## Dragon's Teeth: An Alex Rogers Adventure C.W. Lamb , Charles Lamb

As the newly appointed Lord Protector for Windfall and Mage Apprentice to the Wizard King of Great Vale, Alex Rogers had taken the role of a lifetime. Combined with his pending marriage to the half-nymph Lady Cassandra, he had more on his plate than he could ever hope to accomplish anytime soon.

However, a message intended for the dead Prince Renfeld, one exposing a dastardly plot, had been dropped in his hands. It was a plot involving the kidnapping of the sister of the King of Great Vale, and it leaves Alex no choice but to depart for foreign lands across the Western Sea. There, he must rescue someone who is not only the King's sister, but also the mother of his soon-to-be bride.

## **From Reader Review Dragon's Teeth: An Alex Rogers Adventure for online ebook**

### **Joseph Grant says**

#### **A good book in general.**

The author needs to improve on his grammar as it does detract from the story line in several ways. Also the usage of Yiddish terms by the dwarves was offensive boarding on anti-Semitic racial discrimination. This also was unnecessary and troubling. I hope that the next novel avoids this as it makes me less likely to support the author?

---

### **K says**

Entertaining but the main characters are sometimes irritatingly stupid. For example, while in the middle of a rescue, one of them starts a conversation with the hostage they are freeing and they are so loud that they alert the magical guardian who they saw sleeping.

---

### **David Beck says**

Alex and his group of friends, including some new mermaid members rescue Cassie's Mom from an evil guy who controls dragons.

---

### **Larry Holly says**

Another great read of this series. Keep them coming

---

### **Dan McNally says**

#### **Very good book**

I have to say I am really enjoying this series.... the very ending nb g of this book actually surprised me. Not a lot of books do that to me. Thanks for the excellent story!

---

### **Macleisha says**

#### **Loved it.**

I think the second book was better than the first. Dragons, unicorns, and flying horses, oh my! Liked the foreshadowing for the third. Looking forward to it. Keep writing Charles! Are you done with the Alice series?

---

### **Haretic says**

#### **Loved it**

Really loving this series. Especially the lore and worldbuilding. We need a book about sweet Kinsey too. Kidding. Kind of. Love it regardless. Haha.

---

### **Michael says**

#### **Well written and held the reader's attention**

What is next for Alex Rodgers. This book show that even in the world of fantasy that Alex falls into that some things never change. The world that holds to fanatical truths above the common sense of everyday life still runs deep in the interaction of people. I look forward to the new chapter in this series. Thank you for a good time and a great world to explore.

---

### **Robert Savage says**

#### **Not bad**

Really good young adult novel. Only downside I didn't appreciate the reference to the dwarves speaking bits of Yiddish. I'm sure it was meant to be funny but then having them be greedy later on made it seem like a bit of bigotry was being subtly introduced.

---

### **Curtis says**

#### **A Good Story**

I really enjoy the tone of these books, written in a slightly formal narrative, and feeling very much like an adventure story from a book a few decades older. Also appreciated is the light touch on the drama and romance, keeping things from getting too dark or too explicit. The comedy is also nicely done.

If you enjoy adventure, you really should give this series a try. Recommended.

---

### **KEVIN says**

### **Great book**

I loved your books both this series and the Alice series. I would recommend to the author that when you are switching between the characters that you allow one story to play out then go to the other story arc until they meet up again, telling the entire story of their journey to the tunnels then switching to when the mermaids have spilt off and do their thing and use that until the time lines back up to their meeting with alex. Switching after just a paragraph i feel detracts from the story because you need to switch gears. Overall a great book and I look forward to the next in the series.

---

### **Kevin Beck says**

Alex and crew rescue his fiancee's mother from an evil dude that can control dragons.
