Norterridane, a magical canine race of Genorrdia, have protected dragons for generations. But the dragon young are in danger. The Schorl serpents have found Genorrdia and threaten the lives of the dragons and their keepers.

Crimson wants nothing more than to be a dragon keeper and follow in her father's footsteps. When she stumbles upon two rare Obsidian dragon eggs and claims them as her own, she is thrown into a life she is not ready for. With little knowledge or experience about dragon keeping, Crimson sets off on a journey to protect the hatchlings.

Crimson must learn to harness the powers of her dragons or lose everyone she loves.

The first book in The Dragon Keeper Chronicles delivers a tale of magic, adventure, and survival that middle grade readers and fans of Watership Down and the Warriors series will love.

I really enjoyed this book! It took me a little bit to get into the book, and to grasp who was who, but then it was a quick and easy read. This book was definitely written well, and left me wanting to not put it down!

Very entertaining book! I love dragons! I also am a huge dog lover, so a canine that guards and protects dragon hatchlings is just a great story, if written well. This story is written very well! The characters are fun to read and I love the story of the two legs who lived in the caves. Another alternate future for humans maybe? Anyway, dragons, lizards canines, magic.. Just a good story. But I didn't want it to end where it did, so I hope I get to read the next one soon!

I won this in a Goodreads giveaway. All opinions are my own.

This book was a super quick and easy read and would probably appeal to a lot of middle grade readers which is the intended audience. This is also the first book published on 2018 that I've read. That's kind of a big deal to me because I'm really bad at reading new books.

I enjoyed the book for the most part. It was a fun, lively story with a cute animal protagonist. Crimson was realistic and her struggle, while not necessarily something most people can relate to at surface level, was understandable. Most people have likely been thrust into being responsible for something without necessarily agreeing to it. I like that Crimson does not wallow in self-pity, she's a motivated character.

The story felt rushed in a lot of places. It felt like things just suddenly happened and it took me out of the immersion. I feel like this wouldn't be a big deal if I was a middle grade reader. Then again, I seem to be reading a lot of books where the events just seem to happen suddenly.

Overall this book was pretty good and I'm looking forward to seeing what happens in the next one and hopefully I don't have to wait too long.

One criticism I will make that's not related to the book content but rather the format. I could only find it on Kindle eBook with no Kobo version. I had to use my dinosaur of a tablet to read it on the app. I hope that this book is expanded to more eBook formats soon because not everyone owns a Kindle.

I got this from a Goodreads give away.

Decent read for middle grade readers.

I thought it was very slow to build and then very rushed at the end.

Fantasy is a tale written in a world that only exists in the mind of an author. Some authors create fantasies that take us to worlds very different from our own. Tai Manivong has succeeded in creating a world so divergent and yet so familiar that we can instantly enjoy visiting this place. In her world, Crimson is a dog-like creature, a Norterridane, who protects dragons, in particular baby dragons. When Crimson takes on this role, she is not yet fully trained and has to grow into her role in order to perform her duties as dragon keeper. The story is fun, full of suspense, and will draw in those middle grade readers who enjoy fantasy worlds.

I received the book for free through Goodreads Giveaways.

I enjoyed the book. It was a fun story with animal characters that were cute. Crimson, the lead, seemed realistic and her struggle would appeal to readers. The book was a quick read for me. I love dragons and animal characters in stories. This book is written for middle grade readers and I feel many would be attracted to it.
