I had a little trouble finishing the series, which I don't recall happening before when I've enjoyed the first two books of a trilogy so much. The 3rd book seemed to have alot less plot than the other books and I found the dialogue to be repetitive in places.

Now I'll admit, I skipped the second book, but it just felt like the author kept dragging out the final showdown longer than necessary. Then the conclusion of the goal seemed like an anti-climax. A whole lot of talking about what happened in the first two books, but not much happened here. I finished it, so it couldn't have been that bad.
