Hmmm oh where oh where do I start. So the beginning was a little exasperating because of Taryn. I really just wanted her to have more direction and to take a stand on something and it was interesting enough to keep my attention. When the story started to move in the middle it was fascinating because of the dynamic of the story. The way the characters fit together and the sacrifices that were made it definitely made the story intriguing. The ending was more open than I like. I don't know if she left it that way so she can write more but it definitely needed an epilogue. I want to know what happened with the millionaire.

Overall the story was fantastic and the characters where incredible.

Another lovely book by Delaney!

For the first half of the book I just wanted Taryn to make up her mind and choose someone to be with. I certainly couldn't choose. Both Zach and Jared are amazing guys and they are both great with Maggie, Taryn's 4/5 year-old niece. Once she finally admitted what she wanted I was sooooo happy! At one point I was worried she would just never choose between the two guys until the very, very end and I knew I did not want to have to suffer through that because as much as I enjoy love triangles for all the drama it can get too excessive to the point where I can't stand it any longer. (Ever had the feeling?) Anyway, once that drama had passed I loved the book even more because there was still drama but I got to relax a bit with the knowledge that Taryn had made a decision on who she wanted to be with and I could just enjoy that bit of stability.

I know for sure that my absolute favorite part of this book was Taryn's niece Maggie. She's this adorable little girl that Taryn becomes in charge of as her sister Rachel is MIA from her daughter's life. And I LOVE kids so I really enjoyed Maggie and seeing her relationships grow with Taryn, Zach, and Jared. Nothing can make me happier than a family with a little kid or kids running around and Taryn gets to create a family for Maggie to be a part of which made me extremely happy.

This was a free download on amazon so I decided to try it. It was enjoyable. I was a little annoyed w/ the back and forth but overall it was a quick easy read.

Laura Harris says

This was a cute love story. I did think it dragged on a bit and then it seemed at the end that things were rushed, just trying to finish the story. I'm a sucker for a happy ending:) The dramatic twists kept my attention. I just loved how Jared loved Taryn but thought it was weird how quickly Zack was completely gone from the story.

Erika says

I was pleasantly surprised by this book. From the description of the book I thought it was going to just be about a girl and trying to figure out feelings between two different guys. But it was so much more. There was a bit of a mystery in the story line. I enjoyed this book.

Zoe and the Edge says

The story reads casually and actually quite happily despite the tragedy and angst along the way. I also liked how the conversations could sometimes take a random turn that seemed so realistic.

I really loved Maggie. She really stole the show. She's a fabulous and quirky kid and I adored her.

Taryn doesn't do well with complications and gets overwhelmed easily. What's worse, is sticking her in a love triangle. Some moments were seriously cringe-worthy as she yanks both her guys chains relentlessly. I especially hated the way she treated Zack. She's a bit self-destructive in the way that she over-analyses and doubts everything.

"I'm an insecure, immature, emotional girl sometimes. That's a loaded combination."

She can end up ruining good thing because of her fears and confusion. She isn't all bad though. I liked that she doesn't hide from her mental overloads and isn't afraid to admit to them either. She's very unassuming and knows how to take the advice of a steadier head when she's freaking out.

The Guys

Zach is sweet and understanding but Jared is so much more entertaining. Jared really made me smile and giggle like a schoolgirl. What I really loved about him is that he brings out Taryn's feisty side.

Taryn - "Well, we're not perfect. And I think all of us skipped school one time or another."

Jared - "To streak at a baseball game?"

"Uh, no, I didn't try that one."

"I'd like to see you try that one."

"Ha, I'm not that desperate for attention."

"It was a dare."

"It was a cry for help."

Complaints

The writing started off robotic. I didn't think I'd warm up to the book, but I did. Many times the writing slipped into the mundane and boring. Some moments were extremely roundabout. I was kind of scratching my head saying, "Um, haven't we gone over this before?...like a thousand times?" Towards the end, I skimmed. Then there was the fact that I'm not sure I've ever read a book with as little chemistry as this. And I mean zilch. I don't even know what was wrong, it just wasn't *there*.
