I really like this book. I thought it was a really good mystery to read. It was like a roller coaster you didn't see what was coming around the corner. It was one of the amazing mystery books I've ever read. I just couldn't wait to see what happened at the end. I was on the edge of my seat while I was reading this book. I am a big fan of the Olsen twins, I've watched them on t.v. when I was little. My wish is to go meet the twins and the author and tell her how much I like her books.

The girls are dared to go into a haunted house to try to see the ghost they think is stealing their craft popsicle sticks that they need to compete in a contest.

Perfect for 2nd - 3rd graders.

There is something vaguely unsettling about reading a fictional book about real people who were children at the time that the book was written. Bizarre.

Okay, first I have to justify why I read this. I was talking with my good friend Stephani the other day about Full House, because we are both huge fans, and somehow that led to talking about MK&A refusing to be on a Fuller House, which led to her saying something about them having a mystery book series. I had never heard of it, but looked it up in my library catalog and sure enough they had almost the entire series. Steph then challenged me to read as many of them as I could. So here we are.

Obviously I can't objectively rate or review this book, as I am clearly not the target audience. That being said it was really cute and made me smile, even though it took me less than ten minutes to read.

I put a few more on hold per Steph's request, but I don't know if I will ever get to all of them. We'll see.

Read with my kindergartener, 1st grader, and 4th grader. All three kids loved making guesses trying to solve both cases, who was the popsicle thief and was the green ghost real, and if not who was the one trying to scare them? This book had them really interacting with the story.

This book was funny.I mean the mystery was like,'Who stole my popsicle sticks?'

You've got to admit it.Finding missing popsicle sticks is kind of silly.I mean,I'm not the kind of person who would waste my time on that kind of stuff.Haha.

The ending turned out to me good.I never thought it would be Jeremy and yeah..a good motive too.
