Mars, Volume 10 Fuyumi Soryo

A bad boy can change a good girl forever. Rei is the school delinquent. Kira is shy and studious. What they see in each other is a mystery to their friends. What they find in each other is a miracle to themselves. With a style that is artistic and chic, this tale of restless and confused high school love will appeal to young women everywhere.

Leila Anani says

Having run away, Keira moves in with Rei and they finally sleep together. Rei proposes and the couple look to the future, but there is the ominous threat of both sets of parents in the background suggesting that true love hasn't quite triumphed just yet!

This is the volume we've all been waiting for and the love scenes are gorgeous, beautifully drawn and romantic. Its also a nice change to see Keira happy and smiling for the majority of the book, there are a couple of tear stricken episodes, but for the most part she's happy. Hurrah. Rei's pretty sensitive and caring in this one as well, showing us just why he's hero material. If you want sappy teen romance with tonnes of melodrama this is the series to read. A tad OTT but has the addictive quality of a soap opera.

Jenny Clark says

So Kira and Rei are even stronger now. I love Kira getting a job, and her manager pissed me off...

Heini says

Just noticed there was manga in here also :) Mars is one of the series I read in the last couple of weeks. Pretty basic girl meets boy -story, except the character build up is a little bit better than in the very basic ones.

Jessica-Robyn says

This time things were a bit happier, more carefree. But it feels too quiet... it's like those really silent moments of a horror movie where I'm just waiting for the loud *bang* to happen.

Still, I really do enjoy this story. It's depressing as hell, but the moments that Rei and Kira share make the whole thing worth it in spades. I'm getting pulled along by their romance. It's like gravity.

You can see my review of the complete series (spoiler free I promise) on my blog [Reading Robyn](#)

Lynn says

Today's post is on MARS volume 10 by Fuyumi Soryo. As it is the 10th in the series you need to have read the first 9 to understand the story. It is published by Tokyopop. The cover has Kira and Rei on it looking pretty. The intended reader is young adult, likes teen drama, and more drama. There is sex, some mild language, and violence in this volume. The story is told from Kira's perspective. There Be Spoilers Ahead.

From the back of book- Free at Last

Now that Rei and Kira are an 'official' couple, Kira experiences a refreshing taste of freedom for the first time in her life. But soon, she and Rei find themselves at one of life's major crossroads. The two must decide how school and work will play into their future. Kira decided to take a job in order to secure her independence, while Rei contemplates quitting school so he can support Kira. Just when you think you have your future all mapped out, love enters the picture and changes the scenery.

Review- Kira and Rei have sex in this volume. It is not graphic but it is very clear what they are doing. Kira is forced to interact with the real world. She does get scared but she deals with it. Rei does help but it is Kira who chooses. The character development in this volume is more relationship development. Because they are living together now Kira and Rei have to deal with some things that neither could have guessed was coming. Rei's father is still trying to get in touch with him. Kira of course is worried that Rei is ashamed of her or something like that. That is something that I wish would get dealt with but ten volumes in and Kira still thinks that like. But I still really enjoy in this series. But that said she is much better than she was at the beginning of the series. True love and all that. All the drama is good for your heart.

I give this volume a Five out of Five stars. I get nothing for my review and I bought this manga with my own money.

Kat says

K this took me forever to finish because i left it in my boyfriend's car and he lost his keys for a few days. then i didn't see him for like a week so yeah it took a bit of time. But i liked it. If that guy would of grabbed me i would of smacked him and once he started to cuse me out i would of told him he was lucky i didn't sue his ass for sexual harassment and kicked him out of the store, but that's just me

Adrya Ribeiro says

Tão fofinho eles juntos. Tomara continuem assim :D

p.s.: Não gostei da parte do Restaurante, ficou muito óbvio que ia acontecer alguma coisa, só porque o outro personagem tinha falado antes que aconteceria... Não foi legal.

Vera Neves (Sinfonia dos Livros) says

Uhhhhh..... Agora é que foi!!

Teresa says

Okay, so I'm giving this three stars because it FINALLY gave me what I've been asking for in this series:

1.) Kira growing a spine for herself--yeah, she's still codependent on Rei, and she places too much of her happiness on him (when she's groped by a group of guys and Harumi asks if she'll be okay, Kira smiles and responds with "I'll be okay--Rei will make me feel better!"), but whatever, like Rei says, she's finally starting to develop a personality (my words) and starting over living life (his words).

2.) More side character action!!! I adore the side characters in this series--we meet Violet, Rei's trans neighbor in his apartment complex, who is funny, insightful, and adorable at the same time she's perverted. Some of the notions/language is outdated (Violet says "I'm woman through and through, I just **have the body of a man**," and then proceeds to show her dingaling to Kira as a joke, but it's 1990-something, so I'm really not too put out by it considering some trans people still think like this today), but the fact that we have a trans character now is AWESOME.

We also get MORE HARUMI AND TATSUYA!! ??? For once they--sort of--talk about something besides Rei and Kira all. The damn. Time. I've always appreciated the female friendship between Harumi and Kira, but as the books go on it seems a lot more genuine and not plot oriented.

We also get more than three pages' worth of their adorable double dates! And actual discussion of their lives, not just Rei's and Kira's lives (for like, two seconds, but still, there's hope).

Hama the moving guy is still awesome and funny, lol. Tatsuya is the sweetest friend ever.

3.) I don't remember if this is the book where they broke up but I don't think so. In any case, it's refreshing to actually get back to their relationship and the troubles that come from wanting to stay together. I much prefer this more average, every day to day storytelling to the mess of drama that has been previous books. There's no more stupid melodrama arising from Rei's past with Sei/Shiori/Masao and Kira being insecure about it while Rei angsts and waxes poetic about how much he wants to die.

The drama with Masao was preferable to the Sei/Shiori thing because it was infinitely more interesting to explore Rei's sociopathic side, but even that got worn and dragged out too long, so I'm glad we're back to this actual, you know, NORMAL stuff. And the scene where Rei starts to see everything differently after he's (view spoiler) is adorable, and it's scenes like these that make me like the story.

Anyway, here's hoping the rest of this series gets even better!!

Today I'm covering a work, which I actually found in yahoo answers. It was a funny story because I was searching for a manga with lots off kisses, and the best answer had a list of mangas. The top one and the most recommended was this one. Though it was not really what I expected (I mean, there weren't that many kisses), however, I enjoyed it a lot! I loved the story a lot. The idea is not all that unique, however, the way the story develops is great. It somehow reminded me of a manhwa – the One, and I'll cover it sometime soon. But let me get back to this story.

If you're waiting for a peachy, rose-color love story, you'll be immensely disappointed. As there's nothing

simple and easy in this story. It starts perfectly normal for a shoujo romance story – a popular boy is interested in a shy introverted outcast. However, the more the story progresses the deeper the problems are and the more we dwell on human psychology. None of the characters are easy to understand and it doesn't help that everyone has at least one deadly secret in the closet. Throughout the story, we are faced with joy, sadness, hatred, and love. The issue of hatred is one of the major ones, as it is shown in many perspectives. The hatred towards another being and hatreds towards your inner self. It is very interesting to watch how the relationship between Kira and Rei develops. They have a number of obstacles before they actually achieve their dreams and mostly all of them are due to the trauma's from the past, therefore the story gets more and more intriguing and you're sucked into it from chapter one.

The author raises a number of questions, which can never be ignored in our life. There's the issue of the family as a whole and there are many others, however, the main one you have to identify for yourself, as you'll be asking yourself on the way: "What would have I done in the same situation?" but before I finish this review, let me talk a bit about the characters. I enjoyed reading about all of them. Sure some of them annoyed me, but I still enjoyed them in the overall. My favorite is Rei, I just liked the guy a lot. He's both the positive and the negative character. He compensates his bad qualities with lots of good ones. However, his temper is one thing he should be working on. Kira – she's a great character, a bit too crybaby, but at the same time she's strong. I don't think you'll agree, but she is strong. There are many more interesting characters than those two, but those two are main so I had to mention them. There are some characters that will make your skin crawl, I do not want to name them, as you'll have to experience them yourself.

Are you up for a romance between an aspiring painter and pro bike racer? Are you ready to find yourself in the dark world of death and life? Hatred and love? Do you have 4 spare hours? I finished all 15 volumes in 4 hours approximately. If yes, then I recommend this fantastic story to read. Enjoy it to its fullest and don't forget to share your thoughts below! Stay tuned for more reviews as well as promos. Don't miss your next favourite book or manga! Happy reading!

XOXO

Katie

Jesica says

Ahora entiendo algunas cosas--!

Kristin DeGarmo says

Wow! I can't believe they're getting married and that Rei dropped out of school! I'm interested to see how Kira's stepdad plays a part in the next volume.

Michelle. D. says

OK, this is for the overall series which I finished on January 8, 2011.

Masao is just a phsyco! He is crazy man, I say crazy. With all those stuff and the stuff he says and with his mind tricks and anger problems. He's a m*****. Though he says that he isn't. He is though. Remember at the end?! He fully is and I don't care what people think. He fully is one.

OMG! It is so horrible what happened to her! D:

The first thing I wanna point out is that Kira cries a lot. She cries when she is happy. She cries when she is sad. SHe cries when she is angry. She cries when she is scared. SHE CRIES ALL THE TIMEEEEE! Like seriously. It kinda annoyed me. A lot. Some times. Occasionally. But she does cry a lot. A LOT.

Rei isn't that hot. I like his personality though. :D

The overall series is OK. It was slow during different times. There was always a lot of times where this major thing happened and then the chracters get over it and then some random stuff that happenes and then something big again. Kinda a pattern.

I like Sei even though he wasn't really alive.

Children. HA!

So overall, that is all I have to say which isn't much.. I give the series 3 stars. I think it could have been better.

HAHHAHA. They did that thing. That part surprised me.

Sarah Maddaford says

There is a sex scene in this volume. It isn't porn, but it isn't under the covers/fade-to-black either. I couldn't put it in my YA section, but other, larger libraries might be able to get away with more.

I can't remember other exact details, but the earlier volumes were definitely better in my opinion even though the later volumes had more depth of story.

Vicky says

Rei is the type of guy that Kira couldn't stand; flirty, reckless, and a biker. When a chance encounter leads to Rei saving Kira from a teacher with bad intentions, neither of them know the extent to which the other will impact them.

On the outside, MARS is a typical coming-of-age story centered on the relationship between good girl and a bad boy. But underneath the romance lie stories of suicide, rape and murder; the idea that everyone has a secret to hide, even those who seem most innocent. When the dark pasts of Rei and Kira come to light, they struggle to keep their relationship together.

This is definitely one of my favorite manga series out there, I highly recommend it for the shoujo fan! :)
