Double Betrayal

Ada Frost

Double Betrayal Ada Frost

Emily's life had three basic rules, love her family fiercely. Never expect forever and most importantly, shield her heart from pain. At a tender age she had learned love is not forever, sex destroys and if you don't invest your heart, it can never be broken. She played life safe.

All it takes though, is one moment, a defining light in the perpetual darkness to bring life into your heart. For Emily, it was a night she would never forget, an ordinary evening of dancing, drinking and if she was in the mood, a brief one night stand. But then he beguiled her. His emerald eyes captivated and enslaved her to him.

What Emily didn't anticipate was the mysterious giant to sit beside her and rock her foundations. His dirty mouth and sexy innuendos intrigued her. The green eyed Adonis took her for the ride of her life. One she would never forget. He intertwined himself into her life and captured her soul.

But the illusion of beauty can hide a broken past. And as the lovers fall deeper, the darkness leeches into the light, suffocating and destroying all within its path. Until there is nothing left but betrayal and shattered hearts.

Due to sexual content, it may not be suitable for readers under the age of 18 years old.

Carrie (Badass, Alpha-male, Cowboy Connoisseur) says

Book three in the Surviving series will leave you speechless, pissed off, utterly heartbroken, laughing so hard you cry and on pins and needles waiting for the next one.

Not to be missed, add this one to your TBR folks you won't be sorry

Three Chicks says

5 Star review by Jen Skewes

I loved this book!!

Double Betrayal is book 3 in the Surviving series by Ada Frost. I was so excited to read this book. I didn't even read the synopsis because Ada wrote it and it's Will's story. So of course I was reading it regardless. All I knew was that something happened between him and his long time love Marissa and we would meet his new love interest in Double Betrayal. I finally decided to actually read the synopsis and seeing that the heroine was Emily it just made me even more excited for this book.

Will has recently moved to the UK after his marriage fell apart. He had loved Marissa since he was 14 years old. He basically lived his life pleasing her and loving her for 20 years. Until the end when she completely shattered him in a way that he never expected. He has no intentions of ever giving his heart away again. He has built a wall around his heart that no woman will ever be able to break through. He is now in the UK visiting his brother Johan. One night at a bar he meets the blonde haired pixie named Emily. He has trouble keeping his eyes off of her and his hands to himself. He wants her, if only for one night. But he soon realizes that one night with Emily is not enough.

When Emily was 18 years old she thought her life was perfect and all planned out. She would marry the love of her life and they would have a family together. Until he shattered her heart into a million pieces. It is 6 years later and Emily is just trying to make ends meet and give Izzy the perfect life. Izzy is her rock, her love and her reason for everything. After having her heart broken once she swears that she will never fall in love again. But meeting Will Senior changes that. It was supposed to be one night, so why can't she stop thinking about him? Will and Emily are two people whose pasts are both filled with betrayal. They both have no intention of falling in love again for fear of getting hurt. But neither one of them can stay away from the other. And as time goes by their feelings become more than just about sex and passion. Maybe they aren't as broken as they think. Maybe they can love again, but in order to do that they both need to let go of the past and open themselves up to the idea of love again.

I loved this book so much. The prologue completely sucked me in. I went from being happy for Emily to heart broken. Emily is definitely one of favorite heroines. She has so much love and is so selfless for reasons that you will understand once you read this book. She is sweet, caring and just amazing. From the first chapter and the moment that Will opened his mouth I was in love. He is this big sexy giant with a dirty mouth and mind to go with it. What I loved though was that throughout this book you begin to see that the

person that he is when with Emily is the real Will. I think for so long he wanted to please his ex wife that he became someone that he wasn't. Emily brought life to Will and brought out this sexy, dominating side to him that I loved! He was also so sweet, caring and very protective of both Emily and Izzy. The first sex scene between these two, holy crap was it hot!! I think I may need to invest in a motorcycle!

Double Betrayal has a sweet and fun side to it. And while one minute you find yourself laughing and smiling the next your heart is breaking. There is drama and angst in the form of a psycho twin. I have read plenty of books that have book bitches in them, you know those bitches that you just want to punch. Well take those book bitches and multiply it by ten and you have Rhea, Emily's twin sister. Oh My God the woman was just pure evil. Every time her name was mentioned my heart started beating faster because I was so afraid of what would happen next, because with this chick anything goes.

I can't write this review without mentioning one person and that is Jack. Now at first meeting him I didn't like him for reasons that I do not want to give away. But you see how years later he still regrets hurting Emily and that he still loves her. There is a moment in the book where I honestly had so much respect for him. I would love to see him get his happily ever after because I honestly think he deserves it.

This book will make you laugh, cry, break your heart, and will have you swooning. I loved that we still get to see Johan in this one and see his happiness continue. I love his relationship with Will and how much he cares for Emily. Double Betrayal is a beautiful story of second chances, love, betrayal and moving on from the past. Ada Frost managed to bring out all of the emotions in this one. You will fall in love with the sexy Giant and his little pixie. I loved it and cannot wait for Ryan's story, especially after that epilogue!! I know that Ryan's story will be one big roller coaster ride of emotions and I am ready for it!!

Buddy read and reviewed with Sarah of Inked in Chapters

We're channeling Honest Abe – we cannot tell a lie. Neither of us expected much when we picked up *Double Betrayal*. It's the third book in the Surviving Love series (but can easily be read as a standalone) by Ada Frost. I know what you're thinking, who the *bleep* is Ada Frost?! We'll tell you who she is. She's the best author you've never read.

Emily (Em) is a twenty-something year old blonde beauty who has gone through more pain and heartbreak than anyone should have ever have to endure. In a last ditch effort to protect her heart from further damage, she's blocked out love completely. It's no longer an option; one night stands, however, are completely acceptable. A girl has needs after all... That's exactly what she's looking for when life throws her a curveball.

No matter how angry I was at him, I could not deny I wanted him more than I cared to breathe.

Will is a handsome American who's come to visit his brother in England for a while. Much like Emily, he's nursing his own version of a broken heart. The last thing he wants is to enter into a relationship. Everything changes when he pulls up a bar stool next to a blonde pixie. *His* pixie.

"All of me, for you. I'm yours, Em. All you have to do is claim me."

This book has more twists and turns than a roller-coaster. Just when you think you have things figured out, Ada throws you for a loop. Her writing is phenomenal; don't even get us started on the sex scenes... There's just the right balance of story line and sex appeal. Saying we loved *Double Betrayal* would be an understatement. It's only January, and we both agree that this will most definitely make our favorites of 2015 list – It may even make our favorites of all-time list. Now **THAT'S** sayin' something. *Double Betrayal* is a book that will stick with you long after the final words have been read. In fact, it will leave you craving more. Ada's writing is addictive, kind of like chocolate. Can you ever get enough chocolate? Nope, didn't think so.

A good book needs to do more than entertain. It needs to climb inside of you and make you feel. It should make the butterflies in your stomach flutter, or cause your stomach to bottom out during a rough scene. It needs to make your scalp tingle and your heartbeat faster in anticipation. Ada's writing has the ability to make you *feel*. That is why she has become, and will continue to be, a go to author for both of us.

Please, please, please add this book to your TBR list. *Double Betrayal* is everything you could want in a book. There is so much love, lust, loss, heartbreak and longing in this novel; don't let it pass you by.

Ada Frost says

Will and Emily are almost here!

Just a few more hours. To wet your appetite here are a few teasers <3

ENJOY!

Linda Kage says

I think my feelings have whiplash! I love books that cover an entire spectrum of emotions and Double Betrayal definitely gave me my rainbow of sensations. I think I freaking loved the hero, then wanted to junk-punch him, and then felt sorry for him, and was back to loving him again over the course of like two chapters.

The prologue starts out with eagerness that quickly morphs to heartbreak. And then chapter one shifts gears into steamy hot sexiness. Seriously, I'll never look at a motorcycle the same again after that uber hot scene! Whew! **fanning myself over here!**

I loved the ride Ada Frost took me on...almost as much as the ride Will took Emily on!! If you want a story that will make you tear up with laughter one second and then tear up with heartbreak the next and then ignite your ovaries the second after that, then this is the story for you.

And the heroine: whew, I love Em's brash, catty side as much as I love her soft loveable, maternal side. There's just so much to her! I love all their heartbreakening backgrounds that make everyone react the way they do! It's full of depth and emotion, and has a saucy layer of playful naughtiness drizzled on top!

Plus, Johan (one of my favorite book boyfriends EVER) is in this book, so...enough said! It's awesome!

I can't wait to find out more about Ryan; I already know I'm going to need an entire box of tissues for his story.

**And it's already available for Preorder!

Until there is nothing left but betrayal and shattered hearts.

*Wow! Ada has done it yet again! I like that this book wasn't as intense as the other two books in this series. Reading about the characters from the other books was great. I liked seeing that they are surviving and living the life they all needed. It was fantastic. Ada writes in a way that just captures your heart and doesn't let go

even long after the book is over. You are still wondering what she is going to write and who will be in the next book. I loved reading more about Will. This story will grab you by the heart and not let go. You will feel all of the emotions long after you put your kindle down. It just stays with you. I highly recommend this book.

I Love Story Time says

*** I Love Story Time was gifted an ARC in exchange for an honest review ***

5 Stars!!!

"What?! OMG...that is how you're leaving me??? I have tears.....TEARS!.....running down my face!!!! I can't even think right now!!! Please tell me how long I have to wait until I have the next book in my hands?? O.M.G!!!!!"

Yes! That is the exact text I sent Ada Frost the minute I finished reading this book! Which by the way, was just 5 minutes ago! I can not *believe* the emotions that are going through me right now. I am smiling, but crying all at the same time! Yes, it is possible! I am so in LOVE with everything about this series. If someone were to ask me what my top 5 series were, this one would be on the list. The reason why I said series vs book, is because every single book in this series seriously captured me and gutted me. I would rate all 3 books more than 5 stars if I could! As I'm sitting here trying to write this review, my heart is beating so hard, I can feel it pounding in my chest. Yes, the ending was a killer, but the whole book just brought every emotion out of me. I got mad, I definitely cried (more than once), I swooned, and there were so many times I laughed and found myself with the biggest, cheesiest smile on my face!

I was captured by this book the moment I started reading it! I was so nervous at first because Will comes off a little intimidating. He first meets Emily one night in a bar and everyone that knows her tried to push him away. However, Will didn't let anyone get in his way when it came to Emily, and he let her know right from the start that he wasn't going to back down. Will and Emily's relationship started off bumpy, but once all the misunderstandings were cleared up, I loved them together! They both have a past full of pain and sorrow, so they told themselves to never fall in love again. With the chemistry between these two, I didn't see that lasting for long!

I loved Will! I loved his personality. The moments that he was around his brothers, Johan and Ryan, were the best! The banter that went on between them, always picking on each other or Ryan always calling Johan and Will pussies for being in love and being afraid of their women was classic! They had me totally cracking up! I also loved when those same brothers had the most heart warming conversations.....

"When you find her, the one who completely owns you, it hurts to fucking breathe when you finally realize you'll never...never get to hold her again, see her smile, or hear her laugh."

"I feel like my heartbeats, with the sole purpose of loving her."

Will had a playful side, but he also had a hot, demanding, alpha male inside of him as well when it came to

Em.....

"Don't mistake me, Em; I'll make my intentions clear. This thing was a one night stand. It wasn't supposed to go anywhere, but I can't let you go. I intend to keep you. I'm giving you space to accept how we will proceed. But be sure of one thing: no man will ever touch what is mine again. And you are mine. I will allow you space and time, but run and I will chase you, and mark my words, I will catch you."

Not only did I fall in love with Will and Emily's story, I also fell even more in love with the characters from the previous stories. I loved that there was so much more of Lou and Johan. The love that they continue to show, and the bickering they continue to do is perfect. To see Johan happy and remembering all that he had been through, and how now he loves Lou with all that he is, brought tears to my eyes. There's also some of Dominic and Eve, which also had an emotional story as well. Reading about these characters made me want to go back and read *Elemental Fear and Surviving Love* all over again! Let's not forget little Izzy. What a sweetheart. She is so cute. I loved her relationship with Will. I think the way he was with her was what sealed the deal for me! I'm hoping that in the future, everything works out for the best, and we get more of her in the upcoming books!

Yes, the storyline is different from the previous books from this series, but I loved it just as much. The love, the drama, the sweetness, the laughter, and the tears made it perfect! As for what's next...I NEED IT NOW!!! I can not wait to see what Mrs. Frost is going to be putting me through next! I can already tell it's going to be another emotional read! All I have to say is..... where do I sign up???

~Juls

Debbie I Heart YA Books says

Ada Frost just threw me a heck of a delicious curve ball with Will Senior's character. I met Will in Johan's story (book two) and I had in my mind decided with who Will's character was going to be; a beautiful, sexy, kind of shy and on the broody side, man. So imagine my surprise when I started reading Double Betrayal and Will was not what I had in mind. I literally read the first few chapters with my mouth hanging open and definitely drooling with my eyes as big as saucers. OMG, Will is totally the opposite of what I thought he would be and all I can say is: Thank you, Ada Frost, for this beautiful giant of a man! Will is the most hottest, sexiest, sweetest, dirty talking man with his sexy innuendos I think I had ever read. I was fanning myself like crazy, and I will never look at a motorcycle again without thinking of Will Senior, dayyyum that was a HOT scene! I would love to of have been Em (Emily) *wink*

I will try to get my thoughts off the smexy and back to the review of Will and Em's story now. Em (Emily)...I have to say I'm so jealous of her, because she has Will. But, I still love her. Em is a strong, feisty, and kind of guarded, which I can easily identify with her character. Em has gone through a heartbreakingly betrayal to come out with a wall built around her heart, and she lives by three rules now: love her family fiercely, never expect a forever, and protect her heart from pain. Which means men are only one-night stand. Yes, Em is a tough woman, but Will—the beautiful giant Adonis—might be just as tough and the man to bring that wall down. Will's has his own betrayal that has hardened him. He lives his life in booze and women. So when these two hearts collide, they are hit hard, and all the rules are going to crash and burn.

I loved that Ada Frost brought back Dominic and Eve from book one, and Johan and Lou from book two, so readers could still see where their stories are taking them in their relationships. I also loved the new

characters we meet in Will and Em's story of Double Betrayal and they are Em's gorgeous brothers Acis and Cas (Castor). Yep, Ada Frost just made more writing work for herself, because these two guys are heartthrobs and I have to beg for their stories. But, I'm so glad that the next story in the Surviving series is going to be Ryan's. I have been waiting anxiously for Ryan's story. Ryan is a heartbreaker and I fell in love with this broken man, head over heels, deeply.

I can't express in words how much I love Ada Frost's Surviving series, and the love I have for all these beautiful characters. She's one awesome, talented storyteller. I can only tell you that if you haven't been reading the Surviving series, than I highly recommend that you do. Definitely a must, must read.

Hazel *Craves the Angst Reviews* says

I received this eARC from the author in exchange for an honest review.

5 Glorious, Amazing Stars!

Funny, Heartbreaking, Angsty and Phenomenal. This Series Just Keeps Getting Better And Better!

The Review:

I LOVED this book. I experienced a tidal wave of different emotions while reading it and felt like I'd been put on the spin cycle and I didn't get off until the very end. There was a lot happening in this book but the author blends the stories and character in perfectly to make one outstanding read that I just couldn't put down!

Double Betrayal is full of spectacular writing, angsty emotions, amazing character building, fantastic plot elements...all surrounding a sweet and steamy romance. Will and Em's introduction starts out as a burning, passionate fire that never lets up. Even when they were at odd, there was still that intensity between them that made you both want to scream at them to get their heads on straight and weep for them because they were hurting so much. I loved every spectrum of emotion this author pulled from me while reading their story.

Em's past is painful and steeped in the worst kind of betrayal. She doesn't trust. She doesn't look for love. She just exists, giving the best life she can to the one person who means everything to her. When Will walks into her life, she sees him as another one night stand. A gorgeous one night stand, but a one night stand nonetheless. However, Will sneaks past her defenses and together, they work towards finding something real and something true.

Will's past isn't submerged in the happily-ever-after he thought he would get when he married his childhood sweetheart. He's been betrayed and lied to and hurt and when he sees Em, suddenly he can breath again. But like her, he's insistent that love isn't in his future ever again.

I loved watching these two succumb to their desires, their feelings and eventually their love for one another. The passion was intense, the romance was sweet and the banter back and forth between them was just perfect.

We also have returning characters who I absolutely adore. Johan's story from book two has finally seen the happiness you ached for him to have as he and Lou live out their HEA. Dom and Eve are building a family and everyone seems to be getting the life they deserve. After so much heartbreak and past pain, it was beautiful to see the friendships and family they'd built within this authors world. I loved all the little pieces we get into their lives.

The Wrap Up:

This story was filled to the rim with forward movement. At no time did I ever get bored or bogged down. I teared up, I laughed, I got butterflies. It was hot, it was sweet, it was romantic, it was intense, it was heartbreak, it was funny, it was EVERYTHING. Name an emotion and I had it during this read. It was perfect!

Ada Frost has outdone herself. This one will definitely sit at the top of my favorites for 2015! I can't wait for the next book and Ryan's story!

Jennifer says

Double Betrayal is book 3 in the Surviving series by Ada Frost. I was so excited to read this book. I didn't even read the synopsis because Ada wrote it and it's Will's story. So of course I was reading it regardless. All I knew was that something happened between him and his long time love Marissa and we would meet his new love interest in Double Betrayal. I finally decided to actually read the synopsis and seeing that the heroine was Emily it just made me even more excited for this book.

Will has recently moved to the UK after his marriage fell apart. He had loved Marissa since he was 14 years old. He basically lived his life pleasing her and loving her for 20 years. Until the end when she completely shattered him in a way that he never expected. He has no intentions of ever giving his heart away again. He has built a wall around his heart that no woman will ever be able to break through. He is now in the UK visiting his brother Johan. One night at a bar he meets the blonde haired pixie named Emily. He has trouble keeping his eyes off of her and his hands to himself. He wants her, if only for one night. But he soon realizes that one night with Emily is not enough.

When Emily was 18 years old she thought her life was perfect and all planned out. She would marry the love of her life and they would have a family together. Until he shattered her heart into a million pieces. It is 6 years later and Emily is just trying to make ends meet and give Izzy the perfect life. Izzy is her rock, her love and her reason for everything. After having her heart broken once she swears that she will never fall in love again. But meeting Will Senior changes that. It was supposed to be one night, so why can't she stop thinking about him? Will and Emily are two people whose pasts are both filled with betrayal. They both have no intention of falling in love again for fear of getting hurt. But neither one of them can stay away from the other. And as time goes by their feelings become more than just about sex and passion. Maybe they aren't as broken as they think. Maybe they can love again, but in order to do that they both need to let go of the past and open themselves up to the idea of love again.

I loved this book so much. The prologue completely sucked me in. I went from being happy for Emily to heart broken. Emily is definitely one of favorite heroines. She has so much love and is so selfless for reasons that you will understand once you read this book. She is sweet, caring and just amazing. From the first chapter and the moment that Will opened his mouth I was in love. He is this big sexy giant with a dirty mouth and mind to go with it. What I loved though was that throughout this book you begin to see that the

person that he is when with Emily is the real Will. I think for so long he wanted to please his ex wife that he became someone that he wasn't. Emily brought life to Will and brought out this sexy, dominating side to him that I loved! He was also so sweet, caring and very protective of both Emily and Izzy. The first sex scene between these two, holy crap was it hot!! I think I may need to invest in a motorcycle!

Double Betrayal has a sweet and fun side to it. And while one minute you find yourself laughing and smiling the next your heart is breaking. There is drama and angst in the form of a psycho twin. Andrea says

Beta read. Ok, so five stars just is not enough for this awesome book! Beautifully written, gorgeous characters, I cannot praise this author highly enough. If you're buying new books any time soon make this one top of your list xxx

Megan says

4 Star. Heck I might up it to 4.5!!

There were MANY parts I loved. Especially how Will and Em met. I loved their nicknames for each other. I also loved that, again, like the previous book you got more detail on the other character lives. I didn't fall like I did with Jo and Lou but I loved Will and Em's flirty ways. I think they were more lust with major attraction and the love came way later. There was too much sex for me in this book and even though it went with how they met (one night stand and all which was completely HOT) it was just too much. The beginnings of them together were again smoking. There was immediate connection and I loved all the dirty talk.

“I lost me.”

“I’ll find you again, I swear it.”

“No—”

“I’m in now, Emily Richards. I will fight for you, even if I have to fight you yourself . I will find you, pixie-girl.”

Gosh, they both had some crazy, unimaginable past that they both were in the mist of overcoming.

I love how it was unconventional. I was also confused many times with the plot, BUT once the clues became clear I was blown away. Again, with the other in the series, what you think isn't exactly what is happening. I loved the be proved wrong. The plot here was total off the wall and I never saw it coming. Some things you didn't have to wait to long to have them spelled out but then some you did have to way a little bit. I thought one thing and it was so not the case.

This was very close to a 5 star for me. If the sex would be a little less involved and the quick to love part, AND a little less mushiness from Will it would be an easy 5.

I've got to tell you that I have found one awesome author and series to watch out for. I only hope there is more to come, especially for Ryan. I need his story- especially!!

“I’m tired of listening to the shit inside here.”

He pounded his fist against his temple and I winced; that had to hurt.

“I’m so tired, Will. The noise, the constant fucking noise.”

He slumped against the wall, holding his head in his hands.

“And don’t talk shit about therapists and crap like that; it doesn’t work.”

I knew he wasn’t talking about real sound. It was the voices of his past; the fear, anger and guilt he felt over what happened.

“I want silence; that’s all I ask. I don’t need to fight anymore, Will; the kid is safe.”

If Johan book killed me, I am not sure what Ryan's story will do to me...please let there be a book on Ryan!!!!!! :)

I love that this series has taken such a new route of grabbing me and keeping me invested book after book.

ARC provided in exchange for an honest review. Buddy read and joint review with reni_reads for Inked in Chapters

We're channeling Honest Abe – we cannot tell a lie. Neither of us expected much when we picked up Double Betrayal. It's the third book in the Surviving Love series (but can easily be read as a standalone) by Ada Frost. I know what you're thinking, who the bleep is Ada Frost?! We'll tell you who she is. She's the best author you've never read.

Emily (Em) is a twenty-something year old blonde beauty who has gone through more pain and heartbreak than anyone should have ever have to endure. In a last ditch effort to protect her heart from further damage, she's blocked out love completely. It's no longer an option; one night stands, however, are completely acceptable. A girl has needs after all... That's exactly what she's looking for when life throws her a curveball.

No matter how angry I was at him, I could not deny I wanted him more than I cared to breathe.

Will is a handsome American who's come to visit his brother in England for a while. Much like Emily, he's nursing his own version of a broken heart. The last thing he wants is to enter into a relationship. Everything changes when he pulls up a bar stool next to a blonde pixie. His pixie.

"All of me, for you. I'm yours, Em. All you have to do is claim me."

This book has more twists and turns than a roller-coaster. Just when you think you have things figured out, Ada throws you for a loop. Her writing is phenomenal; don't even get us started on the sex scenes... There's just the right balance of story line and sex appeal. Saying we loved Double Betrayal would be an understatement. It's only January, and we both agree that this will most definitely make our favorites of 2015 list – It may even make our favorites of all-time list. Now THAT'S sayin' something. Double Betrayal is a book that will stick with you long after the final words have been read. In fact, it will leave you craving more. Ada's writing is addictive, kind of like chocolate. Can you ever get enough chocolate? Nope, didn't think so.

A good book needs to do more than entertain. It needs to climb inside of you and make you feel. It should make the butterflies in your stomach flutter, or cause your stomach to bottom out during a rough scene. It needs to make your scalp tingle and your heartbeat faster in anticipation. Ada's writing has the ability to make you feel. That is why she has become, and will continue to be, a go to author for both of us.

Please, please, please add this book to your TBR list. Double Betrayal is everything you could want in a book. There is so much love, lust, loss, heartbreak and longing in this novel; don't let it pass you by.
