Alaska—the final frontier?

When Clara Avery, an entertainer working on the Fate, an Alaskan cruise ship, goes to nearby Bear Island, she comes across a scene of bloody mayhem. She also comes across Thor Erikson, who will soon be a member of the FBI's elite paranormal unit, the Krewe of Hunters.

Thor's been sent from the Alaska field office to investigate several grotesque killings, with the dead posed to resemble the victims of notorious murderers. The prime suspect is a serial killer Thor once put behind bars. The man escaped from a prison in the Midwest, and all the evidence says he was headed to Alaska...

Thor and Clara share an unusual skill: the ability to communicate with the dead. Their growing love—and their contact with the ghosts of the victims—brings them together to solve the case...and prevent a deadly fate of their own!

I generally enjoy the Krewe of Hunters series by this author, but this one, not so much. The main female character in this book was a supporting character in the last book in this series and I never considered that she could be a main character in her own right. In the beginning of this book, she was whiny and clingy and not the strong female character this author usually writes in this series. She later became stronger but by then I had already developed a dislike for her. Also, she and the main male lead just didn't seem to have the chemistry that is usually there between the leads in this series, it was like it just popped up all of a sudden. Unfortunately, this one just didn't do it for me! Maybe its time to retire this series.

This book, "Deadly Fate", by Heather Graham, read more like a romantic suspense rather than a mystery novel. It reminded me of the Harlequin suspense novels. It had a better finish to the story than I anticipated, though I still felt a little disappointed in that I thought it would be more interesting in the storyline.

4 STARS

Deadly Fate is the 19th Krewe of Hunters. Heather Graham is still keeping the stories fresh.

This is full of gore, some of it is fake but some is real. A reality show is set up on Bear Island with a fake bloody scene to play a prank on some actors. But a real killer adds his own kill to it. The descriptions are hard to read and imagine.

There are some twists that you might not expect and some that you might guess.

There are some love scenes but if you want are easy to skim over.

Clara Avery is a actress with some other actors that first appeared in Haunted Destiny. Finds a deadly mess. She is on a private island in Alaska. She is glad when she sees FBI Agent Jackson Crow. Clara finds it hard to accept that now she can see a ghost. I would freak out too. if a ghost popped up in my room.

Thor Erikson is a FBI Agent from Alaska. He has a dream about a old case he worked years ago with Jackson Crow his old partner. So when he gets a weird murder and finds that Jackson Crow is coming to work a case with him he is not surprised.

I like Heather Graham writing. The touch of ghosts are a fun part of the story.

The setting for this book is Alaska in summer.

I did not finish this book. I read the free preview and thought it sounded like a great who-dunnit, so I bought this book and was almost immediately disappointed to learn that it is about ghosts! People, ghosts don't exist! I guess I will have to go back to reading every word of every review about a book before I buy it, but I don't like to read too many reviews because they may give away a surprise I don't want to know about. I understand that many readers seem to just love reading about ghosts, zombies, and other make-believe nonsense. I'm afraid I do not enjoy tales of the supernatural. I had previously read another book by this author and really enjoyed it, so I was totally unprepared for the ghost silliness. Forgive my anger but this is the 2nd book I've bought recently that turned out to be about something entirely different from what the cover and summary stated it was about. 'Wish I could get my money back.

Deadly Fate is the 19th of the Krewe series and the second of the "trilogy". I liked this one slightly more than Haunted Destiny. The mystery was more exciting and kept me guessing. But, again, the romance was forced and really rushed. I'm almost wishing that there would be either more romance or none at all. It's seems that in these latest Krewe books, the romance has become an afterthought and just slipped into the story because it needs to be there. I'm not feeling the connection with the love interests even though I'm told I'm supposed to. Maybe it's time for a break from the Krewe. I'd love to see some stories with some of the old gang and their love interests. It might bring back some spice to the series.

Harisa Lagji says

Boring. It started out really strong but I actually think the romance took away from the story. It felt randomly thrown in and awkward. I think this would have been a lot better without that.

I do like who they made the villain though. I saw the twist coming but was still glad it happened because it was the best idea. So the last like 5% was well done but it was a lot of boring in between. Will not be reading any more from this author.

It was an amazing book, it started with a bang, and kept going from there! Really enjoyable, and I can't wait to read more!

Paraphrodite says

3.5 stars. Continues on from *Haunted Destiny* featuring Clara, Alexi's actress friend set to play the lead on the Alaskan cruise ship *Fate* production. I see some inconsistencies with her acceptance of her "I see dead people" abilities from that previous book, though.

I guess you could say I am a little behind in the Heather Graham Series Krewe Of Hunter since this is the first of the series I have read.

I must say wow! Heather Graham was able to create amazing characters that were 3-D making the reader feel as if they were in the middle of the case of a serial killer. I wondered with it being book 19 if I would be lost but infact I was able to jump right in without getting lost. I was a little shocked to find I enjoyed the ghost aiding in the case because most of the time I strongly dislike the idea but Heather Graham was able to pull it all together in one amazing story.

Romance between Clara and Thor have genuine chemistry and it isn't forced at all making it a believable romance.

There is enough humor to balance out the darkness of the serial murder which I loved!

I am go happy I took a chance on Heather Graham and I can't wait to go back and read her other series.

ARC Netgalley.

This was not a compelling story; it was easy to put down for days at a time. It took a long time, over half the book, before I connected with Clara and Thor. We met Clara in the previous book and I thought she was a weak character. She was still weak in this book, not interesting enough to carry the story. Thor was more interesting but I never felt like I knew him.

The story was convoluted and while it had some twists, it just didn't hold my interest. I struggled to finish the book. The Alaskan setting was nicely done and Thor's family was interesting.

Overall, a tepid story with a weak romance.

Lyndi W. says

Not real impressed with this series anymore. Formulaic and predictable at this point. I think the author's talents would be better served by giving the Krewe a break and focusing on other projects, at least temporarily.

Ghosts on Black Bear Island

DEADLY FATE is #19 in author Heather Graham's Krewe of Hunters series and I think she needs a break.

I have read other books in this series and liked them a lot and I was especially looking forward to this one because I love Alaska.

But I can hardly find anything good to say about this story. The dialogue was stilted, the characters wooden, the romance and sex scenes were boring. I never did feel a connection between the H/h.

I did like most of the passages about Black Bear Island and Alaska - they had some redeeming qualities so the story wasn't a total loss.

I feel bad because I think this really could have been a good story. I don't know whether the author was having an off time while she was writing it or what but I was serious when I wrote that maybe she needs a break from this series.

I received this book from MIRA Books through Net Galley in exchange for my unbiased review.

Thor Erickson a local FBI agent is awakened by a phone call. Where he is summoned to a gruesome murder scene at a Seward hotel. In route, he learns that Jackson Crow his previous partner is on his way to Seward. A serial killer they once captured has escaped prison in the Midwest. Could this murder be his work? The tale that unfolds offers twists, turns and an engaging mystery.

Clara Avery is a character we met aboard the Destiny in Haunted Destiny, Krewe of Hunters #18. Now she is working on the Fate, an Alaskan cruise ship. She was asked to take part in TV show on Bear Island to promote the cruise ship but upon her arrival, she stumbles across a horrific murder scene before crashing into Thor Erickson as she flees.

Graham set the stage for an interesting murder mystery. She weaved in characters we had previously met, reopened a serial case and set everyone on edge as we discovered the gruesome murder scenes. We had several ghost aiding us. I always enjoy the way the dead aid the living in this series. Both Clara and Thor can

see the dead and she soon becomes involved in the case.

A romance develops between Clara and Thor. It was sweet, sexy and was served as a side dish to the investigation. I enjoyed the romance and found both characters likeable and the chemistry genuine. Graham weaved in a little humor as one of the ghosts meddles by encouraging Clara to make the first move.

Graham takes us inside the perspective of the killer and while not lengthy it was chilling. The mystery wrapped up quickly but then she delivered a twist. This created a second ending that was suspenseful and well executed. The murders themselves were gruesome with just enough details to awaken the reader's imagination. Key characters like the owner of the island, his odd caretakers and others offered us plenty of suspects and aided in revealing details.

I haven't liked the last 2 books all that much. I'm not sure why, but I had a harder time reading them than I usually do. I hope that the next one grabs my attention more. Heather Graham is one of my favorite authors.
