Nana es pasión, amor, tristeza, rabia, celos, encanto... Nana es perfecta, es mi serie manga favorita, hoy digo que soy FAN de esta historia.

Este tomo 8 me ha destrozado, he tenido que ir parando de vez en cuando la lectura a limpiarme los ojos, ya que las lágrimas no me dejaban leer.

Los personajes no son malos, ni buenos... son tan reales, complicados, algunos odiosos y otros adorables.

I despise Takumi.... truely... I think Nobu and Nana and Hachi and Yasu and Ren coukd have figured out a way to take care of the baby till Hachi could work again. And Nobu woukd be a rock star maybe even before the baby was born. I am so confused with the naration. Starting with this book, it's obvisouly Osaki. So was it always Osaki? Or did they switch for this and the next, since I already started it?

Great art. title pages for chapters mixed with photos, neat effect. More detailed than most manga. great clothes, punk and lolita style.

about older kids, in their early 20s. but good advice for teens. Hachi gets pregnant cos she doesn't use a condom with a guy. Both nanas go to a kindly gynecologist. shows what to do when you're pregnant, or think you may be. engrossing but realistic soap opera. but fun escapist stuff with the rock bands. a fun but unflinching look at teens' future young adult hood.

another issue - nana has feelings for hachi. lesbianism. or sexual confusion.

hachi gets pregnant, has to decide if she'll keep the baby or not.

Andrew says

Well, that took an unexpected turn

Kereesa says

Wait, what?

This, this is a joke right?

Takumi? Nana?

I CAN'T DEAL WITH THIS.

On an emotionless side note, interesting that now we're changing perspective. From ~~Nana Hachi~~ NO Nana K. to Nana O.

5/5

The volume where we all learn what a scuzz ball Takumi is and when I start to fall off the Hachi train. I can't remember how I felt about Hachi during all of this drama when I read the series when chapters were being released but I do remember hating Takumi back then.

This is start of the series starting to show what path the series is going to take and when the little monologues at the beginning of the volumes hint at. And those monologues are even more haunting when you've already

read the series.

Paige says

Well here's the drama. I don't really know what to say, because I knew what was going to happen, but it doesn't mean I liked it anymore than last time. Also the amount of time with the Nobu romance was so short, and I don't know if it just felt longer in the anime than in the manga but now I'm definitely less team Hachi should be with Nobu after reading this. They barely had time to even get to know each other. I kind of get the impression that none of the characters really know her. Especially Nana and while I do think the beginning pages are always queer baiting, I kind of feel like each of the characters are in love with Hachi for what she can do for them and it's not reciprocal. I feel really bad for her. Like even after eight books she's trying to open up to people, but the drama over powers her life and no one ever gets to really know her. I don't think she even knows herself, because she has to have this chaotic energy all the time and this validation from others that she hasn't ever really just sat with herself.

I hate Takumi with a burning passion.

Reem says

I like it now that we hear more from Nana. I have to admit that up until volume 7 Hatchi annoyed me with all her love life drama but I feel sorry for her at this point, a bit. However, that doesn't mean I like her more. Yazawa is good at creating characters. Yes, some stereotyping is present but it is not so evident. It doesn't hit you in the face. And that's good. Also, it is clear that both Nanas will end up more mature at the end. Characters that develop, they both are. That is the manga's strongest point. But it is the how that is bothering me. It is as well what keeps me reading.

Kristine Hansen says

I don't have words at this point. Yes, I know I've called this a soap opera before. I stand by that description. Goodness, now I absolutely HAVE to see what happens next...only I don't have the next volume!!!!!!

Pending.

Bookishrealm says

I love that this one is told from the perspective of Nana O. I think it gives the manga a different vibe. I can't believe what's going on with Nana K. I mean what is she thinking!! I understand why she's doing what she's doing, but at the same time I don't and part of me wishes I could connect to her through this, but I can't with Takumi around. He's sleezy and a mess and I can't believe she would even want him around especially when it's clear he's doing what he's doing for selfish reasons. I guess that means I just have to pick up the next volume to see what happens.

Kristin Ogarp says

Best volume yet, things are starting to pick up. interested in how this will turn out and for the love of god please make the right choice Nana!

ALEXA says

First chapter of this volume, and not even the full way through, and I was already shrieking with feelings. There's such a big step forward in the plot and I'm kind of dying and I haven't fully processed how I feel about it, and what the consequences of it are.

Clara says

This was such a horrible turn of events...

Anzu The Great Destroyer says

Ugh wtf is wrong with This Hachi girl??
