## **Joyzal's Prize** Michele Mills

He's found his mate and he's keeping her.

Jacole is supposed to leave in the morning to start training at Quantico. Instead she's been kidnapped by asshole space pirates who are about to sell her and the other women they've captured as sex slaves to the highest bidder. Oh hell, no. Jacole vows they'll soon realize they've caught the wrong damn human. She organizes a mutiny to take down the f\*kers who've kidnapped them...but the plan is interrupted when someone blows a hole in the side of the ship.

A seven foot tall lethal warrior emerges from the rubble with a weapon in each clawed hand. Jacole is speechless before this display of manly glory. This Bounty Hunter is easily the handsomest man (alien) she's ever seen. Her panties are instantly wet. He touches her, kisses her, throws her on his ship and claims her, and vows she's the female he's waited all his life to find. His Bride!

What the hell?

Well, he might be a lover like no other and an aggressive and driven male she could actually...admire, but Jacole doesn't do forever. In order to earn her love, he has to earn her trust.

## **From Reader Review Joyzal's Prize for online ebook**

### **Mandi Schreiner says**

quick, fun, over the top, insta-mate - human/alien. :)

---

### **Grace says**

I enjoyed this one so much better. Mostly because he wasn't responsible for her losing her life on Earth. This couple really was compatible. She has been cheated or abandoned by every guy in her life so she is scared to believe in this very new relationship. Both were likable characters, which is surprising because in the first book Joyzal was annoying. In this book we find out why he is the way he is, and also see a really emotional tie in with the hero in the first book. This had a very sweet HEA that seemed like they both got the life they deserved.

---

### **The Book Junkie Reads . . . says**

#### **Joyzal had a lot to learn and earn . . .**

This alien bounty hunter was so much more than he appeared to be. He found his mate and he don't feel he deserves her. She is of royal coloring. She is so much more than he could dream of. That was until she touched him. She touched him.

Jacole was not suppose to be in space. She was not suppose to be kidnapped. She was not suppose to be caged. She was not suppose to meet the man that would change her world and make everything she didn't know she wanted come true.

This was keeping in tradition with the Alien Bounty Hunters but it gave more. Jacole was strong, fierce, and savvy. She was no whimpering little miss. This installment in the series gave much more.

---

### **Louise Nunn says**

#### **A beautiful love story**

I was hooked when it began with an alien kidnapping, after that it just kept getting better. I wanted to see more of the girls kicking butt on the captors, but the way the author wrote it was pretty cool too. I loved the characters and their singular focus and how they work to get past their own self worth issues. It was a fun book, lots of action, a nice ending.

## **Karen Voitik says**

### >Book Review – Joyzal's Prize

>I am an independent reviewer. This book is the 2nd in the Alien Bounty Hunter series and ends in an HEA. Joyzal is a bounty hunter and BFF to Rayzon. They have a fierce bounty hunter competition between them. These aliens feel that the darker one's skin is, the more important they are. When Joyzal captures his bounty and frees the women enslaved on the ship, he is touched by a human with very dark skin, Jacole.

>Their touch starts the mating bond. Joyzal has a secret regarding his BFF and his step mother that really seems to tie the series together so far. This book is quite humorous as the step mom keeps calling both Joyzal and Jacole at the absolute worst times. Jacole is similar to Joyzal in her quest to always be #1.

> This book is appropriate for adult audiences. I am giving this book 5 stars. I love the epilogue in this story, showing life after the fierce mating.

## **Angelica N Pena says**

### **Feeling conflicted**

I read all 3 books so... the first one had a decent story line ... but the end of this book I felt like I read the same story 3x with just a few different things. It was almost like the first book was an outline or template for the next 2.

There is so much repetitiveness in this third book I found myself skimming.

Also I'm not sure how to feel about the importance placed on the character's skin colors. I think this book was just as much about racism and prejudism as it was a love story.

---

## **Bobbie says**

### **Excellent**

This was action pack...I am a sucker for a good knock down drag out ...killing the slavers and save the women is almost as good to me as my chocolate... Lol.....loved Jacole was a badass, then you team her up with Joyzal and you could make a short movie...glad to see Rayzor loved him too.....well I guess I will move on to the next book..let's see if Rayzor brother is as good as these two warriors??

---

## **Kelly says**

Alien Bounty Hunters, man. I like these guys. Mostly because they're a little too much, but just enough all at the same time. What? It makes sense to me.

Honestly, I get a kick out of how everything goes wrong (or right, if you're Joyzal) when Jacole meets Joyzal. She ends up rescued and mated within a short frame of time and she has NO CLUE how the mating

part happened. Until, you know, it's pretty much spelled out for her. Being a strong, independent earth woman, she kinda digs in her heels when things are revealed. All things considered, it makes sense. Bonding with someone for all time is something that shouldn't be done on the fly.

But here they are. Bonded.

Meanwhile, Joyzal has given up on finding his special someone and is shocked when everything falls into place. Unlike other females of his species, Jacole doesn't see his lighter colored skin as being inferior, she just sees the incredibly determined man who revs her engine.

Again, I like these aliens and their mate-claiming ways. They're straightforward and can be kind of clueless at times, but they get the job done. And that's what it's all about.

-Kelly @ Reading the Paranormal

### **Sandy says**

First let me state, I received an Advance Reader Copy, (ARC), but this in no way influences my review. I always leave an honest review.

Excellent story. Jocale is human and has been kidnapped by alien pirates to be sold as a sex slave. Just as she's about to mutiny with the other captured women, bounty hunter Joyzal pops in to capture his bounty. During his saving of Jocale he finds that she's his bride/mate, so he grabs her and takes her with him. This was a Gr8 story. I recommend this read. 5 Thumbs up

### **Cynthia L. Turner says**

#### **Joyzal and Jacole**

The second book in The Alien Bounty Hunters series and it is just as good ? as the first book. This novel is full of surprises, action, romance, and adventure. Michele Mills has woven a well written and balanced story. Joyzal and Jacole do get their HEA with a great great treat along the way. Loved it!

---

### **Deborah says**

Jacole, from Earth, is kidnapped by space pirates and intended to be sold as a sex slave to the highest bidder. She is one of many different species kept in cages aboard the pirate ship. She and the other women set to overtake the guards, when a would be hero bursts into the ship, and guns them all down! Joyzal, a bounty hunter coming for the pirate captain, is set on keeping his number one bounty hunter status and this pirate captain is sure to help! When leaving, he spots Jacole, and although he recognizes her as human, her dark skin color requires him to offer his assistance. When she reaches out to him, she unknowingly invited him to mating compatibility. When he accepts her touch, sparks fly, and instant desire is clouding their ability to think clear. She thinks he's a hot alien, whose heroism gets her going, he thinks she's now is mate, so takes

her to his ship. When she wakes, she is chased, and then mated by him per his species mating ritual. When she finds out, she's wary. She doesn't have a good track record with men. They can't be trusted. He won't want her down the line. Joyzal needs to convince her what he says is real-his feelings are real, and she will want to stay with him.

I really liked this book! Geez! Joyzal is hot! He's all kinds of strapping male, and Jacole is majoring taken with him. It was kind of funny how the mating ritual was and I am sure if Jacole had any inkling, she would've objected. She'd been hurt by men, and didn't want to be vulnerable again. Joyzal is an older man forty-and had given up ever finding his mate-his Bride. When he saw Jacole and she offered her touch, he was flabbergasted. I knew he was going to do his best to convince her he is not like the others, and means what he says. She finds she likes the attentiveness and the sex is holey hell off the charts! But that little voice in her head keeps talking.....

Joyzal's Prize is book two in the Alien Bounty Hunters series and I am hooked! This is the first book by Michele Mills I have read and I like her easy style of writing. Joyzal and Jacole's journey was enlightening. The read was fun, quick, and satisfying! Now I am going to read book one, Rayzor's One and see what I missed!!

4.5 Stars/4 Flames

This book was gifted to me by the Jeep Diva for an honest review. The review and ratings are solely my opinions.

---

**Leo (Queen of the Rants and the Crazy) says**

3.75-4 Stars!

---

**Liz says**

Don't recommend.

The h doesn't actually do anything. She's always ready to pounce with what I'm assuming is a half-assed plan, but the H always intervenes. Weird mating scene. There are no emotions, even the ever-present "mine" is just thrown in. Meddling mother and some continued plot from the last book that confused me. h was supposed to become FBI but we never see her fight or do anything remotely agent like.

---

**Erika says**

3.5 stars (but will round up since author avoided the clichéd trope of virgin heroine matched with very sexually-experienced hero)

---

### **T00zday says**

2.5 stars. Not really Sci-fi, not really romance or erotica.  
Didn't really get a sense of hero. Heroine was really accepting.  
(Shrug)  
Recommended as filler only
