There are times you want to devour a full book with elaborate stories. But there are also times when you just want something hot and dirty to satisfy your needs. This book is perfect for a quick hearty meal to satisfy your sensual hunger.

It feels like a good date, except you skip the wining and dining and go straight to the fucking hahah! It contains a good variety of scenes ranging from slow and sensual to hard and frantic sex scenes (which I personally think is the best).

***A second finger joined the first, and they moved in perfect succession, fully inside and crooking inside of me, delicious swipes that had my eyes rolling back in ecstatic delirium. I reached out my hands, gripping his legs and squeezing, needing some type of grounding solidity to bring me back to reason.***

Alessandra Torre is definitely one of the best erotica authors out there. The sex scenes were written beautifully, it never sounded cheap. If you haven't got the chance to read any of her book, this collection of erotic scenes would be the perfect introduction to her writing, giving you a glimpse of what you could

expect.

My one little complain is, it lacked scenes from my favorite Alessandra Torre's character ever – Lee from Black Lies. There was only one scene of him and it left me feeling deprived haha!

I loved this book. It's perfect for when you just want to read some hot, sexy scenes(which I do quite frequently). It is a collection of her hottest sex scenes from a variety of her books. Even though I haven't read all of her books, I still enjoyed this!

Thank you Alessandra and Sue Bee for the opportunity and copy!

Just the Sex: Erotica Shorts is a collection of erotic short scenes taken from The Dumont Diaries, Sex Love Repeat, End of the Innocence, Black Lies and Tight. There's not much really to tell than *skip the book and get ready yourself to the fucking.*

Well, at least that's what I told myself. But as I started reading, I am bothered to take a pause before every scene and think. Well, bothered in a good way. Because, **I just can't believe that Alessandra Torre has**

**just picked out my every favorite smut scenes in those books mentioned.**

One thing I realized is that every scene makes me want to reread every book especially The Dumont Diaries. I might have a change of heart, I don't know but I've seen Nathan and Drew in a different light.

One thing that I hope was included was Madison and Paul's meeting in Sex Love Repeat, that on the beach. That was totally hot. Why was that not included? \*sad face

I'm also buddy-reading this with SueBee and some of the amazing ladies at Shh... [Smut, Heroes & HEAs...] ♥?.

This is a collection of the some of sexiest scenes from five of Alessandra Torre's books. Out of a possible 25 stars, these short stories accumulated 18 (3.6 stars).

### **1.) The Dumont Diaries ★**

I wish this wouldn't have been the story the book started out with. I have not read this full series, but I didn't care for this short at all. The guy just seemed to use her, while she looked like a glorified prostitute. I have a

lot of faith in Alessandra, so maybe this was just a bad glimpse at this story. I will admit the addition of Drew made me want to read the actual books so I could judge this properly.

#### 2.) Sex Love Repeat ★★★★★

I love(d) this story. This book is probably the book that made me fall in love with Alessandra's writing. I only gave this four stars because I already knew the huge twist (view spoiler), so I didn't love their sex scene. I mean, it was still hot, but knowing the twist... it becomes a little harder to get into. (Also, Ahhhh I forgot how much I love Paul.)

#### 3.) End of the Innocence ★★★★★

I have not read this full story either, but I'm going to rectify that immediately. The first chapter was incredibly hot. The final chapter was maybe the sexiest thing I've ever read. This story completely hooked me, and I cannot wait to read it in it's entirety.

#### 4.) Black Lies ★★★★★

These short excerpts completely fulfilled their job by making me want to read this whole book all over again. I remember reading this and being in a complete and utter amazing daze because the story was that addicting. I relived all of that while reading this, and cannot stress this enough: **If you haven't read this yet, please do so NOW.**

#### 5.) Tight ★★★

This short was *extremely* short. I also feel like I've read this story too many times. I was first introduced to this in the Bend Anthology, then I read the actual book, now in this compilation of sexy shorts. I don't know, it just didn't do much for me, and maybe just being over read is the reason.

Overall, I really enjoyed this book and all the pieces that came together to make it. It's the perfect sexy and light read for a summer night with a bottle of wine.

I think the title says enough...super hot and some of my favorites scenes from Mr. De Luca!

## **Nawal says**

I think the title of this book describes pretty well what it's about.

So if you're looking for a good erotica, just something light to pass the time then give this Alessandra Torre smut scene compilation book a go.

I guarantee you, if you're not already an Alessandra fan or if you haven't had a chance to read any of the books from which these scenes are compiled yet, then you will most definitely want to read them.

I think Alessandra is queen of smut. Hands down. She captures each scene in it's essence so perfectly, that it's really difficult not to love reading it. It's definitely an experience I can recommend that you have to have for yourself. I find her scenes to always be full of intensity, and it holds important meaning to the character involved; it's one of the reasons why I loved this compilation.

I think the title usage of each chapter in this book was very clever indeed. They are what had me right at the beginning. Just certain words that may have been exchanged by the characters involved in those particular scenes, but words that hold power nonetheless. It's what I mean by Alessandra and her usage of 'intensity'. It's difficult not to love.

Recommended for smut lovers!

Just the Sex is exactly what it advertises! It is hot, erotic and sexy! You might as well just read this book in the nude or sans panties because it is that steamy!!

This compilation offers a series of erotic scenes from Alessandra’s hottest heroes. Whether you prefer the suited executive or the fun loving surfer, there is a man (or men depending on how you swing) for you.

When reading this book, it was as though I was reading all the highlighted sexy scenes from my Kindle. (I kid you not!)

Whether you want to read them all or just one at a time, you will be ready for a cold shower or some live action! ;D

**Title:** Just the Sex: Erotica Shorts

**Series:** Compilation of scenes

**Author:** Alessandra Torre

**Release date:** 26th June, 2015

**Just the Sex by Alessandra Torre** is an invitation into bedroom of her characters from several of her novels. It's a wonderful refresher for couples we have already met and a fantastic introduction to ones we haven't.

What should have been a quick read in fact took longer as I took myself of to get acquainted with The Dumont Diaries after reading those scenes, so be prepared for the need to make these erotic shorts, longer.

To sum up Just the Sex in a sentence, I'd say:

**"It's a extra shot of caffeinated smut that really hits the spot."**

Do not read in public.
