I actually only read Maggie Shayne's story, Twilight Vows which was part of this book. This story could actually be a stand alone book. Shayne introduces some totally new characters. DPI is not in this book, but her version of the vampire world is the same i.e. the Chosen contain a genetic anomaly that enables them to be turned. It was a fun, fast-paced quick read. (There is mention of Dante, the vampire who stars in the next book.)

Book 6 in "Wings in the Night" vampire series. Original novel. See my review in "Two by Twilight" which contains 2 books in this series- in which this one was re-issued and the other one "Run From Twilight" (Book 10) published.

This is a book with two great stories. The first by is superb as always with another instalment in her wings in the night series. Donovan is a great. A vampire tortured by his past and afraid to love again. And yet he still finds love but is afraid to trust it at first. Mrs Shayne is great at making characters you love and pull for.

Twilight Vows is the story that introduced me to Maggie Shayne and her Wings in the Night series. I totally admit that I was originally drawn to the book by its beautiful cover, and I quickly became captivated with the world Maggie Shayne created. I found her concept of a link between vampirism and the belladonna antigen to be intriguing and unique, and I adored the character of Donovan. Twilight Vows will forever hold a special place in my heart (and on my bookshelf)!
