Aircraft Accident Investigation

Richard H. Wood , Robert W. Sweginis

Aircraft Accident Investigation Richard H. Wood , Robert W. Sweginis

This book covers all aspects of aircraft accident investigation including inflight fires, electrical circuitry, and composite structure failure. The authors explain basic investigation techniques and procedures required by the National Transportation Safety Board (NTSB) and the International Civil Aviation Organization (ICAO). There are also chapters on accident analysis, investigation management, and report writing. The appendices include the Code of Ethics and Conduct of the International Society of Air Safety Investigators.
