Sandville High (Season 1) Kelvin O'Ralph

Sandra Michelson is contended with the lifestyle of her workaholic husband - Ben, until an old friend, Raphael Milton moves over to her neighborhood. He comes to town with a decade-old secret that Sandra wants buried. Will he forget about the past and keep the one secret that can break up the entire Michelson family?

Julian King cheats on his wife once again, but this time around there is no escaping the consequences of his actions. Though rich and powerful, he is faced with a compromising situation that may result in losing everything he's worked hard to build over the years. Will he find a way out like he always does?

Sandville High takes a closer look at the thrilling lives of various families in the fictional city of Sandville. Packed with suspense and romance, it is the first season of a family series that will leave readers wanting more, and itching to learn more about their favorite characters.

From Reader Review Sandville High (Season 1) for online ebook

Saj Sajady says

What is happening in Sandville today? So much drama and suspense in this town. In the beginning Kelvin O’Ralph sets up the Michelsons as a typical family going through their typical daily routine. By the end of the first chapter and the beginning of the second the drama and story take several turns setting up intrigue for the rest of the book and series. The author does not wait to get the suspense started! I’ll do the best I can to provide a review without giving anything away.

The entire family, Ben and Sarah, the husband and wife with their kids Jessica and Eric, have their own dramas to deal with throughout the story. From the setup it is easy to see how suspenseful each situation is going to be because if it happens to spill over, or if it gets unmanageable there could be severe consequences, family and personal lives being destroyed. This is all in the context of a really likeable family. When I read some suspense it is hard to connect with the characters because I think to myself, just don’t do stupid things and there won’t be a problem. With the Michelsons, they all seem like really good people (albeit some mistakes are made) that are going through some dramatic times in their lives. I found myself connected really easily with every single one of them. They are all normal and relatable people and the drama they are getting into, there is a sense that you just want them to succeed and get over it.

Outside the Michelson family there is Julian King. Although he cheats on his wife and is rich and powerful he is not an immediately unlikeable character. Maybe because he is contrast with Raphael, who on first introduction seems like a real sleeve ball, and then maybe not, and then maybe so. Probably the hardest character in the story for me to get a read on. There are also many people that go to school with the Michelson kids, including the children of both Raphael and Julian. Of course this all adds to the suspense as drama plays out on both of the generational levels separately, but also having its related repercussions.

I think the author did a great job setting up the suspense in this first book in the series. This is the first book for me by Kelvin O’Ralph and I have to say I enjoyed the writing style. As I mentioned above, he got into the story right away and kept it moving quickly through the pages. The writing was really easy to follow and I found myself easily drifting from scene to scene alongside the characters and sharing in the suspense.

Elizabeth says

This book is so poorly written it’s painful to read. Adult topics appear to be written by a twelve-year-old. Terrible grammar, awful punctuation, horrid sentence structure and word choice - even for YA audience. The timeline of events is so skewed it could be considered a time travel plot. Only the 2nd book in my life to make the DNF list. Save your children; guide them toward a different book.

Gail Ofterdinger-Ledgister says

The book is quite short and had a very quick wrap-up. I felt shortchanged. It is a soap opera waiting to be televised. Marriage troubles, infidelity, kid troubles, small town gossips, the whole magilla. My thanks to the

author and LibraryThing for a complimentary copy.

Darlene Cruz says

Oh my, Sandville, just ooze such drama and I mean oodles of shhh..... don't tell kind of thing. Wow here I thought okay middle class wholesome family but as it stealth its way further along there are things that will unfold and make this tale quite the drama you either seen in the movies or around your neighborhood. I mentioned middle class family, now we enter the lives of the rich and smug upper class and this particular character I just wanted to throw something at him. All I kept thinking, "What an idiot." Yeah, I said it plain and simple, idiot! Now we step into the lives of teenagers and their contribution to this story, not boring just warp speed drama, oh wait I know there's another word for that no there's not. We have something special here in the making because everything ties in to each other. This story carried a suspense that got me squeezing and hoping, but it ended with an ??? And there were scenes I just had to shake my head and smile and give Kevin O'Ralph kudos. The characters were so believable and easy to follow throughout the story. One particular character I still feel there's something amiss do I need to say his name? I couldn't figure him out, was he a friend or foe? But it could be a female persuasion now too. I guess I have to see if this continues on don't we. An easy and fast read with a resilience of fluidity. Suspense with a whole lot of activity. Received a digital download for a review. Thank you, Darlene Cruz
