Believe Bigger: Discover the Path to Your Life Purpose Marshawn Evans Daniels

Reinvention strategist Marshawn Evans Daniels delivers a practical and inspirational guide for women ready to reclaim their lives and discover a higher purpose after experiencing regret and disappointment—demonstrating that through disruption, life can become sweeter than ever imagined.

Marshawn thought she was on the right path. She was an accomplished business woman and high-powered sports attorney ready to marry the man of her dreams—until she learned just days before a fairytale wedding that he was cheating on her. After betrayal flipped her seemingly perfect world upside down, she found herself craving significance, not just success.

Believe Bigger is about resilience, reclaiming your life, and how God uses rejection, hardship, and unexpected circumstances to awaken something greater within...if you're willing to embrace disruption. You'll see her go from heartbroken and hitting rock bottom financially, to building a multi-million dollar faith-centered enterprise, and finding something super sweet along the way. Calling. Marshawn shares what it takes to turn pain into purpose and your mess into a larger message and life mission.

Whether you are drowning in self-doubt and regret, feeling stuck, or sensing a shift but unable to discern what's next, Marshawn's Purpose Map outlining the 5 Stages of Divine Reinvention, will give you insight into your true gifts and calling—and the courage to pursue them. You'll see that difficulties are not designed to devastate you, but to ignite the bigger dreams, life, love, and abundance you were destined for all along.

From Reader Review Believe Bigger: Discover the Path to Your Life Purpose for online ebook

Kemi Adefarakan says

I started highlighting from the very first page of this book. I believe this book was written from a place of surrender to the Holy Spirit because only He could have given her the words to cause such major disruption and transformation at the same time in my life.

Every page breathes new life and speaks to and awakens the woman inside of me. I don't think I have read any book that has spoken to me so loudly and awakened me to my calling like Believe Bigger has.

"I just didn't know exactly where else I belonged . . . so it seemed easier and more comfortable to stay...I started the sports agency years before I got engaged, but in both scenarios cheating was front and center. In my relationship, I was being cheated on, but at my job, I was cheating on my calling." When I read this quote, I was like, wow Marshawn, have you been reading my journal? Have you been having a conversation with God about me? Because I know I have been cheating on my call.

I have been ignoring the rumblings and loud whispers of more inside of me for a very long time. I have been saying yes to less because I was afraid to believe bigger. Not anymore.

Another quote that just had me crying was, "What if God speaks most powerfully by saying nothing at all? The belief that we have to get it right or that we'll somehow step out of grace stems from the fear that if we're not careful, we're going to mess up our lives...When you're faced with a choice, it is easy to find yourself facing paralysis. We over-think, over-pray, and over-research our way out of opportunities. And we over-question, trying to discern if something is God's will...We become watchers instead of leapers. We keep waiting and waiting . . . and waiting on the perfect time... And, we don't have to pray about every single thing, looking for confirmation in every possible way. That's fear, not faith."

As a woman of faith, I know that I can over think, over pray and over research my way out of opportunities. So this was a great reminder for me to stop over spiritualizing things, waiting and waiting for the perfect time and just go for it. I have prayed about it enough times, I know His Word concerning it, and now, it is time to go and act.

If you are someone who is not clear about what her purpose is and you know deep down that there is more. If you're feeling stuck and in what she calls "The GAP" - a place of uncertainty, change and transition, BelieveBigger was written with you in mind. Her 5 Stages of Purpose and Divine Reinvention will help you get the clarity necessary for you to move into your calling. When we look at our lives, we see a mess. When God looks at our lives, He sees a map.

Pranati Battaile says

Believer Bigger is a book that will provoke you to take a look at your journey through life with new eyes. It will cause you to view what you thought as a setback as a setup. Believe Bigger caused me to do some self introspection. I appreciate Marshawn's heart. I appreciate her honesty and transparency. I appreciate her rawness. It's very apparent that Marshawn has allowed God to use her in a mighty way through this book. I can appreciate my life's journey because of wisdom that comes forth in this book. Marshawn uses her life's journey thus far, all the setbacks, hurts, disappointments and distractions to help us understand our very own journey.

Believer Bigger is for the woman who has given up on life. For the woman who is just beginning her journey. It's for the woman who believes there is more but is not sure how to get there. It's for the woman

who has been at the top of her game but now sees her life from a different view. Marshawn has been at every stage and now she is using what God has placed in her to help us.

Believe Bigger is a breath of fresh air! Believe Bigger is a book filled with practical wisdom and encouragement. It's a map on how to get from where you are to where you desire to be.

Believe Bigger will help you to embrace life's distractions and to see them with new eyes. Believe Bigger will help you to BELIEVE BIGGER!!!

Rhyan says

This book has revolutionized my life! I received an early release copy of this book, and I promise you that my life is not the same. It's so good that I have purchased 11 altogether to give to friends!! This book does not boast of some magic formula. It is not a prosperity gospel message. It is not your typical self-help book. This book teaches you to overcome fear by facing the disruptions in your life.

Marshawn asks the question, "What if the bad things are not happening to you, but are happening for you?" I AM TELLING YOU!!! This book caused me to shift how I look at the disruptions and disappointments in life. Disruption in life is a set up for a blessing if you recognize it.

I have wrestled with anxiety and doubt for as long as I can remember. There are days that it is a struggle for me to even breathe. Since I started reading this book I do not wrestle with anxiety. I can breathe. Inhale and exhale. Normally breathing is such a labor (literally). Fear and trauma are crippling. But, I am not carrying elephants in my chest anymore. I am not afraid. Marshawn's book talks about eliminating stinking shrinking thinking. She has taught me that I don't have to be afraid, and think small of myself. Instead, I can hold my head up and trust God. He desires for me to trust him for BIGGER! Totally buy this book!

Stephanie says

You don't want to put this book down, because you can literally feel your beliefs and future changing. Marshawn breaks purpose all the way down in a way that is easy to digest and finally get. This book is anointed.

Colette Byfield says

"Get out of my own way." "Live intentionally." These phrases are finally given some practical and spiritual gravitas in "Believe Bigger: Discover the Path to Your Life Purpose."

The book could have been titled "The Purpose Map" because it's primary focus is not so much the path to your purpose - but your actual purpose. And it hinges on 5 development stages - outlined as a map - to get you from an existence of **doing** to **being** in a way that feels concrete.

The author, Marshawn Evans-Daniels, is a reinvention strategist. But the book is not written like a "10 Steps to Happiness" guide. She blends powerful personal failures into very useful questions that the reader can use to acknowledge the experiences and "broken beliefs" that are holding them back. New concepts like holding

on to the version of “you” from 10 years ago or building your life on other people’s expectations are fully explained and she gives you actual strategies to break out of these mental habits.

Marshawn patiently explains how we come to these “split-rock” moments (life-changers) and how to use the hidden treasures in the rock to go forward powerfully and meaningfully. Her writing style is friendly and non-judgmental, like if your friend was also your tutor.

But be clear, she is laser-focused on ensuring that you understand what your purpose and calling is - both from a Christian and professional perspective. Like many women in church, she felt limited in what she could do. Professionally, as an attorney, she felt unfulfilled. It was at that crossroads of feeling limited and talented that she discovered what her real purpose was. She challenges you, the reader, to carefully examine your own personal feelings, experiences, skills, and deep desires to “discover” what your purposes are too.

I will admit that after reading this book I felt much more certain of my spiritual and professional callings. I finally understood what the words “Purpose” and “Callings” meant because she clearly defined them. And I feel fairly confident that I could explain them to someone who asked me. There will be plenty of emotional, bittersweet moments due to the reflection exercises. But she gently leads you to the next “stage” and strategy so you don’t get stuck in the past, reliving every mistake. She shows you how the mistakes intertwine into that “future Me” that all of us want to be!

But one area where I thought the book struggled was with staying focused on Individual Purpose vs Impact to Others. The stronger message is on Individual Purpose but Marshawn links it to “helping others”. My only concern is that so many women are already “helping others” to the detriment of finding their true purpose! Women, especially in church, are already bombarded with messages to always be helping other people. I think this book made the strongest case for finding your individual Purpose **first** (like putting on your air mask first in an airplane), then helping others. To some extent it was almost apologetic, like “I’m finding my Purpose only because it will help others.”

However, this book is absolutely necessary and an excellent guide and testimonial to believing in yourself, believing in what God can do, and of course giving yourself permission to just “Believe Bigger” because there’s no reason not to.

Believe Bigger is well-written, carefully worded, and delivers its intent to realign you with Purpose - both spiritual and professional. You will not be disappointed. It is a must-read for Business Minded Women, in particular, who need a higher-level mentor to discover their next level.

Who Should Read This Book?

Ages 18 and up. Professionals who feel lost in their chosen profession. People who can’t decide on their profession. People who are not fulfilled in Church -you may be on church ministries that seem routine. People who feel that they are missing out on “more.”

How to Read the Book

This book is chronological in nature because it start with a personal experience that is threaded throughout the entire book. Additionally, the Purpose Map -the focal point of the book - advances in numerical stages. So you really can’t “skip ahead” to a specific chapter or section that quickly addresses your problem.

Cons

Some non-Christian readers may not understand some of the spiritual concepts, which may be a drawback.

Bringing very specific spiritual concepts like “Holy Spirit” done to earth in any practical way is very difficult. I don’t think I’ve read any Christian cross-over book that has mastered that particular concept yet.

The organization of the book has a few challenges. It’s divided into 3 uneven parts - two are very short - the middle is very long. There is one brief “intermission” chapter after Part 1 to set the reader up for Part 2, which would have been useful throughout the entire book to give the reader a “break”. The recaps of each chapter are given at the beginning of the next chapter, which I thought was a mistake. I would have liked the main principles of each chapter to come at the end as a summary.

Where to Buy

Believe Bigger is available on Marshawn.com and Amazon for Pre-Order

Disclosure: I received an advance digital copy of this book as part of the Believe Bigger Launch Team. I was not compensated for this review in any way.

Ayisha Hayes says

I love to read books - specifically self-help books. But this is not your typical self-help book! It’s a fresh ELEVATED perspective on the journey we face as women and how our experiences both chaotic and soul stirring are meant to take us from our comfort zone to our glory zone. Believe Bigger is written by a woman who is leading an extraordinary life and operating an extraordinary business. She has graciously and lavishly poured her heart and KNOWLEDGE into every chapter. YOU WILL NOT BE DISAPPOINTED by one word, one page, one point or one story.

But here’s the best part. Believe Bigger will give you the tools to take action after the inspiration and excitement wear off. After reading this book, I went after and landed my first PAID corporate training. I wasn’t confident that a corporate setting was where I belonged. But after reading this book I CHOSE to believe that if God was sending me into the marketplace then that’s EXACTLY where I belong! Whatever door opens I’m running through it with the confidence that my life has prepared me! I’d forgotten about me - as being a wife and mommy to toddlers had begun to take over every aspect of life. Truth is, I was settling. I knew deep down I could do both well, but I had to CHOOSE greatness, no one was going to choose for me. I BELIEVE I can be a great wife and mom WHILE operating with excellence in the business space God has called me to!

BUY THIS BOOK and share it with a friend!

Karen Quarles says

Believe Bigger for me is the prized possession of eternity, placed in a time capsule and sent into existence for an on schedule arrival. The voice of God is so evident in the pages of this book. When the stories and experiences of someone else make you say thank you as you read them, it’s clear that Marshawn Evans-Daniels truly got it right. When you can connect the suffering of someone else to the season of your own birthing, you realize that your life’s purpose is necessary. Your season of turmoil is necessary. I love how Marshawn teaches how disruption can be the sweet segue into the life you have been praying for.

Even more, Believe Bigger is a great guide for those hungry to discover their purpose and an amazing reference guide for those who may know their purpose, but need a reminder on how to stay the course. It's really something for everyone! The only way to birth a message like Believe Bigger is to have a trustworthy vessel who gets it. You can tell God trusted her to birth this Believe Bigger baby. Marshawn really gets "it" (purpose) and is obsessed with making sure you get it too...and when you read this book, I promise you'll definitely get it!

Stylesplenty says

I was able to read Believe Bigger for free from Netgalley, the publisher and the author for providing me with an ARC in exchange for an honest review.

The book came at the right moment for me. Everything Marshawn Evans Daniels was right on. It was very honest, revealing and helpful. Love the book and will continue to read her books.

Casey Sharperson says

"Disappointment does not disqualify us, it anoints us. Doubt is what disqualifies us."

Believe Bigger is line after line wisdom filled (just like the title of this review). I found myself highlighting, underlining, screenshotting, and shouting throughout the book. It was one of those reads that I found myself sneaking to find extra time to read just one more word.

The book spoke to me in ways that I would never have imagined. It was real, relatable, and raw. I appreciated that even when Marshawn was telling her story, I saw myself. This is not a memoir. It's a manual on how to tackle this thing called life with grace, gratefulness, and purpose. It awakened new desires in me to step into uncharted waters and make an impact that I can't even imagine.

It is laced with life and breath and I encourage EVERYONE who's trying to find their next step in life, faith, or career to purchase it.

Since starting to read the book, I began to Believe Bigger and divine doors have opened. I've gotten speaking engagements, formed new relationships, and made more money. It all starts with belief.

Dominique Clark says

Sometimes it can be uncomfortable knowing that God has called you to a purpose BIGGER than you feel you're worthy of, and maybe one that you haven't even fully tapped into yet...you just know it's something BIGGER than yourself.

As soon as I opened Believe Bigger I could feel the passion and authenticity from every page...from every word! Marshawn has poured her complete heart into this amazing book, creating an transformational experience for any who gets their hands on it. Her transparency about her purpose journey has encouraged me to stretch and be confident while on my own. And I know it will do the same for you.

As you read you realize that you're not alone. You begin to feel like there's finally someone who understands how you've been feeling, who's been through what you gone through in fighting to pursue purpose. But more importantly, someone who within the contents of this book maps out exactly how to get there!

This is an incredible read and I have been so blessed by the material, chapter after chapter, and I'm not even finished yet! Do yourself a favor and get your copy of Believe Bigger today. It'll make discovering and confidently stepping into your purpose that much easier!

Happy Reading!

Dominique

Faneisha says

There's really only one word that I can use to describe this book: rich. I'd consider myself an avid reader, particularly of the Christian/Self-Help genre. Of all the books I've read, this book is by far the most engaging, relevant, and with the most substance. Not only do your turn each page inspired, but you're also given actionable steps and points of reflection for your life.

I immediately connected with Marshawn within the first few pages. I won't be a spoiler, but many of the things that she experienced in her life were, in some way, mirrored in my own. As a reader, I could see myself in the book. It was as though I was reading my life. This made it more powerful as I progressed through the chapter. I could easily see where my life could go if I applied the principles of the book.

Marshawn is transparent in such a way that is not only alluring, but relatable. She cleverly uses her life's story to share a message of faith, hope, purpose, and believing bigger. If this book doesn't inspire you to walk into your purpose, I don't know what will!

I have been encouraged by this book to keep walking in my calling and to believe that greater is yet to come. I've shared this book to everyone I'm connected to and I would encourage you to make this a part of your library.

Tanessa Burch says

Disruption and destiny go together hand-in-hand. Purpose, however, is not supposed to be a mystery. God desires that we attain mastery.

I am a book reader (now also an audiobook listener too). I rarely come across books that give me the sister girl truth but still feels like love from a grandma's hug. Well, Believe Bigger is that book for me. I have been a fan of Marshawn Evans for several years now and although she has shared her journey over the years through videos, speaking engagements, and workshops, this book has helped me feel that I know her. Her journey has been quite interesting. The thing I love most about Believe Bigger is that is raw and uncut. She tells her story without placing blame and she embraces the process of life. Life WILL always happen and our response to what makes the difference. Marshawn teaches us and provides examples of how we are to be responsible for ourselves.

We as women, all have "Little Me" that journeys with us for us. It is always determined to block "Future Me". In this book, we learn that little me is an important part of life, but that Future me is greater, Future me is who God has destined us to be. Future me is who God said before we were in our mother's womb would be. Future me take time to evolve into but I believe that Future Me is necessary. Future me is Kingdom.

In this book, we learn the 5 steps to the purpose map. Each step is defined in detail by Marshawn. She explains how each step is important. It is more of a process of life that we will all endure

We learn about sacrifice, forgiveness (and how forgiveness is about more than just forgiving someone), motivation, intention, commitment and getting rid of shrinkin, stinkin thinkin.

One of my favorite sections in this book is the chapter covering divine invention where Marshawn discusses our purpose, calling, gifts, disruption and reinvention. My second favorite section was over The Five Success Mountain that women endure.

This book is filled with so many nuggets and gems. Here are a few quotes/scriptures that truly tugged at my heart.

Anything we struggle to release is a sign of deeply seated doubt.
Comparison cripples our confidence and compromises our calling.

If you wait for perfect conditions, you will never get anything done.—Ecclesiastes 11:4 (TLB)

If you are on the fence go ahead and buy it! It will bless your life. I then encourage you to share it (so buy a few) with the women in your life or to bless a complete stranger. I have recommended both the audio and hardback version to everyone.

As a woman of God, we need to surround ourselves with likeminded believers. Marshawn is a woman who has shown us over and over that we can BE Kingdom minded and have success. We are designed and equipped.

Anthony Muhammad says

As a man who is still processing the abrupt departure of my wife from our marriage of almost 17 years, it's been a struggle for me to regain my bearings, to put myself back together and to try making some sense out of what happened to me ... and to us. Through it all, there have been family members, friends, members of the mosque that I attend and co-workers who would tell me: "You'll be alright," "It's her loss," "You're best days are ahead," "God has a plan for you," ... and so forth. I sincerely believed them ... and believe that they were sincere in what they said ... but somehow those words still felt kinda "cookie cutter"-ish. The words were what I would expect those who cared for me to say. However, I desired something that offered more ... specificity. More direction!

How do I get to being alright? How and when do I get to experience these best days? Will God be gracious and merciful enough to share His plans for me ... with me?

Enter “Believe Bigger: Discover The Path to Your Life Purpose.” Now, I’ve been following Marshawn Evans Daniels since I first heard her in a radio interview back in 2011. I’m no stranger to her brilliance and how God has guided her into transforming the lives of entrepreneurs. However, because I’m not an entrepreneur, I wasn’t sure how what she offers could apply to my life. This book has erased such uncertainty.

From the Introduction where Marshawn writes “Entering your purpose will first require an exit. To unleash the greater you, GOD WILL DISRUPT YOU AND DISMANTLE YOU” {emphasis mine} I was ABSOLUTELY sure this book would DIRECTLY apply to my life. Even though the language of this book clearly demonstrates the target audience is women of faith, I didn’t allow that to cause me, as a Muslim man, to miss seeing the universality of the principles she teaches. I said “teaches” because make no mistake about it ... opening to pages of “Believe Bigger” is opening the door to a classroom. Marshawn Evans Daniels is the instructor. And yes, there is “homework” to be done ... rather LIFEwork.

This book is truly Heaven-sent. It is an answer to many prayers that I’ve prayed and I believe that others have prayed for me. I thank God that through this dynamic woman of faith, I’ve been equipped with tools that will assist me with the restorative work that remains to be done in my life. Through “Believe Bigger,” I am experiencing His grace and mercy. Onward towards my “Glory Zone.” Onward towards my purpose.

Chelsea Bailey says

My goodness I did not know Believe Bigger would be such a blessing to my life! I was totally in a place where I knew God was calling me to new heights, but did not know where to start. I came across Believe Bigger: Discover the Path to Your Life Purpose. From the time I picked up this book, my world has not been the same! The moment I began reading I knew this book was different from others I have read in the past. The message will have you screaming PREACH as you read every word!

In the book, the author describes five stages that we go through, however most people never get out of stage two and never reach their true purpose. WOW, that right there should stop you in your tracks (I know it did for me). Marshawn’s book taught me about the stage I am currently in, how to move forward in my life, as well as where God is directing my footsteps next. This book will reveal to you the very same thing! Imagine having clarity and revelation every time you turn the page! Originally, I ordered this book via my Kindle as soon as I heard about the book. NOW I have ordered three more!!! This message needs to be spread worldwide, that is how anointed this message is. This book needs to be on everyone’s shelf TODAY and I say that from a place of wanting YOU to know your God given purpose as well. If you are looking for a divine intervention then this is the book for you!

Joy N says

I am blown away! I felt as though I was literally reading parts of my life etched on the page. The only difference is that the insight she provides into her story and struggle and faith is strong and beyond words. I literally could not stop turning the page. I’m highlighting. I’m clutching my chest in agreement. I’m holding my breath wondering what happens next. I am just in awe of how Marshawn has been able to capture BELIEVE BIGGER from wilderness to winning and beyond.

As a Christian, Jesus-loving, 36-year-old woman addicted to the view of success and driven always for more... this book has stopped me in my tracks and I'm realizing I need to spend much more time with God passionately pursuing purpose not just my own process. Thanks so much Marshawn. You've lit a fire. I'm believing BIGGER already. Bigger faith. Bigger goals. Bigger love. Bigger prayer life. Bigger purpose. BIGGER. This book has been the ride of my life so far. And I plan to do a book club soon. Yay!
