## Shattered Souls Daniele Lanzarotta

It has been thirty years since Lexi made her choice. With time, many things have changed, but others... never will.

As her past comes back to haunt her, one vampire is destroyed, and Lexi is the one blamed for his true death. She is now being hunted by her own kind, and as much as Nicholas tries to protect her on his own, that is not enough. He needs help, and he values her far too much to ask for help from just anyone.

They encounter ghosts of their pasts, face their worst fears, and above all, heartbreaks strong enough to shatter souls beyond repair.

### Amanda says

When reading a book, I often find myself talking to the characters. This usually occurs when they do something incredibly stupid or heroic, or both, and I actually find myself telling them "Don't do that" or "Noooooooooo". But very rarely do I get so attached to a book and its characters that I literally want to throw the book across the room. What occurs even less is when a book moves me to tears (not just one or two tears, but bawling like a baby crying). However, when I find myself doing all of the above, I know an author has done their job. It's simple, if an author can get me to speak to characters (like they can hear me), and make so enraptured with its storyline and characters to make me frustrated and laugh and cry and be extremely happy, then they have done a superb job.

This is where I find myself with Shattered Souls, Daniele Lanzarotta's finale in the Imprinted Souls series. I laughed; I cried; I spoke to the characters; I finished the book in four hours! Yes, I devoured it. Shattered Souls is jam-packed with adventure and drama and, trust me, YOU WILL NEVER SEE THE ENDING COMING. Whether you love or hate the ending, it comes as a complete shock. Which is a breath of fresh air... let's face it, you don't read because every storyline is predictable. Seriously, how boring would that be? You read because you like being lost in the imagination of the author. You read for those rare books and storylines that you can't get enough of. You read because you want to know what happens. The Imprinted Souls series captures that rare quality in its storyline and Shattered Souls does an amazing job of ending the series and keeping you guessing. If you have not read the other books in this series you need to before picking up this book. There is very little back story and you will be lost as to who the characters are and what has happened in the past to land them in their present circumstances. Mrs. Lanzarotta does an amazing job with the finale and you won't want to put it down.

What a great book! I love that is was told from much later on in the past from where the previous book ended. I was sad and happy with the way things ended, but enjoyed it enough to finish it in one day.

This was the best book in the series for me. The first book i found a little tough to get into, so its nice to see each book improve on the last.

Im looking forward to the spin off series.

If I could give this 10 stars I would.

This was an amazing end to one of my favorite series!

A fast forward twist grabs you in the very beginning and then you just can't put the book down. I fell in love with Nick from the start, and this book just reinforced his character. You find closure with all of the characters and plot twists, and unlike all the other books in the series you are not left with a cliff hanger. :)

Let me just say that books do not make me cry, but this one got to me!

This whole series was nothing but heartbreak for me. It was so depressing! It wasn't a fantastic read, and I got annoyed easily, but it was def a page turner. There really wasn't anything full of excitement. The bad guys got away too easily or destroyed too easily and there wasn't much "build up" to the major scenes. The whole series is worth 3 stars.

OK I love this series,sad to see it ending..Love all the characters.Although I didn't cry (lol sorry I must be cold hearted) I loved the twists and turns in the story.And the ending is truly great can't say I saw it coming.I would recommend anyone to read this book and series.And see how quickly you fall in love with the characters.The only thing I can say about this book is I've always been Team Matt, I so was so secretly pulling for him ;)

#### **What an amazing story**

Reading this finally answered a lot of the questions I had left from book 4. My all means if you have not read this series what are you waiting for. You will fall in a love/hate relationship with all the people in this story. Tyler, Lexi, Matt, Nick, Travis, and the rest of them. Start with book one Imprinted Souls for a very different view of how vampires live and how they survive in the world. Don't compare this story to anything that is already out there. Daniele has her own way of how they live their world and it is nothing like you have read before. I have never finished a vampires series as fast as I have finished this one. Nick get the best surprise out of everyone and has to make a very hard decision that changes his life in so many ways. If you are looking for a good vampire series check out the Imprinted Souls series you won't be let down at all.

I loved the series, I'm definitely gonna read these books again!

The books are different than the other vampire books I've read, especially the last one.

Shattered souls is such an emotional roller coaster, I loved it. There were twists and turns, I never knew what would come next.

I couldn't decide which boy she had to be with, Matt, Tyler or Nicolas, I love them all, they are 3 great guys :-)

I'm sad that the series is over, I'm really gonna miss the characters.

### **Cathy says**

I still enjoyed this series even though there were some similarities to others I have read. I liked this last book and even really started to like Nicholas. A LOT. I was not crazy about the ending for 2 reasons. I just didn't like who she ended up with ("He" just gave up on her and turned into a weak version of himself). I do not like it when they "give up".

Also, the end of the book was VERY rushed. It was like the twist and then THE END.

Love the way she describes the characters and the the background. You can really get a visual, I just didn't always like the way the story went. :-)

### **Rita says**

I really don't have much to say about this one. This was a jumbled up mess, it really had nothing to do with her being the reincarnation of Lydia. It was mainly about her running and who she would pick. Waste of time.

### **Heidi says**

And by "finished" I mean "couldn't be bothered to read more than the first quarter of it." Sorry, the writing left a lot to be desired to such a degree that I had zero interest in or desire to read much more. I don't ask that my dirty vampire porn be on par with The Great American Novel but, jeez...

### **Denise says**

Once again you were brilliant. I could not stop. crying towards the end I went to bed with blotchy eyes, it was a bittersweet end. I am sad to see Nicholas gone. But I guess all good stories must come to an end.. :( Daniele you are an amazing writer!

Could not put the book down! Not a dull moment for Lexi in book #5. Daniele Lanzarotta saved the best for last in the Imprinted Soul Series! Don't forget the box of tissues. Looking forward to the spin off series of books.

This 5th and finale book in the Imprinted Souls series will have you on the edge of your seat! What an amazing emotional roller coaster that will leave you happy, sad and everything in between. I'm a fan of all of Daniele's books but this one wow! The twists and turns are great one that I can guarantee you will pull the rug right out from under you; I know it did for me and the ending well you will not see it coming. I love that we get to learn more about the sexy cocky Nick in this book. I fell in love with him when he 1st appeared in this series and I still love him! (Sorry Tyler fans it's just the way it is) ;-).

Lexi and Nick get together in this book, she is also depressed about certain things (Read the book to find out, yup I'm mean.) Things seem to be going alright until other vampires start trying to attack Lexi. Nick can't protect her all the time so he turns to someone from the past and Lexi will not be so happy about it. With their kind out for Lexi other things seem to unfold also. Not just from Lexi's past but from Nicks as well. What happens when you find out someone who was supposed to be dead a long time ago turns out to be still alive?

Well I have been with the the Imprinted Souls series since the first book, so I was very excited to get the chance to read the finale book in the series. I will say I am also a little sad to have to say goodbye to these wonderful characters. I am a big fan of these books and I am proud to say that I own them on my personal book shelf and they will stay there always.

I was so surprised on the beginning of this book, I did not expect Lexi to have made the choice that she made. It is so sad to see all of the heart break in this novel. I found myself crying a few times as I was reading. I will say that this wonderful author has a way of making me fall in love with her writing style. I love everything that she writes. I was sucked into this novel and I am waiting to see what else Danielle will come up with next as I will be waiting for whatever she decides to write about. I will admit in saying that I hope we get to see more of the Imprinted Souls series in the near future, I can just not make myself say goodbye.

The ending is so surprising that I did not see that coming from a mile away. I got the ending that I wanted. I have been Team Tyler since the very beginning. Well again I am sad to say goodbye to this great set of characters and I can only hope that Danielle decides to write more about them in the future. This book is a great ending to a great series.
