The Arrangement 23: The Ferro Family H.M. Ward
THE SERIES WITH OVER 12 MILLION COPIES SOLD
Volume 23 - THE FINAL VOLUME in the *New York Times* Bestselling Arrangement Series

Hatred and insanity mingle together in this disgusting specimen of a human being that stands before me. I don't know how I've wronged him or why I deserve this fate. My parents were slaughtered, my friends killed, and Sean Ferro was ripped from my side by this monster. The promise of picket fences and a little voice with tiny hands keeps me eerily sane. The ghosts of a future that will never happen whisper in my ear. They latch me to the present in a way that chills me to the core.

Every attempt to save me has failed. I'm left staring my demons in the face, alone. The man glaring back at me is made of nightmares and malice. For all I've lost and all I've suffered, for every person who came into my life only get ripped away, and most of all for me--I won't walk away. Not this time. I've passed the point of no return. There is no tomorrow. Come sunrise, only one of us will survive.

~SERIES CONCLUSION~

From Reader Review The Arrangement 23: The Ferro Family for online ebook

Candy says

It all ends tonight. If everything goes as planned Avery will have her HEA with Sean if she doesn't lose herself in the process. She has something to tell Sean but doesn't want him to know until it is all behind them. But nothing goes as planned & Avery is thrown into a world of horror from the very start of arriving at Victor estate. She feels betrayed & doesn't know who to trust anymore. She is broken by what she sees but it gives her the determination to do what must be done. Avery will end this one way or another even risking herself if necessary. Who will die tonight & who will walk away?

Debbie Clark says

Saved the best for last! The final book in this series does not disappoint at all. It picks right up with Avery looking out at Sean's lifeless body floating in the pool. Or is it? Avery remains the strong fighter during this entire series and does not back down in this last installment. No spoilers here. You have to read it to believe. Yes there are some O.M.G! moments that the die hard fans never saw coming. An awesome ending to an awesome series. There will never be another Sean and Avery.

Jennifer G. says

Nice ending to years of the story!
Wish the ending was more personal, as in some kind of HEA, with a wedding or something!
I felt it was just cut off when Sean finally became the person he should have books ago.

Caroline says

Explosive final volume. Emotional overload. Just fucking perfect.

Deborah says

So disappointing. After 4 years of waiting and 23 volumes, I was not at all impressed. Since volume 18 this series went downhill and fast. Waiting so long for this final book was a letdown.

The first 7 chapters felt like I was reading inner dialogue (much like volumes 20 and 21). Why let Avery talk over and over about events that will hopefully take place? Why drag it out, make the book thicker and not give an epilogue or actual closure to Sean and Avery's story? Will Avery survive without Sean? Who's on what team? Who's good and who's bad? People are miraculously alive that are supposed to be dead. Storylines from past books aren't lining up. And this volume seems to be dragging out the inevitable

conclusion to Sean and Avery's story.

The Arrangement 23 ends at 87% and made me even more disheartened after following the story for so many years. Was it a good read? I'm not sure, as a reader you'd need to start reading from AR 1-22 and draw your own conclusions. That's a very large investment. Trust me I did it for four long years.

Sarah says

No! Just no! I'm sorry, I hate dissing anyone's work but this time the author got it so very wrong. This started as a romantic I will be it dark series and it was brilliant and thrilling and interesting then..... what actually happened? It's as if the author went from writing a book about love and desire to thugs and the mob. It's been genuinely laughable for a while now but this one takes the biscuit! I have never EVER skipped pages of a book yet I did with this one. After reading 22 books up to this point I couldn't believe in the last one I was so unbearably bored that I couldn't continue to read the same blah crap that was registering in the main characters head. Why the author thought writing about the bad guy (vik jr) and how he liked to traffic woman, men and children (really this made me rage!) instead of concluding the real thing we wanted to read i.e. Sean and Avery I will never know. They deserved more to their story and this was the worst ending to the longest series I've ever or will ever read. What a waste

***Ritzrennee* says**

Disappointing.

The amount of plot twists are real even in this last installment.

Long story short, this entire series had become a "continuing for the sake of continuing" plot. Undeniably, it didn't work out well for me. The saddening part was more of how this exciting and potential story developed into a completely outrageous plot.

Anna says

I liked it, I didn't love it. First of all it's not 200 or even 300 pages long. The book ends at 87% and then you get a few chapters of the Proposition. Well anyways, it was good but very unbelievable in my opinion. I can't say much without adding spoilers so if you are a fan you will just have to read for yourself. I was disappointed that there was no epilogue. But the author says there will be an All Ferro series coming, that's great --- but I am not interested in a serial series. This was the first one and the last one. Maybe when all the books are released I just did not like waiting 2-3 months just to get 100 pages of the Arrangement.

Jennifer Legg says

If you enjoy a dark & intense love story, but you've never read this series, words can't explain how you're missing out. I've never read a love story quite like Sean & Avery. It's not your typical romance, but Sean Ferro isn't your typical man. He's

dark, damaged and deadly in more ways than one. But I also have never loved a fictional character more. The finale is perfect; secrets and answers are revealed with twists & turns to the end. I will say you get an HEA. YAY!♥

S.M. Stryker says

I love this book and couldn't put it down. WOW...the twist and turns were unforeseen. I love the way the whole series came together, although I would have loved to read more...baby, marriage, mom. It would be very easy for this series to continue. I loved to see the change in both Avery and Sean. Thank you Holly!

CAROLYN Wyman says

Amazing story

Loved this story- yes 23 books drug on. But the end was everything I hoped for. Well written. Lots of action drama and heat. ♥? Ferro

Megan says

Its finally finished

Its been a long road to get to this point but loved the journey. Just a shame we didnt find a wedding and what the baby was at the end.

Donna ~ The Romance Cover says

The Arrangement 23 by HM Ward
4 stars!!!

"Are you ready to prove where your loyalty lies after all?"

This was the finale that I have been waiting for, for years, and I have to say that HM Ward did not disappoint. This series has been a huge investment both in \$\$ and time, but I have loved every single page and don't regret the money spent at all. This series has been like crack and I have craved every single instalment. I had become so invested in Sean and Avery and I was desperate for these two to finally get the happy ever after that they so richly deserved. Happy ever afters come at a cost though...just how much would Sean and Avery's cost them?

"Eventually, some people bleed out...There's nothing left to save."

This book was action packed and I highly recommend reading this one extremely SSSSSLLLLOOOOWWWLLLLLYYYY, you will need to take everything in. My heart was in my mouth so many times, palpitations were prevalent and that feeling of dread all consuming, I had tears, I had anger, I wanted to slap a few people and kill a few others, but that is testament to HM Ward's prowess in that all important character connection. I have lived and breathed these characters for years and what they went through...I went through too.

"You've suspected that you were the pawns and your mother was the queen. But you three were never pieces she was willing to lose. She was the queen - still is - but you guys are the one bit that ends the game for her. You're the king."

Despite the twenty-three instalments, I am still not ready to lose these characters and I am hoping that because HM Ward loves a crossover that they will not be strangers going forward.

Charlie ☆ WLTB Blog ☆ says

I have loved this series from the start.. Sad to see it end.

Sean and Avery will always have a place in my heart one of my Fav book couples.

Great end to a great series

Rhonda Brant says

After a very long drawn out series, this very long awaited book has finally made its debut, and I freaking loved it! I absolutely love the way this author writes, and although I absolutely hated how the series was delivered in short stories, this book was worth the wait! HM Ward took this last book and left no stone unturned. The twists and turns it made left me on the edge of my seat, heart racing, mouth having to be picked up off the floor, and the surprises that were dropped on us threw me for a loop. Never saw them coming! I loved the chemistry that Sean and Avery had throughout this series, and you really never knew quite how things were going to turn out, which gives the book quite a mystic about it. I definitely would have loved the ending to be a bit more complete, you will know what I'm talking about when you read it, but still loved the way the last book of this series turned out. Just wow!!! Mel and Henry were hysterical in this book,

loved Gabe, and cried over Marty. Just loved all of the characters.

I stopped reading the series at #18 because I was so irritated with the short books and long timeframe in between, just recently picked back up reading the last 5 books since they had all been released and I could quickly read them in succession without delay. Would highly recommend doing that for people who have not read this series yet. Gripping and highly entertaining series, just badly delivered in the short books. Definitely worth reading though!
