## **Taming Olivia** Becca Van

Olivia Hammond finds herself on an alternate reality to Earth called Terra-form, where she finds her missing best friend April Waterson.

Cedric and Hugh Kiath are panther shifters who claim to be her mates. Olivia wants nothing to do with them and uses her sharp tongue to keep them at arm's length. After trying to find her way back home, Olivia gets lost and must be rescued by Cedric and Hugh.

The shifters eventually claim Olivia, but a wrench is thrown in the works when another male claims to be her mate.

Just when things look to be working out, Olivia is kidnapped by a strange bear shifter. Will her mates rescue her in time? And if they do, will Olivia be able to open her heart to her men?

## **From Reader Review Taming Olivia for online ebook**

### **Anne says**

Ok, ok, I had to read this one, too. I am a sucker for this kind of story line. It was a good story. A few weird things (like were the word satire was used instead of sarcasm). But overall, enjoyable, in that shallow, Siren publishing way.

---

### **Tia says**

Yet again this heroine was put on the same parallel universe and her friend was in the first novel. It was great seeing the girls back together again and finding their own mates.

---

### **Jessica Gomez says**

Good story. I liked the female lead.

---

### **Ruth Hambley says**

Loved it. If you enjoy reading sci-fi, shapeshifter, menage and romance books then this is the series for you. Olivia was so sarcastic it was wonderful

---

### **Juliana Chen says**

still pick the first one better than this one...

---
