**U.S. Marshal Shorty Thompson - Tascosa Showdown: Tales of the Old West Book 58** Paul L. Thompson

U.S. Marshal M D (Shorty) Thompson's oversized ranch partner Buffalo, talked Shorty into letting him come along on this assignment in west Texas. James (Buffalo) Blackburn could be as stubborn as a sick mule about most everything. President Hayes sent Shorty a wire that had to be delivered by the Butterfield Stage Lines, telling him to head for Tascosa and round up some rustlers and land grabbers. A nagging feeling hit Buffalo to go along, not knowing this could lead them to the killers of his wife. Law or no law, nothing will stop Buffalo from beating them into a bloody pulp and ripping them apart limbs from body. He had waited too long to get his hands on these two low life murdering polecats.

The local Ranchers around Tascosa had waited long enough for the Texas Rangers to show up, and Washington didn't seem to give a damn. Now they would take the matter into their own hands. Too much blood had been spilled in and around Tascosa and all of it theirs. Friends and fellow ranchers were being shot down every day and their cattle and property taken over by the King. Using their guns and every farmer and rancher in the Panhandle, things were about to change. King or no damn King, a lot of men were about to die! Crooked law was about to be stopped. A huge showdown was coming in Tascosa.

After being kidnapped and held for five months, Sherilea Bessemer escapes from the gang of outlaws. The only thing that kept her alive was her thoughts of revenge. She had a long time to think, and her choice of weapons will be one very sharp kitchen knife and one old wooden clothespin.

## **U.S. MARSHAL SHORTY AND BUFFALO**

Lots of underhanded backshooters going on in the town of Tascosa. Ranchers from the surrounding countryside were having a very hard time keeping their stock from being rustled. Husbands of these ranches were systematically murdered, the wives and children were told that to leave or face the same fate..Some of these families had no close next of kin, so some of the town's folk took them, meanwhile these poor mothers with her children were paid pennies on the dollar for their farms/ranches. The call went out for U.S. Marshal Shorty Thompson who received a wire from President Hayes to find out what the problems were and whose behind all the killings.

Fast moving lots of gun fire, ambushes and any thing else that could go wrong, went wrong. But Shorty showed that you had to think on your feet pronto or else your body would be resting under a dirt blanket. Just as all of U.S. Marshal Shorty Thompson's assignments were all rough going, he still comes out okay and he cleans up the town's. But that's not saying greedy ranchers or gangs who actually take over towns using them as their private fiefdoms, total control of every aspect of the town and surrounding countryside. U.S. Marshal Shorty Thompson will be called upon again with Dunnie, his long rider horse under him, on their way to another fire wall.
