Once again, I'm too tired to write a full review, so here are my thoughts (jumbled style)

This review is officially titled jumbled thoughts in the middle of the night.

Ymir. Now that is how you write a complex character.

Mikasa.... yeah not so much.

Literally, I thought Mikasa was gonna kiss him (Eren) for a sec, and the thought of Eren and romance just don't mix for me. The thought of Eren and Mikasa in a romance makes me want to gouge my eyes out with a rusty spoon. Mikasa should be with someone like Jean, someone who actually respects her and sees her worth. Eren can't see anything but his own anger towards the titans. Now, I love Eren, but no way should Eren and Romance be a thing. He'd need a solid 12 years of therapy, anger management classes, and a ticket to an alternate dimension before I could see Eren Yeager having a functional relationship. Also, they are like 12 (okay they are fifteen), so just... no. I wouldn't actually mind seeing Jean and Mikasa together, but they probably both will die at some point, so I'm not keeping my hopes up.

That's the great thing about this manga. If you don't like them, there's a huge chance they'll die anyway!

Anyway, that was a random tangent,

Armin is the one character who I love and will defend with my life. Realize that while Mikasa is the physically strong one, armin always ends up being the one who saves the day. He's such a kind and gentle soul. It was so adorable (and heartbreaking) when he was holding an unconscious Jean and pointing his blade up at the titan defiantly.

Erwin. Still don't know how I feel about him. I'm pretty lukewarm as far as Erwin goes. Future volumes may change my mind.

Didn't love this installment tbh. Nothing much happened, but the theme of reason vs. defending the ones you love was a cool thing.

When Mikasa was like "Thank you for showing me how to live" I was eerily reminded of Bella Swan.

That was not a good moment.

Co-dependency is not a good thing.

Female characters **SHOULD** develop outside of their childhood (crushes?)

Hope you enjoyed these tangents.

Funny story. I was reading this today at dinner and kept commenting on the manga to my sister. Mostly I was saying how Eren needs to CALM THE HECK DOWN and think before he just charges into everything. I finished it and started freaking out about the ending because cliffhangers, and my sister just looked at me and said, completely straight faced, "Guess who else needs to CALM. DOWN?"

I get too excited about these books.

Mario says

I swear, this series is going to give me a heart attack.

Amazing, action-packed volume, and also really emotional. I loved the scene between Mikasa and Eren at the end (even though I still think that Erin is annoying little shit, who doesn't deserve Mikasa), it was nice to see Mikasa's emotional side. But of course, that scene didn't last, because Eren had to be a jerk, as usual, and ruin it. I really hope I'm not the only one who can't stand him sometimes (well most of the time).

Maria says

5 minutes into meeting eren and for the rest of her life

mikasa: y'all, listen up. I've only had eren for 5 minutes bUT if anything were to EVER happen to him i would kill everyone in this room and then myself (literally)

seriously though. how BADASS is this. eren??mikasa??ymir??erwin??mr hannes???

Shannon says

[Hannes dies a really crappy death just before Eren figures out he can somehow control the other titans. (hide spoiler)]

“Shinzou wo Sasageyo!”

This volume, as well as the corresponding anime episodes, are GORGEOUS. The epic battles and amazing character dynamics probably make this my favourite volume so far.

OMG!

N?rmin says

Such an intense volume! Emotional drama and fights were incredible!

Eren is such a piece of wood when it comes to feelings. Mikasa just told him her feelings but he just showed his anger to the titans.. And what is it, do his wishes come true now? Titans took action according to his wishes? How can it even happen?

I felt sorry for Bertold and Reiner. ..even Ymir.. I wonder what is happening with them..Why are they expected to bring Eren to their hometown?

Goddamn it, poee Hannes is killed.. ((At the hands of the same titan who ate Eren's mother. .. That was just horrible. ..

By the way, I am glad that I am not the only one who doesn't see Eren and Mikasa together as a couple. Just no. No development, no romance.

Now with lots of questions, I am moving on to the next volume..

Connie says

THIS WAS SO INTENSE.

Yet again, different relationships were developed. Ymir and Christa, and how they fight for eachother, rather for themselves. Bert and Reiner, and how they'd die trying to protect eacother: the perfect warriors. Eren and Mikasa, showing the bond between them can never be broken, even though Eren is a little sh*t most of the time. Even Jean and Armin, with their little moment at the end where Armin was protecting him from the titans. PERFECTION.

I just need more Hanji and Levi. I miss them.

Just gotta wait for Volume 13 now.

there were some great emotional scenes. But it still feels to much like filler. I really think the author is dragging this out to long. I need answers but for the last two or so books it really does seem to be NOTHING but fight scenes. Which is cool and all, cause don't get me wrong, I love a good fight scene as much as the next gal. But there's a point were it becomes repetitive and boring. :/ the first several books were epic because they actually moved the plot along at a decent pace while feeding us little bits of answers with still plenty of mystery to keep the reader reading. But the last couple volumes... It's just been fights with people talking about a "hometown" with NOTHING being explained, or even really hinted at. :/ sigh! I like fights, but this is just to much. It feels a lot like the long drawn out fights I had to suffer through in "inuyasha." Ugh. "Attack on Titanm better get better soon or I might come to regret buying all this merchandise. :/ .

Maybe taking a break from the series for a week or two will help. I think I'll read some regular novels for a bit. Still. It's a great series over all and I still recommend. But volumes 11 and 12 are definitely gonna be a drag. Just a warning.

Ps. Sorry if the review doesn't make much sense. Wrote this super late at night and I'm exhausted.

Story

I'm developing a love/hate relationship with this series. I didn't rush out to read this one like I did the last one. I really want to know what's going on, but it seems like it's going to take a long time until we get any sort of answers. We get a few more hints in here, but far too few for my liking.

Hopefully they can tighten the story up in another season of the anime. This volume is a bit heavier on action and lighter on story than the last few.

Despite my complaints though, it still has its hooks into me and I will definitely reading the next volume when I can borrow it from the library.

Artwork

The artwork continues to frustrate me in places. The actions scenes are such that it's really hard to tell what's happening until afterwards at time. I look forward to revisiting this in anime form because the intense action is ruined by the bad artwork.

As usual most of the still frames are fine, and it's action that is hard to follow. This volume has a lot of action though.

Bradley says

Definitely some crazy shit going on here, and oh, The Pathos!

Seriously, people, there's some really awesome grief and guilt going on here. I'm almost ready to throw in the towel and root for all my enemies.

Pretty soon, there's going to be nothing but victims and victims, as far as the eye can see, and that's pretty damn awesome considering how the manga began. One great foe against the host of humanity? What a turn of events this is shaping up to be! :)

Delightful!
