## From Reader Review The Choice for online ebook

### Joana Arteaga says

After loosing someone very important to her Hannah decides she will go back in time to prevent the accident from ever happening. Seth has figured out what she has been planning and knows he cannot stop her so he decides he will go with her. When she goes back to the past she realizes things did not happen the way it seemed. Now Hannah and Seth's lives are also in danger. Will saving the life of someone she loves mean another person she loves will have to die? I really hope not but I guess I won't know that until I read book 5. The ending is so sad but I'm also excited about the next book and can't wait to read it. I loved this book as much as I loved every other book in this series. The Choice is another 5 star book for me!

### Rhonda says

How many of us would make the same choice as Hannah and travel back in time to save a beloved relative? I know I would definitely like that choice. Wow, this book is action, action, action.....I can see this being made into a movie and even imagined who would play the parts of the characters. This is one of those nail-biting, on-the-edge-of-your-seat stories! I never saw this outcome coming either! I am already chomping at the bit for book 5!

I received a copy of this book from the author in exchange for my honest review.

Review on my blog (7/27): <http://christianbookshelfreviews.blog...>

Wow! What a thrilling continuation to the "Yesterday" series! While I've enjoyed all of the previous books, I'm pretty sure this one is my favorite (so far). There was so much tension and crazy moments -- and I won't even go into detail about the ending...

I loved the way this book started. I didn't know what Seth was doing at first (I mean, he knew Hannah had a fear of other people driving and he was driving crazily!), but later on I thought it was kind of sweet (for reasons I won't state for fear of spoiling).

Overall, I loved this book! I thought it was suspenseful and, if you've been reading this series, you'll definitely want to read The Choice! After the cliff-hanger ending, I can't wait to read Tomorrow (book five).

The Choice: Book 4 (Time Travel Romance)  
By: Amanda Tru

This is a wonderful series if you haven't read it yet. I just love all the characters. I think each book in this series just keeps getting better. I was never sure about time travel books but Amanda hooked me on the first one. "The Choice " is number 4 in the series. You should start with the first one "Yesterday" so you can follow the story.

If you could go back in time and save someone you loved, would you do it?

Hannah has decided she is going to time travel again to save her sisters life on the anniversary of her death. She knows there are risk it could be life threatening . She could die herself from doing this. The cost does not matter to her she is determined no matter what she is doing it. Her plan is to do this without anyone knowing. That doesn't work as planned Seth finds out about it. He knows he needs to protect her. The mission doesn't end up being what they thought now more lives are in danger. Someone is shot who will make it alive back to the future time? This is a 5 star book.

### **The choice**

Amanda Tru has a unique way of getting your interest from the first paragraph . This book is very action oriented so much so you don't want to put it down until you have finished. It get you out of the reality of your life and into a never never land where you can forget your troubles and get involved with Seth and his time traveling wife

## **JoJo Sutis says**

I wasn't sure what to expect when I began this series, but I have to say that it is absolutely one of my fave series ever!

Amanda has done a remarkable job with the characters (unforgettable) the journey they have taken through the books (what a ride!) and of course the romance (swoon-worthy!) and suspense (nail-biting).

I want this series in print, on my shelf to enjoy over and over again!!!
