Broken. Bruised. Battered. The current life of twelve year old Halo Lareaux. Plagued by vivid dreams of a deceased mother that becomes more realistic, Halo soon discovers that she is the daughter of a once powerful Witch known to mortals and immortals alike. Dropped off on her distant cousin's doorstep at the tender age of two, she instantly becomes a burden. Halo is subjected to harsh punishments and modern day enslavement by the one who gave a promise to protect her. The only glimpse of society is the local middle school where she is considered an outcast because she is poor and different. Halo becomes resilient to the cruel life that she endures at the hands of her family. Until.... A few days before her thirteenth birthday a magical world awakens. A realm, which co-exists with modern day society and has been patiently waiting for almost eleven years, for Halo to mature. Embark on the journey of a young girl who rises from the dirty, tattered ruins of the swamps to an ancient sorcery school where she will be whisked away to meet others of her kind. She will make lifelong friendships, have a major crush and uncover dark secrets. Unimaginable secrets that will threaten the existence of mankind and Halo's birth right to become the grandest of all magical and mythical beings. The very mystical souls she has been destined to command. Both the living.... and the dead.

I was hesitant at first but glad I took the time to listen to Sylver and read her story. It's . Full of Magic and Fantasy elements. The main character "Halo"was easy to identify with but the main character's best friend "Nature" is a hoot and was my favorite. Not bad for an 11 yr old! Keep up the good work!

I won this book in a Goodreads giveaway for an honest and unbiased review. I believe this book is written by a young author and kudos to her for completing a novel. I enjoyed the story which reminded me of a combination Cinderella/Harry Potter mix. I hope Sylver keeps writing as I think she has the making of a great author. In future working with an editor and possibly with a writing group will help with some of the composition errors. I look forward to watching you grow as an author.

Didn't finish this one. I like her imagination, and she will do well as she gets older. Needs grammar and edits to make the story enjoyable.
