the series will become now...

Runaways is one of my favorite series and I love the way the story is playing out. It did make me cry a little bit when arsenic/Gertrude died! I love this series and I feel like it can only get better! I don't know what will happen with Chase in control of Old Lace. I do feel like it will be some major excitement through the next volumes. Even if no more is made I feel like what is still out there is all I need to read but I do feel like there could definitely be more if they're feeling up to it!

Scarlet Cameo says

What can you do when the past return to take revenge? Well, maybe you will try to fix it as soon as you can and be loyal to you mates, Right? This isn't exactly what happen here, we have, as in other numbers, a little hormonal thing happen around that, at her age, only can finish with a fight. When they "fix" that thing the story continue as good as always.

This number is the one that significances a point of break in the life of these guys, yes, the first issue was that too but, How can you continue when all this thing happen? How can you do without break your soul? In one moment they accepts that all is falling apart, if that's already happening, how can they survive with what happened?

I'm not gonna say more, this number was really good, sad, annoying by moments, but also really great.

Roy says

A blast from the past and the kids have to deal with it. A very sad and emotional volume.
