**His Crime** Debra Kayn

**Cam's obsessive hold on Christina erupts in a mind-blowing conclusion...**

One breath leaves him weak. Love hurts.

President of Moroad Motorcycle club and career criminal, Cam Farrell gets a second chance at life. He promises to keep Christina at his side and bring his son home alive. But, when new secrets come out and club business sparks a war, Cam must learn that family comes first or risk losing control of his club, his MC brothers in prison, his woman.

Nothing is black or white. Sometimes bad people win.

Determined to make sure Cam stays alive and Jeremy comes home, Christina Nickelson stands up against Cam, the club, and society. At her lowest, she's willing to fight dirty to make sure her unconventional family stays together. Even at the risk of losing Cam's love.

His Crime...Her Time...

It's taken me twenty-four hours to work through my thoughts and opinions of Debra Kayn's latest book in the Moroad Motorcycle Club series, "His Crime". You know when you pick up one of Debra's books, you are in for a ride. You have to mentally prepare yourself for whatever she is going to throw at you. Sometimes you have it under control and sometimes you are just mentally screwed over. Get ready for a mental explosion!

"His Crime" picks up one week later from "For Life". Cam Farrell, career criminal and president of the Moroad MC, is dealing with the ultimate betrayal from his club vice president and the desertion of his son. Now this is where we think Cam is going to do what Cam does best, go after them both and kill them! But oh Debra, she is a sneaky little thing! We watch as Cam manipulates those around him to do what he feels is best for his club! (But, seriously – How does Debra come up with these devious plans? She's can be scary!) I must say – In the first two books, I did not like Cam Farrell very much, I thought him to be selfish, controlling and bordering neurotic. Well, he basically manipulated my opinion to accepting him for who he is and seeing that his way is the best. Damn! Now for Christina. In the first two books, we saw how Cam controlled Christina, made her dependent on him for literally her next breath. In "His Crime", we see Christina start standing up for herself and actually starting to have a backbone! It's about time! You Go Girl! We see Cam in a different light through Christina's eyes. Brilliant delivery Mrs. Kayn! Oh Merk – many love you - many hate you! I have been Team Merk ever since you were released from prison. (But I always root for the under dogs!) The twist and turns in this book brings you out into the light. You have a deep and troubled past that we will learn about next. We learn a bit more about secondary characters in the club, such as Jacko – is he or is he not crazy? Bear, Stache, Katie and Lola. Will we be seeing stories about them? Only time will tell. And we learn some truths about Jeremy and the life he lived with his mother before going into foster care and being "adopted" by Cam.

I cannot say enough good things about this book. My emotions were up and down the entire story. There was no way to predict the outcome of this book. If you follow Debra through social media, either through her blog or Facebook page or if you follow any book review blogs, such as DayDream Believers, Debra promised answers and understanding with "His Crime", well she delivered. I truly understand the meaning behind the title, "His Crime"

"The thought of losing her debilitated him. His hands shook, his lungs struggled to keep up with his

breathing, and the weakness from not protecting what he owned overwhelmed him in a way nothing else bothered him."

Everyone knows I am a fan of DK. She is a time tested author who delivers each and every time. She writes stories that just keep getting better and better with every new release. There are few and far between authors who I can say this about. Whether you love her or hate her, she pushes you past your comfort zone. She makes you question your own beliefs and sheds a different light on what you think right and wrong is. In book 1, I said this was a game changer for the MC genre. In book 2, I was all over the place in how I felt and what team I was on. In book 3, I am in awe of this master storyteller. Cam & Christina's love story is not wrapped up in a pretty bow. It is thought provoking and heart stopping til the very last page. In His Crime, you get a glimpse into Cam's madness. One thing I can confirm in this book is that Cam and Christina find the perfect balance in their relationship. Is it the typical relationship? No. Is it a relationship I would want for myself? Hell Yes. What shines through, like always, is these characters love deeply; while not perfectly by society's standard, it is perfect for them. The reasoning behind Cam's method is what really made me Team Cam. The simplicity of why he did what he did made me tumble head first right in love with him. It is not always as complicated as one may think. Is Cam infuriating? Yes! Is Cam a master chess player when it comes to his woman and club? Abso-fucking-lutely! All this is what made me love this series! The absolute mindfuck that Debra Kayn takes you on is no less exhilarating in this final Cam & Christina book. While we move on to another MC member's book in book 4 - I don't think this wild ride has even really begun. When you think you have the end in sight, think again, because the only one thing I am sure of when it comes to Debra Kayn's book: Expect the Unexpected. She will always give you more then you even thought your wanted.

Applause... applause, Debra strikes gold again with this super awesome biker read.

Five golden stars to be precise! Story invoked many different emotions, for starters rage, but ummm that's directed at Cam. Pity and sympathy for Jeremy and Christina. Loved all of the down to the minute suspense and action!

I was pleased with how Cam and Christina's story was wrapped up and especially the drama and emotional turmoil over Jeremy and Merk. There was more angst, clubs fighting for power and watching Christina develop a backbone at the beginning of the book was really great to read...but in the end, Cam came out with everything (and everyone) he wanted in his life and I am very excited for Merk's book (and hopefully eventually Jeremy's own book).

An exciting and seriously intense power struggle of a biker romance. Loved it!

## Colleen Marie says

In this third (the last for CAM and CHRISTINA) you'd think we readers would catch a break from the non-stop feeling that the clock is ticking away and that at any moment devastation will occur. It was that way for books one and two, as well.....the constant feeling that doom was imminent. Thankfully; we get the HEA that these two hadn't been able to settle into because too many bad things were happening. At several points in this book I thought CAM might suffer a heart-attack or stroke because of the extreme situations he was up against. His 'plans' were always pretty far-fetched and reliant on pure luck.

Mostly, what I get from this book and from reading the prior two books leading up to this, is that Cam made one huge mistake. I kept asking myself why he made the choice he made in book one; a choice so important to him that he'd lie to his club, to Christina, and to the person who'd eventually become very important in his life. Many things unfurled from that lie. Every victory was hard-won and nothing came easy. As a reader I felt tortured because CAM was so blind in his determination to have Christina and that blindness meant CAM didn't see what was in front of his eyes; until it was almost too late. CAM was single-minded in keeping CHRISTINA by his side. He knew he needed her and that only she could do. He was lonely for what only one woman could give to him but winning her over was a process that would have lesser men giving up – likely before the end of book one. More than once during the first book I thought.....ahhhh....Stockholm Syndrome. Sometime into book two, however, I realized how wrong I was in thinking this. You see; CAM and CHRISTINA are both pretty damaged from experiences in their younger lives. Not a little damaged.....VERY bad things shaped who they are at the beginning of book one. I came to realize that CAM recognized something in CHRISTINA's letters (the ones she sent to him when he was in prison) and he knew he'd found the other half of his heart – the one person who would bring love into his life. His demands of complete surrender and loyalty became telling in that it showed how vulnerable he could be against the one person he gave his heart to. He needed that one woman who would stand by him and not leave him. This story starts out with CHRISTINA being weak, needy, and powerless and ends with CAM being weak for the one woman he's come to love, needy for only what she brings to his life, and powerless if she leaves him. At times I thought the club might call-him on his behavior and decisions and I'm glad that each member was more concerned with themselves and making money as outlaws; so they ignored CAM and what he did in order to keep his CHRISTINA with him. Outlaws.....they can do what they want!

There are so many fine characters in this series; MERK being one and I'm so glad he'll get his story next. I have to admit to being afraid he wouldn't make it to the end of book three. In my eyes he did nothing wrong by falling in love with the wrong woman. He showed himself to be quite vulnerable and needy. Falling in love with your President's Woman....just not a good idea, especially when the President is CAM.

Jeremy? There has to be a lot left to his story since he's still a young man. I'm hoping he'll get his book too.

I've really enjoyed all three books to date: CAM and CHRISTINA have been one heck of a roller-coaster ride in terms of their ups and downs. Theirs is quite a love story.

Thank you.

### **Rating: 3 Stars**

Slow Moving. The third and final installment to Cam and Christina's story left me...not wanting more. I really enjoyed the first two books. Our hero, Cam, is a very crafty manipulator and does not care who he steps on to get what he wants, which is Christina. I don't think I have read a book yet with this kind of hero, the one who has plotted and schemed to get the girl from the very beginning. He is a very unique character that I wanted to know everything about! I was so sucked into the first two books, I finished them in a few days. However, this book really dragged for me. In fact, I had to force myself to finish reading it.

With that being said, the characters were awesome, the final storyline was not. I think I'm off the Moroad train for now.

### **Why Not 5 Stars?**

It dragged, it dragged, it dragged! Not much happened in this book...very little action, just more of the same.

Weak storylines - Personally, I thought the finding Jeremy storyline was uneventful and boring and went on forever. At some point, I was hoping they would not find him, and (view spoiler). The secret was also weak and the responses to everyone involved was not exciting. There was very little to no MC action, just a reveal of the new way of doing business. Boring.

I hate to say it, and I tend never to write this in a review, I think this book was not necessary. There was not enough going on for an entire book and it was also not a good introduction to the other characters who will have books of their own.

## **Hms says**

Loved this trio but Christina bothered me in this final installment. Her altruism is commendable but her naïveté after 3 years around Moroad and living with Cam is hard to swallow. They are outlaws plain and simple stop being shocked already.

## **Heather andrews says**

Cam really is a sentimental guy, I love the tender moments between him and Christina, "not going to eff you . I want your skin against me, so I know you're not leaving me." Cam is not a shy man and shows his woman affection in front of his brothers, "be back before dark." Cam squeezed her a\*\* in front of the others. "Do you have your phone?" I'm glad the characters got the ending they deserved and I want Jeremy's story so bad.

\*I was given a copy of this book as a gift from the author in exchange for an honest review.

5 HUGE stars for His Crime by Debra Kayn!! This is the third book in the Moroad Motorcycle Club series, and it is the continuation of Cam and Christina's story.

Cam Farrell has survived being shot in the chest, but his life remains in chaos. After Jeremy learns that Cam is not his biological father, he runs away from both his family and his club. A major rule of the club is that no one leaves the club EVER, and if they do, they pay for their betrayal with their life. Knowing this rule, Christina does the one thing that she promised she would never do and leaves Cam. She knows that if she can find Jeremy before the club does, she can possibly save his life. Will she be able to find Jeremy before Cam comes to take her home? Will Cam forgive her for breaking her promise? When more secrets come to light, will Cam realize that he must adapt to the changes that are taking place all around him in order to protect both his family and his club?

I cannot express in words how much I love this series, but I will try! :) Cam and Christina are both great characters. Cam is a gruff, dirty biker whom the reader can't help but love. He lives the outlaw lifestyle taking what he wants with no apologies. His love for Christina is borderline obsessive, but I ask you, what woman doesn't want to be loved that completely? While Christina is no stranger to trauma and suffering, she has always viewed the world as black and white. The more time that she spends with Cam, the more she realizes that the world we live in is painted in shades of grey. She learns that where there is good, there is also evil and where there is beauty there is also ugliness.

Debra Kayn is one of my most favorite authors. She is a "real" person who writes stories about "real" men. She also knows how to craft a story that will leave her readers wanting more. If you haven't read the books in this series (or any of her other series for that matter), you don't know what you are missing!! So, get up off your butt, and one click them now! I promise that you will be so glad that you did!! Congrats to Debra for creating another great read!!!

**\*\*JOSIE'S 4.5 STAR REVIEW\*\***

**\*\*\*\*PLEASE READ BOOK #1 Wrapped Around him and Book #2 For Life prior to reading this review, it will have spoilers and you are going to want to get to know these characters\*\*\*\***

I am an MC Book whore, I love a good, gritty MC story and this one was that and much more. Debra Kayne has done an amazing job with this series and although this is the last book for Cam and Christina and I am sad to see them go, this is not the end of The MoRoad MC. I have really grown to admire this author's writing and her ability to suck me into this MC world that is real, hard and dangerous. I have been so engrossed and captivated by these characters that I literally dropped everything I was SUPPOSED TO DO, to read this bad boy.

Cam Farrell is the President of the MoRoad Motorcycle club. He is a criminal and does whatever he has to do to get what he wants, such as the case with Christina. After being shot in the chest by his VP and barely

surviving, Cam's life is in chaos and so is the MC. Cam's son Jeremy learns he is not Cam's biological son and all that he believed was a lie. He feels betrayed, angry and alone. Jeremy does the one thing that goes against club rule, he leaves. When Cam started the club he put a rule in place to protect the MC. No one leaves the club they pay with their life.

Cam does not hide the type of man he is. He is hard and dangerous and since taking Christina he has never hide that part of life from her. But after Jeremy leaves, he knows he needs to keep his promise to Christina and bring Jeremy home so that she can be happy and have her family. He promises to keep Christina at his side and bring his son home alive. I loved Cam. Yes he is a dangerous man, but we also see a kinder softer and gentler side of him when he is with Christina and Jeremy. There is nothing he won't do to keep Christina happy and safe and secure but in his search for Jeremy more truths and dangers comes to life.

Christina's character has changed so much from the first book. She loves Cam and her life with the MC but in order to bring Jeremy home alive she feels like she has to leave Cam and the MC behind. Christina is stronger and more determined. She no longer sees the world as one way. Christina knows Cam is bad and lives a criminal life but she also sees the good in him and will do anything to keep him safe. Christina promised to never leave Cam's side but when pushed with Jeremy's unlikely future she defies Cam and stands up to him and the members of MoRoad. Cam and Christina will have to fight for their very unconventional family and keep the MC from going under. They are both in a race of time to save Jeremy and save the club.

Cam and Christina are the best couple. They ground and balance each other and they draw from each other's strengths to rise together throughout what ever gets thrown their way. There are so many twist and turns, and more secret revelations in this book. Just when you think things are where there should be something else comes out and tests their faith and love. Will Christina find Jeremy and bring him home before the Moroad finds him first? Will Cam make good on his promise to Christina? Will Cam, Christina and the Moroad MC survive the impending battle? Will Jeremy come home and forgive Cam for his lies? Can Cam come to terms with the new revelation and keep all that he loves safe? This truly is a remarkable series full of suspense, thrill, danger and love. Definitely a must read!

## **Judy says**

. The ring she wore on her left ring finger with the inscription Dear Christina, I love you, Prisoner #18974 spoke the words he wouldn't let the rest of the world hear.

Another 5+ stars for this series. I'm really having problems actually articulating how much I loved Cam, Christina and Jeremy's story. Cam is a true anti-hero and will no doubt generate a lot of criticism. Readers will either love or hate him. He comes across as a self-centered SOB who manipulates people to get what he wants and Christina will surely be labeled as a Stockholm syndrome victim. But that's not how I saw it. If you really dig deep into Cam, you find a man who was never shown any love by his abusive parents, as well as a man who has lived a good portion of his life behind bars. He's a criminal and is surrounded by hardened criminals, so don't expect the usual level of trust and loyalty you find in other MC's. That's not to say, this group of hardened criminals won't die for each other but you really don't want to trust them too far. A prime example is Merk, the VP, who vies for Christina's affections and love while Cam is incarcerated. He's been assigned to protect Christina but ends up trying to undermine Cam and take Christina away from him. Cam's goal has always been to take care of the Moroad members, both inside and outside of prison.

We first met Cam and Christina back in book 1 and watched the love develop between them. No, it wasn't a healthy love but it was love all the same. We see Cam give Christina independence to help her overcome her insecurities while at the same time keeping her tethered to him because she is his world. He can't live without her. We see Jeremy taken from a foster care environment and brought into the Moroad family as Cam's son. While Cam doesn't display any public affection towards Jeremy, you can feel the bond that develops between Cam and Jeremy over the series. Was Cam deceitful in not sharing the full truth about Jeremy's birth? Yes, but then you see that even with the deceit Jeremy was taken from a bad situation into a much better situation where he was loved by Christina and mentored by Cam.

In this last book Cam continues to fight battles to keep Christina and Christina continues her inner struggle between right and wrong. But in the end, Christina knows she loves Cam unconditionally and can't live without him. We see Cam make many concessions to keep Christina happy that we would not have ever dreamed about in book 1. The book ends with no doubt about the love between the two and the love between Cam, Christina and Jeremy. It's certainly not a conventional relationship but if you dig deep and not just accept the surface, you'll see it and feel it.

I swear this author keeps getting better and better. The unique approach she took with this story about a bunch of criminals in and out of prison, a motorcycle club, a good girl, a very bad man and what someone will do for love just astounds me. I was riveted to all three books and I was so happy the author didn't make us wait for months to continue the story. I can't wait to read Merk's book next even though he's another anti-hero and I wasn't left with warm feelings towards him when the book ended. But somehow I believe this author is going to change my whole concept about Merk before it's over.

Another FYI – no cheating. Once Cam gets Christina, she's it for him.

You really must read all three books in order but believe me it's well worth it.

### **3.5 Stars**

This is book 3 is the Moroad MC series and books 1&2 have been great. I was really looking forward to delving into this instalment, despite being left with a sour taste in my mouth, a definite loathing for Cam's behaviour and a hitch in my breath.

We pick up right where we left off and Christina is worried, for both the men in her life and she now harbours a deep hatred for someone too. This hatred is such a foreign feeling for the sweet natured woman who has been thrust into such an alien environment.

I'm sorry to say that this instalment dragged for me. The story just felt so much slower and I felt like I was waiting around, waiting for something to happen, much like the characters are. I guess that's probably a testament to the quality of the writing, that you're immersed so much that you feel time slipping by so slowly but it was frustrating at the same time.

The story does pick up with some revealing information but not until at least two thirds in.

Most excitedly, book #4 is set to tell Merk's story, who is certainly an intriguing character and love him or hate him, it's bound to be captivating.

Even though I found this story a bit slower than the first two, I would still recommend them and I'll be eagerly waiting to get my hands on book #4.

It also felt wrong how meek and Christina ended up, I feel like there was no closure.

## **Jenn says**

Well- once again I felt like Merk got the raw end of the deal. I hated the way Christina was with him. I get why Merk did everything he did- I agreed with him when it came to Cam and Christina's relationship. Cam was still demanding, controlling, manipulative and I have to say-I agree that Christina was brainwashed by Cam.

I hated how Cam never will say his emotions but makes Christina say them to him. I liked the gift she got in book 2- I believe - and the inscription. But still- out loud is better.

In the end- I felt this was all the same old stuff - and super repetitive and not much of anything real going on. Only a few things here and there. But the repetitive junk over ruled the story.

I didn't like the back and forth junk with Tiff and Jeremy either. And I really disliked Christina by the time this book was done. She started to piss me off by the end of book 2. Also- this shouldn't have been three books. One - maybe pushing it , two- would have worked.
