**Murder on the Page** Kennedy Chase

**“Full of humor, mystery, and great characters. I love the Notting Hill setting and Monty the cat!**

Murder on the Page: A Harley Hill cozy mystery.

London’s newest sleuth, Harley Hill, has found a new identity. Where once she was an orphan and a rogue, now she’s a partner in the Silvers & Hill Finding Agency, and her first full case will test her to her limits.

When Harley and her partner Cordelia are tasked to find a rare diary belonging to Queen Elizabeth’s closet confident, John Dee, they think it will be a routine case. But before they start their investigation into this ‘Doomsday Diary’ they discover a murder!

And worse: the victim was the key to finding this book whose secrets threaten to bring down the monarchy and the establishment. Harley, along with Cordelia and Monty the cat, will have to go to the very root of power in London if they’re to find the murderer—and the Doomsday Diary. But as they dig deeper, they risk becoming the next victims.

**The prequel book, *Murder on the Hill*, is available here: <http://www.amazon.com/dp/B00OL1FQVW>**

(These books can be read in any order as each is a standalone although readers will see more of an arc of the characters over the course of the series but it's not critical to read them in order.)

**“Fast paced, gripping, entertaining... I’m finding it hard to find more superlatives for this wonderful women sleuth murder mystery story. Harley Hill is the new Stephanie Plum.”**

File Under: Women Sleuths, Cozy Mystery, Romantic Mystery, Murder Mystery

### **Dan Holt says**

#### **Lots of typos**

Probably needs a rewrite - sometimes an early version gets uploaded. A little plodding in the story line also. Thanks

---

### **tammy says**

#### **Mystery**

I couldn't put it down. Murder, mystery, cinnamon rolls and a feisty trio of women. Harley, Maggie and Cordi. I loved it

---

### **Jennifer says**

#### **Fun cozy**

This is the second of the series. I enjoy the quickness of the books, they are enjoyable and fun with the right amount if snarkiness!

---

### **Trudi Jorda says**

A very enjoyable read with a good cast of characters. I can understand this being a cozy mystery-- It felt really good reading it. I look forward to the "biker chick" persona of Harley her newly discovered brother and her Excop honey and her best friend all figure out life with the friends Aunt Maggie the baker and tough lady of the the group!

---

### **Kathy says**

#### **Great read**

OK book two and I love it great story great characters that you can't help but love getting book three now

---

### **Wendy says**

Cute, but had several places that needed clarification. Liked the main characters

---

### **Ruth Ferguson says**

Light hearted entertaining quick read

---

### **Argum says**

Cute little cozy. I started here and it was no problem. Anything I needed to know was explained, but I don't think it would ruin the backtrack to first book either. Harley Hill had a rough childhood and has landed on her feet with Cordi running a finding agency. This is still rather new, but its going well. They are set to work on a case for a book shop owner - find a lost diary of John Dee. It apparently could bring down the government if it got out then and now. Many are looking and some are powerful. The owner is dead and its covered up, but Harley and Cordi don't let that discourage them. There is also some intertwined love life bits. Fun and simple.

### **Angela says**

3.5 stars

This book would have benefited with a good editor. I found the missing words, and other errors a little distracting.

The storyline itself was unremarkable, and perhaps the ending was finished up a bit to quickly.

There are two reasons for the extra half star in my rating. The first being that I can *so* relate to Harley's love of cake.

But all I cared about right then was the word cake.

I reminded myself I was in polite company and thanked our host before selecting the smallest piece. I nibbled at it, resisting the urge to stuff the whole slice into my mouth at once.

The other reason for the extra half star in the rating is I absolutely loved some of the descriptions. Some of them actually made me laugh out loud, which I rarely do while reading, even when a book blurb assures me that I will.

Cole was there, standing close to a redhead - full-figured woman with breasts like airbags and lips that could suck an apple through a hosepipe.

Cordi even made me borrow a pair of her heels to go with it. Although they were a size too

large, they still fit reasonably well. They were the same colour as the dress. I tottered across the road like an amateur drag queen.

I could be convinced to read more of this series for those two reasons alone.

### **Margie says**

3.5 Stars

This was a really quick read - it was good, but not a page-turner. I would read another in the series for a fun, quick read.

---

### **Deep S says**

I really enjoyed the first book of the series had high hopes for the this book.

It did not disappoint me , but not too enthralling either.

The story is about the Harley and Cordi getting hired to find **Doomsday Diary** containing lots of secret about the British Novelty.

A Murder happens and the search becomes a murder mystery. The story moves nicely with lots of suspects and adventurers. Maggie is the star of the book with her lovely cakes and authoritative and sharp mind.

Harley does what she does best, breaks into a Club and steals a bracelet and a book. With no sense breaks into a DON's headquarters. Lots of things dont make sense, but what the heck it helps is solving a murder. I must confess around 60% of the book I knew who the culprit was.

There were lots of side stories which were little distracting.

I liked the episode when Harley meets her brother though.

A decent book and fast read.

I give this book a 3/5

### **Dawn says**

After reading the first book, I was a little weary about this one, to be honest. It was an interesting book, with them looking for an old ancient text for a collector. Harley works with Alex throughout the book to solve the murder of the collector while everyone else wants to just sweep it under the rug. We don't really get to see Cole much throughout the book, however, a lot of the story near the end actually revolves around him, in a way.

The store line, actually contained about 3 running at the same time. Chase worked the storylines together nicely and tied it up nicely. It may have been a little too neat, however, it still worked for the book.

Overall, it was a fun book and I will probably read the rest of the series.

---

### **Heidi says**

meh. I don't remember when I started reading this and found it on my kindle carousel about 80% read. So, I finished reading it. I didn't remember what it was about, so my finishing it was just an exercise in completion.

---

### **Belinda says**

I did enjoy the mystery, but the book needs a good proof-reading and editing. So many words were missing or the wrong word inserted that I had to mentally fill in the blanks all the way along. This is the worst book for mistakes that I have read in a long time. Also, the ending being a setup for the next book is not my thing. If you want to know the next sentence, read the next book. I'm not that keen on filling in the blanks in a book to start another one right away. Cute characters, quaint English setting - and I do adore English settings, and a plausible mystery kept me going to the end. I feel badly for the author as her work deserves a better end product.

---

### **Peggy says**

#### **Exciting plot**

This was an engrossing read, and I thoroughly enjoyed it. The typos (usually a missing word) were a little confusing but still not nearly as distracting as some books where they clearly have no concept of grammar. The tension was riveting, the mystery compelling, and the characters intriguing. I'm so glad I found this series! This is a little more serious (less fluffy) than the average modern cozy murder mystery, but it still skips the blatant gore of a non cozy. The mystery unfolds in layers, allowing your subconscious to notice the clues and solve some of the puzzle (or at least understand it after the reveal). I always love a good story where, even without all of the details, I can make an educated guess yet still be surprised when everything shakes out. I'm looking forward to the next book.
