Dhanush says

Very nice

It is very nice I think every one should buy it

The picture quality is soooooooo nice just like in real comic

Douglas Prince says

As this is under a dozen pages of superhero goodness, I'm going to review the whole four-part series when I get to the end - read my review of 'Avengers Ft. Hulk & Nova #4' for the big scoop.

DOUGLAS J BERRY says

Short

I liked that it was free. The commercial backing of western union was not overt. The old school supervillains are fun to see again. Super adaptoid should be more powerful? Was powered by the cosmic cube slice?

Doctor Doom says

Too short, too much of a commercial for Western Union, too forced. The characters did not ring true to me

and I have been reading Marvel stories since the 1960s. Even though it was free I feel cheated with the time it took to read these short stories. It will be forever deleted from my kindle.

Jonathan Proaño says

It was good

It's funny how they make WU get into the stoyline, but it wasn't too much as the previous issue which is good. I am enjoying this serie.
