Lord James Harrington and the Easter Mystery Lynn Florkiewicz

Meet Lord James Harrington and his delightful wife, Beth; residents of the tiny village of Cavendish, deep in the heart of West Sussex in England. They adore hosting seasonal events, running their country hotel, keeping the local folklore alive and listening to the latest murder mystery on the wireless. But mysteries don't always remain on the airwaves...

It's Easter and the Cavendish residents are discussing the traditional festivities along with the proposed Easter egg hunt on the Harrington estate. But when the vicar's dog digs up a bone, things take a turn for the worse. Retracing the dog's walk, James uncovers a skeleton buried in the woods. Studying the remains, he identifies a number of expensive items. With the likelihood that the victim could be someone well-to-do, James is concerned that he may know the victim and puts his sleuthing hat on.

With investigations under way and a long list of suspects with motive and opportunity, James is confident that it won't take long to solve the mysterious death. But a chance conversation turns the whole enquiry on its head. With his good friend, DCI Lane, involved in a current murder enquiry, James takes it upon himself to delve deeper. His questions take him from the quiet village of Cavendish to the beautiful city of Boston where more surprises await. James calls upon many of his contacts to help him track down the murderer. Will he bring the killer to justice or is he on a wild goose chase?

Join James, Beth and the Cavendish regulars as they enjoy the Easter events and embark on another adventure.

[Sociopaths in the 50's. Gotta love Celia. Tough woman. (hide spoiler)]

William Freeman says

I have to admit getting into this book was rather difficult. I picked up this book thinking it might be similar to the Lord Peter Wimsey books, but wow was I sadly mistaken. Perhaps it is because the writing was a bit too amateurish as well as dated, but the amount of time spent on food preparation and being consumed got to be way over done and redundant. Unless you enjoy stories set around cooking, and food, with perhaps a murder thrown into the mix just to compliment the food being prepared, you may find this book a bit dull and totally uninteresting. The last third of the book was somewhat interesting, which is why I gave the book two stars and not one.

Review

As always the author has written another delightful cozy mystery, perfect for a lazy afternoon on the sofa. Highly recommend for anyone who enjoys cozy mysterious.

Julie Berthelsen says

Cannot wait for the next one!

I have been so enjoying this series. Each one gets better it seems. Engaging characters and great twists in plot. Nice historical period fiction set in the years after WW II in the UK.

Keith Gerard says

Great book

Interesting insightful fun to read. Like depth of plot carried out to the end. Like the way the series leads from one to the next book.

Lucille Bifano says

Love this series!

Really enjoy this series. If this village was real, I'd move there! Can't wait for the next Lord Harrington mystery.

Alyce Goldberg says

Fun read

Florkiewicz has created a fun cast of characters. I look forward to their adventures. There is a bit too much description of festival planning and sponge cakes for my taste, but I am sure others enjoy it. This is not a true whodunit...the solution is pretty obvious...but the journey is worth the effort.

Marty Mcintyre says

Nice light read. I like this series. The setting in a small village in England during the 1950s lends itself to a certain kind of nostalgia for simpler days.

Rebecca says

What an absolutely wonderful series! I look forward to more.

Christine says

Entertaining but a lot of padding with too much detail about village pagents. It could use much tighter editings so one doesn't lose the essence of the village but the plot moves along faster.
