## **Sudden Desire** Lauren Dane

Tess Marshall has finally had it with her boss, spoiled but handsome actor Trevor Ryan. She quits and heads off to Lake Cushman for some much-needed vacation far away from phones, televisions and civilization. But Trevor realizes that he needs Tess and shows up on the doorstep of her cabin, demanding another chance. It's then that he realizes just how beautiful and sexy the woman he's had under his nose for two years is.

Their mutual attraction is incendiary and the next four days are filled with lovemaking and a deepening of emotion for both. They step into territory dangerous to Tess' heart. She knows she loves Trevor and can't settle for being his bit on the side but Trevor isn't ready for forever.

Tess knows what she wants and it's not to be a back door secret lover or second-best to Trevor's career or any other women. What remains to be seen is whether Trevor can get his priorities straight before it's too late and he ends up losing her forever.

### **Eleonora says**

This was the worst Lauren Dane book I have ever read! It was awful.

---

### **Laura says**

Trevor Ryan is n actor who doesn't appreciate what he has in his PA, Tess until she up and quits (good for her) then he realizes she means more to him than he bargained for. The sex scenes alone make this book worth five stars I am giving it but I wish she had developed the characters a little more because other wise it just people boinking. She does a nice job of writing descriptive foreplay scenes. I may have to read this one again, out loud ;)

---

### **Erin says**

Not unenjoyable.

Basically, it's Two Week's Notice (the movie) only with a lot of sex, and she didn't actually give two weeks notice.

And that's all you really need to know about this quickie.

Very little character development/plot. But for what it is, it's enjoyable.

The cover though is absolutely horrible. Whoever decided that was the one to go with needs to get fired.

---

### **Sandra Dagg says**

It amazes me how much story can be put into thirty some odd pages! This was a very short read, and I have to admit to having moments of not caring much for the hero of the piece, but he did redeem himself in the end. The sex scenes were hot and heavy, but I didn't feel they were overdone. I've given it 4 stars because I felt it was a very cool short write, loved that the heroine had so much backbone!!

---

### **gremlin says**

Fun, and definitely hot. However, I don't really buy the hunky actor suddenly noticing his Personal Assistant of two years as a woman only when she gets fed up and quits.

---

**Christine says**

Fast and sexy

---

**Gina (bibliobuff) says**

I love this premise — hunky actor falling for his "under-his-nose-the-whole-time" personal assistant. It's a short one, only about 35 pages, so the character development is flimsy, but it was still a fun read.

---

**Rey says**

[clit-ring (hide spoiler)]

---

**Candace says**

Way too short! The character development really suffered because the story was too short. I never really felt connected to either character and that is unusual for me when reading Lauren Dane. Usually her characters really grab me and I fall in love with them and want them to be together. This story, however, wasn't long enough for me to really care about either character.

I loved the premise and was excited to read it, but didn't love it. I think it had a lot of promise and could have been great if it had been long enough for the characters to really develop.

**Serena says**

My Rating System:

\* couldn't finish, \*\* wouldn't recommend, \*\*\* would recommend, \*\*\*\* would read again, \*\*\*\*\* have read again.

While this book did have a few redeeming qualities, due to a lack of editorial contribution I would not recommend.
