## **The Duke's Willful Wife** Elizabeth Lennox

Sasha had loved Dante with everything she had in her. But a year ago, he pushed her away with accusations of cheating. She couldn't believe he would even think something like that and had run away, too hurt by his accusations.

Now his grandmother's dying wish is to see Sasha once more and Dante will do everything within his power to grant her wish, even if he still considers her a black widow who had betrayed him more deeply than anyone else. He could ignore her though, as long as it took to bring her to his grandmother.

What he hadn't counted on was Sasha's soulful eyes coming back to haunt him, or her previously slender body now gaunt with her weight loss. If she'd cheated on him, why did she look like she was the one that had been betrayed?

And then, in the moonlit darkness, the past didn't matter any longer. It was just her soft scent, her tender touch and her longing looks that drew him in. From the first moment they'd met they hadn't been able to deny their attraction to each other and the hurt each thought the other had caused couldn't stop that attraction from taking over and overwhelming both of them once more.

### **Elaine says**

I wanted to like this book but it just was lacking something for me. I'm not sure of the relevance of the title as I don't remember reading the male lead was a Duke?

I liked the beginning of the story, but as it progressed I became a little confused. I have read a couple of Lennox's books and after reading this one now I know why I don't enjoy them as much. One, the POV changes with each paragraph which becomes a little frustrating. Second, the beginning starts off slow and steady and then the last quarter is fast and unbelievable. Thirdly, I didn't like Dante the main guy in this book. He made assumptions and berated his wife and didn't get down to the bottom of the whole misunderstanding. I find that hard to believe along with Sasha being a pushover by feisty the next.

I was underwhelmed by the book. Also, where did the Duke come in at?

Sasha and Dante. They married after a whirlwind romance that lasted until she moved into the house he shared with his MOTHER... cue the evil music from Jaws. Yep, he's a momma's boy. I just couldn't forgive the hero in this one. He had no excuse unless you can accept someone's head being up their \*ss as an excuse for not seeing or thinking with your own head.

Dante believes Sasha was unfaithful on flimsy evidence and without talking to her so he kicks her out. Then when his grandmother is in the hospital and wants to see her, he is forced to contact her again. This is one of those harlequin type romances where I wish the heroine had moved on and told the hero where to stick it.... Maybe after telling his mother where to stick it too.

#### **GREAT**

The story was good . I enjoyed the sex scenes. The people were likeable. The storyline was interesting. I loved the ending.

### **? Rhiannon ★ Mistwalker ? says**

[Heroine is a doormat who, at one point, *begs* the hero not to divorce her and to give their marriage another try, despite him being a complete and utter asshole to her. The hero occasionally nags her to eat, and this is presented as proof that he is a good guy? And where was the groveling?? I scrolled back and forth looking for it when the book ended.

#### **The Duke's Willful Wife**

This is the second book in this series. It starts with the wife being estranged from her husband due to a misunderstanding. And the gate thrown at her from his mother. He came to get her because of his grandmother. She is ill and wants her granddaughter in law back. But will he be able to see what was just a misunderstanding or will he keep believing his mother?

#### **Recommended**

I like this series so far. It just keeps getting better. I know some would say it sounds like a lot of other romance stories but for me I am hearing about how trust can effect every part of a relationship.
