Kamichama Karin Chu, Vol. 01 Koge-Donbo*

GODDESS OF LOVE!

Karin is your lovable girl-next-door type—if the girl next door also happens to be a goddess! Karin has a magic ring that gives her the power to do anything she'd like. What she'd like most, though, is to live happily ever after with Kazune, the boy of her dreams. Magic brought Kazune to her, but it also has a way of complicating things. It's not easy to be a goddess and a girl in love!

Elizabeth says

I found it fun and imaginative

Em Mirra says

Pending.

Ella says

I love the manga series, I love the anime. And I definitely love Karin. She's always so innocent and adorable. No matter how she acts, she's quite cute.

Theresa ? says

This sequel . . . makes me mad.

If you've read Volume One of Kamichama Karin to Volume 7 of Kamichama Karin Chu, you'd understand what I mean.

(I actually started Kamichama Karin Chu BEFORE Kamichama Karin, and I really, really, really, really LOVED IT. I would keep reading it over and over and over and over and over until my brain would start SIZZLING. But that had to be at least 4 years ago.)

Karin seems like a different person!

In Kamichama Karin, she'd always use these weird responses and sayings.

"MUSH-FOR-BRAINS!"

"I hear you, screamy!"

"Merciful heavens!"

I loved that! That's what always made her so hilarious! When I needed a laugh, Karin could certainly give it to me.

But in Kamichama Karin Chu, she's different. She's just like any other majorly shoujo anime girl, blushing when a guy stepped within her 5 feet wide bubble of personal space, squealing, and just a little bit . . . Mary Sue-ish.

She wouldn't say those funny sayings anymore!! It was only in the short stories at the ends of the books that she'd use them, and it's only because those were probably written before Kamichama Karin Chu was created. (The settings were usually placed in the time of Kamichama Karin.)

Even though the art now is about a million times prettier, and the manga looks way, way fancier and girlier, I really, really miss Karin's floppy, carefree, weirdo self.

The manga's still pretty funny in its own way. Just . . . not like how it was in Kamichama Karin.

Still . . .

1. The art is really, really pretty. You can't expect anything less from Koge Donbo in her mastery of cuteness.
2. If you're looking for a huge buttload of drama, this would be the manga to read. (By drama, I mean the kind where these huge, major things happen to make readers gasp long wheezing gasps.)

Hannah Babaran says

reading and rereading this manga...amazing

Mehsi says

I read and saw the manga and anime a few years ago, and decided it would be a good idea to start again.

Since I still can remember most of the first manga, I decided to go for the second manga first.

And what a trip it was. Karin-chan was so adorable and she has her own harem of men again. Kazune is of course also around and I love their interaction, how they go from love love to hate and kyaaa.

We got new transformations in this manga, and also new antagonists. I am quite curious as to how it will unfold and how everything will go. I would say more, but since this is the second manga, I might spoil quite a bit, and I don't want that to happen.

So I will just say, read this series and of course the previous one.

Kelly says

I had higher hopes for this series, since the "prequel" series - Kamichama Karin - was actually quite cute and had an interesting plot line. This follow up really disappointed me. It felt like a jumbled mess, with only bits and pieces left over of the original character's personalilites. I may have missed something along the way,

but I would read the prequel first and see what you think. There were way too many "what the--?" moments for me. Normally love Koge-Donbo's work, just couldn't follow this one.

Yolancee says

it's a really CUTE anime!!! read it!!

Holly Letson says

It's been so long since I'd read series one of *Kamichama Karin*, that I thought I'd have forgotten most of what happened, but as I read Vol.1 of series 2, *Kamichama Karin Chu♥*, scenes from the wonderful anime and manga kept playing in my head.

That having been said....

I love this series just as much as the original it follows up. Karin and Kazune are back, and they already know that they marry in the future, and that (the "good") Himeka-Chan is their future daughter. But, this time around, a mysterious young boy, Suzune-Kun shows up calling Karin "Mommy!" and Kazune "Daddy!". And, they figure out that he is indeed their future son.

Suzune leave Karin in charge of finding "The Three Noble Gods". Kazune is one of them, and an idol named Jin turns out to be one of them. But, could it be possible that Micchi is also one of them? Yes, indeed...anything is possible in the world of Koge-Donbo!

There's also a cute prequel story included as a bonus story in this volume. It's one where you are made to believe that Kazune is going to study abroad. But, it's not him, who is going to. Who is it?

Hannah says

A good book. I really liked the first series because it was funny, and I hope that this after-series can be just as good. I think it's just as funny as the first series.

Treasure says

I just didn't like it-- it was messy, confusing, and too cutesy. And I didn't care for the plot. Just not my kind of manga.

It'sJustMiharu Sakura says

Third TIME READING THIS MANGA! This manga is still the number one favorites of my top ten. I loved the story plot and how cute of those characters are! ???

Mohamad Alamsyah says

Sayang sih ga ada animenya, jadi baca manganya aja. walaupun hanya hitam putih tapi tetap seru kok manganya :)

Jonathan Beyers says

Just like before, I busted out laughing when I read this. Taking place before the main story of Kamichama Karin, it tells of the search for the three Noble Gods and gives a glimpse at what is to come. I had high expectations for this book and I was definitely not disappointed. It hints at future conflict as well as oncoming hilarity and mischief. I would recommend this to anyone who has read Kamichama Karin, as well as anyone who hasn't but wants to. If you aren't a fan of this genre of manga, I ask you to keep an open mind and not judge this series before reading it. I have a feeling that this will be an excellent series.

Julie says

I was dissapointed with the first volume of the sequel just because I was aware of how great the prequel series was compared to this.

The plot seemed messy and confusing at times, it was difficult to get a grasp on what was going on. I personally, would have put the extra at the beginning, just to help stem the tide and generally make it more coherent. In addition, alot of things happened all at once and the panels seemed too full. It was just a hot mess really.

However, the artwork is even better in this one, although I really do miss the funny chibis. Seriously, it's so beautiful that even if I don't like the rest of the series I wont regret buying the set because they can just sit all pretty on my shelf. In addition, there were still some really funny bits and it was great to see my favourite characters again.

Karin may have lost some of her spark but I can still see hints of the original Karin and Kazune and hopefully they wont have changed too much in the next volumes. I'm still optimistic.
