The Night Universe Collection Selene Charles

Welcome to the carnival of the damned. I'm one of the seven deadly sins, they call me Lust, but you can just call me Pandora. This is a story of darkness. Redemption. Hope. And betrayal I never saw coming.

A reaper's found me—deadly to my kind—and though I know I shouldn't be I'm as drawn to him as a moth is to flame. But I don't have time to indulge in my fantasies of stripping him down naked and having my dirty, dirty way with him. Because there's a prophecy going round. Real end of the world type stuff. And somehow this little demon is at the heart of it all. I'm thousands of years old, but I'm starting to feel like my numbers finally come due...

Book 1: Crimson Night

My name is Pandora, and I'm a Nephilim-half demon—what's my other name? Lust. I'm the dark craving that drives you mad, makes you reckless and stupid. But I'm not all bad. I fight for light. People are starting to disappear and lately I've felt a dark presence lurking around me. I think it might be a death priest. And before the night is through I'll be betrayed by the one person I thought I could trust.

Book 2: All Hallows Night

Secrets and truths, lies and red herrings... which is which? That's what Pandora's trying to figure out. And there's no better time to do it than during Mexico's annual Dia de Los Muertos festival. There's just one problem... Zombies.

Book 3: Howler's Night

Lies. Half-truths. A zombie Queen. And a really freaking dark entity known only as the Triad. The more Pandora learns the worse things seem to get.

"And I looked, and behold a pale horse: and his name that sat on him was Death, and Hell followed with him..."

Book 4: Red Rain

Welp... this is it. The end of the world. Somehow, I don't think I made anything better, only worse. But now I've got allies, people I call friends and maybe, just maybe I might come out of this nightmare alive... or maybe I'll turn into something darker than anything the world could ever imagine. Guess, you'll just have to wait and see.

The Night Series was originally written as Marie Hall, now writing as Selene Charles.

Melissa Guillen says

Loved this series!!!

I really loved this series a great paranormal story

I would love to know what all the characters ended up especially Luc.

Asher and Pandora were such a good opposites attract couple.

I cried at the end when Pandora made her ultimate sacrifice for the people she loved.

I will be definitely be reading the next series.

Diana Gioia says

A collection I couldn't get into. I have a really hard time with slow starting books. Found myself putting this book down more than reading it.

Stacy Heironimus says

I loved these books, they brought out every emotions possible. I love Pandora and hated her at times, but she was an amazing character always drawing on the inner strength she was never sure she had. Luc, my heart ached for him, he loved her so but lost his chance with her and to see him suffer so broke my heart and every turn I was hoping they would come back to each other. And her Priest, always wanting to be her white knight in the darkness. So many plots and betrayal and alliance, a very well written story line.

Dena says

Drama galore

There is so much to say about the series because of how long it is. There are 4 books together and with each story there were different things to them.

I liked Pandora she was exceptionally confident however as her story continued we saw her class start to appear. We saw her complicated relationship with Luc. She felt love for him even though he decimated her heart. The relationship was very complicated for me to understand however I felt the emotions between them so really I didn't feel the need to delve in to deep. Then Ash appeared but I'm the beginning his name was Billy. He really is the catalyst for her life turning around. Her fears of emotions and humanity really come to a head by him. I liked the supernatural content of the series. They didn't seem to take a back seat to the drama of the characters.

Overall this is a good series to start in before reading the night universe books in other series.

Katie Kight says

Fantastic story....perfectly balanced

I loved this story from beginning to end. The characters are all fascinating and unique. The story is so perfectly balanced with action, hate, love, drama, I mean really everything you want in a great story, it has it. The twists and turns are so fun to follow. Just when you think you understand what is happening or what a character is all about she turns everything on its head. I really loved these books and can't wait to get started on the next series in the same universe. (That is also great because I'm always one to wonder ,when a series is over, where the characters ended up and how they are doing.) Highly recommended! ?

Happy Reading ??

April Elizabeth says

Pleasantly surprised

These books.... They do start a bit slow. Not painfully so, but enough that I was glad I only paid a dollar for them. But, finishing the fourth installment, I can say that I loved this series. The world built here was beautiful and believable. The slow build of characters was beyond enjoyable (if not a tad predictable at times). I'm not one for recapping an entire story in a review, so I wont. The story itself I'd give a solid 4.0. There was a ton of back and forth and a lot could have been avoided had one of more of the person's involved just acted like a commonsense adult instead of a stubborn child (come on... you've lived through how many centuries and still act like this?)... But the overall metamorphosis the characters went through leading to the final battle was/is worthy of a 5star rating.

Blurb:

NO CLIFFHANGERS/BOXED SET OF ALL 4 BOOKS!!

Welcome to the carnival of the damned. I'm one of the seven deadly sins, they call me Lust, but you can just call me Pandora. This is a story of darkness. Redemption. Hope. And betrayal I never saw coming.

A reaper's found me--deadly to my kind--and though I know I shouldn't be I'm as drawn to him as a moth is to flame. But I don't have time to indulge in my fantasies of stripping him down naked and having my dirty, dirty way with him. Because there's a prophecy going round. Real end of the world type stuff. And somehow this little demon is at the heart of it all. I'm thousands of years old, but I'm starting to feel like my numbers finally come due...

My name is Pandora, and I'm a Nephilim-half demon-what's my other name? Lust. I'm the dark craving that drives you mad, makes you reckless and stupid. But I'm not all bad. I fight for light. People are starting to disappear and lately I've felt a dark presence lurking around me. I think it might be a death priest. And before the night is through I'll be betrayed by the one person I thought I could trust.

Book 2: All Hallows Night:

Secrets and truths, lies and red herrings... which is which? That's what Pandora's trying to figure out. And there's no better time to do it than during Mexico's annual Dia de Los Muertos festival. There's just one problem... Zombies.

Book 3: Howler's Night

Lies. Half-truths. A zombie Queen. And a really freaking dark entity known only as the Triad. The more Pandora learns the worse things seem to get.

"And I looked, and behold a pale horse: and his name that sat on him was Death, and Hell followed with him..."

Book 4, Red Rain THE EXCITING CONCLUSION!

Welp...this is it. The end of the world. Somehow, I don't think I made anything better, only worse. But now I've got allies, people I call friends and maybe, just maybe I might come out of this nightmare alive...or maybe I'll turn into something darker than anything the world could ever imagine. Guess, you'll just have to wait and see.

Cat- Lee says

Here we follow the story of Pandora a lust demon who tried to fight her own nature. When she meets and is almost instantly infatuated with a dangerous hunter through these four books we see how she grows and faces different challenges. I liked these books they were a little slow at the beginning but it was a great little series

Mary Lee says

Couldn't put it down

I have been glued to my kindle for three days reading this series. Staying up way too late because I just had to know what happened next. The first books ending seemed too contrived, but it was still a great story and after that it just kept getting better. At one point it ripped my heart out and made me cry, so have those tissues ready. This was such an imaginative story. The world and character building was top notch. I grew to love so many great characters in this world. I guess my main beef with this world is one that sends every Nephilim to that hot place down there. It makes no sense as they have no free will to choose light or dark. No matter how good of a life they live, they will spend eternity there. Too many good ones died in this story and

I hate knowing that in the story they are in screaming pain for eternity despite their goodness. I almost took off a star for that sadness! This was a story of great love and sacrifice. It was also full of spunk, attitude and action. You won't want to miss it!

Alexandra says

I already had those in separate books but I am a sucker for box sets and for this price I just couldn't say No!

This story takes you on an emotional rollercoaster that just doesn't let you take a breath, calm down. I adore Pandora, she is just so awesome, with all her struggles and heartbreaks, her bad-assery and cuteness. She fights for what she knows it's right, no matter the consequences, no matter the pain it'll put herself through.

Her carnival of demons fascinated me, I love them all but most of all Sloth, I would love to cuddle with him, no matter the danger of never getting up again. Asher took my breath away, I fell for him as she did and rooted for them from the start, against all odds.

And then there's Dean. Oh boy! No, no boy, he's a man through and through. Playing games, being cruel, with his darn irresistible grin... I'd be a puddle at his feet, he made me swoon even though he is clearly not a hero, not good at all.

The plot just gripped me and didn't let me go, threw me in deepest despair (especially the last book made me bawl my eyes and heart out) and then kicked me up in delirious heights, it was just that good. Read for yourself, you'll see what I mean!

Erika PBookHavenBookBlog says

"I was like a dead man being reborn. This woman, this demon, who'd been crafted just for me, was knitting me back together again, making me whole. The depths of my need for her was almost frightening."

What an experience this box set was!! A whole world created with vividly told adventures, complexly layered characters, twists and turns, and never a second that I wasn't addicted and inhaling the words as fast as I could recommend them!! All the feels, all the jaw drops, all the hotness!! I can't wait to dive in to the rest of this Author's books!

### **Shaye Ensign-moon says**

I liked these to a degree, but the last one dragged terribly. I just wanted it to end.

---

## **Patrick Barnes says**

### **Surprising**

I didn't realize it was a paranormal romance novel. I got caught up in the MC trying to survive her mission and the intrigue surrounding her. That she was a lust demon, made her obsession with sex and sexual attraction work to further the story.

The intrigue and the questions about powers at war made the book hard to put down. The sex scenes were better written than I expected from a romance, I had no prior experience with them. The first half of the set was OK but as it became more of "that's my woman and he's my man", I found it too hard to read.

As her lust demon got weaker so did the character. Her obsession with sex gets tied to her "love" for two characters. Between the shallowness of the MC and her emotions together with her schoolgirl internal dialogue that would be more at home in a teenage movie (does he like/love me?), I lost interest in the book.

Not bad if you're into the genre, I think but it's not my kind of story.

## **Pórey Jónsdóttir says**

3.5

---

## **Andrea Loveless says**

### **2 stars**

So.many.errors. here are just a few:

Said she hadn't had sex in over 2 days then a few pages later says she just had sex the day before but this particular guy roused her Lust demon.

Changed spelling of Vybyn to Vyben

Changed name of her transportation thing from porting to tracing

Said she never wears, or even owns, bras and suddenly she is wearing them

Admitted the stuff about Pestilence being inside her in front of her enemy then wondered how her enemy knew

Her pestilence demon worked on the zombies and then suddenly it didn't anymore

Said a baby died in 1863 then dude is like I remember your years in Mexico that would have been around 1863

Switching from Dora liking cream and sugar coffee to plain black coffee

Said Luc housed a second unknown demon but when it came time to make sure he had all 7, suddenly he only had Lust.

It took me a long time to get through this collection and I can put down 3 books a day no problem when I want to. A tedious read. It started to get better, as far as writing, near the end.. but still typos and tons of continuity errors.
