Where There's A Will...

Sexy attorney Ryder Ford always knows exactly what he wants and how to get it. But Addison Wells, his gorgeous secretary, is one woman he wants but can't have. Or can he? One scorching, unforgettable kiss under the mistletoe is all that either have allowed. Addison is focused on her studies and becoming a lawyer herself and she plans to leave the dust of Whiskey River behind. Unless...

There's A Way...

Addison has mastered ignoring her hotter than sin boss until one stormy day when a threatening tornado forces them to find shelter from the storm. Despite the fact that Addison is weeks from moving to another city, she finds herself breaking her own "no office romance" rule. She's not meant to settle down—but how can she resist someone as persuasive and tempting as Ryder? She's determined that he should be her going away present but will Ryder let her go that easily?

## From Reader Review Where There's a Will for online ebook

### Claire Robinson says

4 - "I don't want to become a regret for you." Stars!

*Four brothers, two legitimate, two illegitimate...* and the reading of a will that is going to cause a few fireworks are what gives us the story of Ryder Ford and Addison Wells. Some Mistletoe, an unplanned kiss and three months worth of sexual frustration find this couple in a storage closet *sexing*, sorry I meant seeing out a storm!

Work place romances are always a good read in my book, and this quick and sexy novella had everything I needed for an hour of reading enjoyment, and it set up the new Tule Publishing; *Whiskey River* series really well. Ryder was sweet and sexy, Addison strong, sassy, and a little reluctant, it made Ryder's pursuance of her even sweeter.

### "Lie to yourself if you want but I'm not going to."

The will has been read, the terms laid out, and the Kelly and Blue brothers are now set up to have their stories told. Trey Kelly is up first in *One Night with the Cowboy* if it's as good as *Where There's a Will* then this series is going to be a keeper!

---

### Bette Hansen says

A quick fun read that introduces us to some of the good folks of Whiskey River. In this novella we get the story of Ryder Ford, sexy lawyer established in Whiskey River and his assistant Addison Wells. While they have both been lustng after each other, Addison hasn't let anything get started since she has plans to leave Whiskey River in her rear view mirror. Until one stormy day when they find themselves locked in a shelter....

---

### Irene says

3.5 stars

Great start to the Whiskey River series.

Loved the characters & look forward to reading the brothers stories to come =)

Thank you Tule Publishing via Netgalley for the advance copy.

---

## **H.L. Nighbor says**

\*\*I was provided an ARC from NetGalley for an honest review. I did not receive any compensation for providing my opinion.\*\*

Where There's a Will by Katherine Garbera and Eve Gaddy is a prequel novella to a new series they are collaborating on – The Whiskey River Series. This was a great novella and really sets up what you can expect for the new series to come. This novella made me excited to read the new series.

Where There's a Will is about attorney, Ryder Ford, and his law student secretary, Addison Wells. You can feel the sparks flying while they are locked in a closet seeking shelter from tornado warnings. Is this true love or just lust?

This novella is a really quick read and fairly light. The only complaint that I have, as I do most stand alone novellas, is that the storyline doesn't have a chance to really in depth and the characters don't really get a chance to get developed fully. Regardless, this was a fun read.

## **Teresa says**

3 stars. A very quick prelude to the Whiskey River series. This tells of the lawyer of Boots Kelly's will and sets up the premise off the future books. This was a workplace romance set during a tornado watch. It was a little too quick of a read that didn't quite manage to round the the characters off, but was the perfect prelude to the future books of four brothers who have to come together to satisfy the will in order to get their inheritance. An OK read .

## **Beyond the Pages says**

This story was a fast forward, rapid fire romance. It went from zero to one hundred in two seconds flat. I liked where it was headed, but I would have appreciated more. By the time I got to the end, I definitely wanted to know more about this cast of characters.

Rating: 3/5

Recommend: +/-

Audience: Adult

Status: M

Chemistry/Intensity: Yes

Conflict/Drama: +/-

HEA: Yes

### **Anita Byars says**

I received an ARC through NetGalley in exchange for an honest review.

This was a novella to introduce The Whiskey River Texas Hill Country series. Loved this sweet fun heartwarming read. Ryder Ford has been thinking about kissing his law student assistant Addison Wells since she kissed him under the mistletoe at the Christmas party. The heat between them has them both thinking about a repeat performance. But Addison Wells is in her last semester of law school and after she passes the bar she has planned to move on to a new job in a different town, so when an unexpected storm is headed their way and they have to seek shelter together Ryder and Addison decide to take full advantage of this alone time. But what happens after Addison goes for her interview? Will Ryder and Allison find their HEA? Loved the flirty banter and the sweet heartwarming fun in this story. Can't wait to read more.

### **Heather andrews says**

I enjoyed this novella it was a quick read and I really liked Ryder, "irked, he kissed her. When she would have spoken he kissed her again. "Honey, if you're trying to frustrate me you're doing a good job of it." I found it funny when he got mad it was so sexy, "Ryder ground his teeth. "You didn't hurt my feelings. You pi\*\*ed me off royally."

### **Amber .:★Wild Heart Reviews★:. says**

Where There's a Will straddles the line for me of both good and bad. The book started off slow for me, in fact, I had to check three times that I was reading the correct book and that the right one was sent. It's not horribly written but when it gets down to the nitty gritty, this novella is laying the ground work for Ryder's cousin's books. That's made very clear in the first and last chapters.

The actual characters, Ryder and Addison. I felt more of a connection to Addison, where Ryder for me was lacking. Even though he was doing everything right, it just felt off. Lets not even go into every single time I read Ryder, I think of the Disney movie Tangled and I see the swoon face.

Don't tell me you didn't see that coming. It just basically killed it for me, because Ryder -is- sweet. To quote Addison about him, and I do have to agree.

"There was nothing about Ryder that wasn't solid and real. And trustworthy."

He's a pretty stand up guy and you really do get that a majority of the time. I can still probably blame Disney for this.

Addison on the other hand has her head on straight. She's in school and she's drug herself up by her

fingernails to get where she is. This girl came from the "wrong side of the tracks", and fought for what she wants. She's what I would call resilient. Throughout most the book, she goes into an inner monologue of why these two can be together. She even gets snarky about it to Ryder.

Eventually, they both stop fighting it and pair up... at which point, it accelerates quickly. Given the fact that Addison works for Ryder, it's not like they are clueless about each other. The attraction has been there, on the back burner, just simmering.

All in all, it's a good short read. It would make a great commuter book for sure. One that you don't need to devote a lot of attention too and I'd for sure read it if you were planning to read the other books in the series.

### **Jessica Alcazar says**

*Meet the Kellys of Whiskey River, Texas, men who have always gone through life, and women, with their father's legendary charm.*

This is the story of Ryder Ford, the attorney who sets in motion the future stories of aforementioned Kellys ...

**Ryder Ford** is the sexy attorney for Whiskey River. **Addison Wells** is his secretary. *BOTH* hot for each other. *NEITHER* willing to make the first move. Until Mother Nature does it for them ....

The is was a quick and sexy office romance that no one should miss. It was fun and easy to read. It's a prequel of sorts to the Whiskey River series but written in a way that is not short or unsatisfying. Great characters with enthusiastic chemistry!

---

### **Patty says**

I enjoyed the *idea* of the plot for *Where There's a Will* but I found there was a lack of actually executing the story. Since it's #1 in a series, I wasn't expecting it to be so short! I felt like everything about the plot, characters, and romance was rushed. There was no building up to the chemistry between them. I liked the part when they were confined in a small space together (trying to be vague here), I felt like this was the most readers got to really see of Addison. I really liked Ryder and Addison, I just wish we actually got to learn more about them.

---

### **Nila says**

A very quick intense romance novella. Too much sex too fast for my liking before much character build up, part of a series Whiskey River. Hot Hot cover, love the colorfulness of it!

---

### Isha Coleman says

Two of my favorite authors came together to create a series that I will be following until the very end. With Where There's a Will each author gives their best. The finished product ends up being a heartwarming story that is fun, emotional and romantic. Received this book for an honest review.

---

### Nicola says

*Where There's A Will* may be a short novella, but it's sweet and sexy and does a great job of laying the foundations to another series from Tule Publishing that I'm no doubt going to love.

A Christmas kiss, a couple of months of both skirting around the other wishing for more, and a tornado sees attorney Ryder Ford and attorney-to-be Addison Wells holed up in a closet waiting for the storm to pass. He woo's, she resists and I spent an hour happy. Their romance opens the Whiskey River series nicely and introduces us to the *Four Brothers, two legitimate, two illegitimate* and you can just tell it's not going to be a walk in the park.

Looking forward to seeing where Eve Gaddy and Katherine Garbera take this series.

---

### Joan McBride says

**Don't like the ending standings are good but I don't like you that they don't in you got to get to another book before you can read it and find out how it ends and then worst of it is you can't find them in this stupid dang I've got the Android so I mean it's like cooking dinner and smiling and smells good**

I don't like the way she leaves the ending hanging out there so that you've got to read another book to do it and get out the books are not expensive but I just assumed get it all at one time so I don't have to dig through the Android it look for the other half to the book it's very irritating it's like cooking dinner looking forward to it sitting down and there's no food. What in the heck is the purpose of that except to get you to buy another book by just complete payone time Joan
