### **Jana Gundy says**

#### **A delightful mystery series**

While this is a cozy series, it definitely has plenty of mystery, murder and spookiness. I was really impressed with the stories, it's hard to hold a reader's attention when there isn't a lot of romance, drama or angst but this author pulled it off.

### **Amy says**

I really enjoyed the beginning of this series and will continue to read the rest. My only comment on why it got 4 stars were the errors in the book, especially the last one. Your editor and review team is not catching everything they should. Great series!

#### **Highly enjoyable**

Bought this on sale and glad I did. Clean cozy mysteries with ghosts and murder. Can't wait to read more. RIP!

### **Michaels Tetteh says**

I loved it and the characters, well some of them. Anyway, the stories were great and they had that "edge of your seat" feeling. Can't wait to read the rest of the series.

### **Barbara says**

#### **Thrilling**

I enjoyed all three of The Ghostly Haunted Tour Guide books. Each book was the same but different. They all scared me imencely!

### **Janet Angela beardsley says**

#### **I love Rose Pressy books!!**

She can really make characters come alive like you know them as friends so many people you meet, and being a paranormal fan and the added love interest What's not to live about her stories.

### **Gloria Milton says**

#### **Very entertaining!**

I loved the mysteries and slow-paced romance. These were refreshingly clean reads that kept me engaged. Will purchase more in the series!

### **Pam says**

#### **Major disappointment!**

I have been a fan of Rose Pressey since she started writing. I have found her books very entertaining, until this series. I finally finished books 1-3 which i purchased as a set. I was so disappointed Basically all 3 books are carbon copies of each other. The plot is very lame. The heroine is boring and predictable. Even the love interest has no personality. These books could have been better had they been written by a 13 year old.

### **Jeannie and Louis Rigid says**

This box set comprised of three full length novels surrounding the town of Devil's Moon, Kentucky. The new Librarian also moonlights as a haunted tour guide.

Each story was based on an interesting murder and although it was written simply, was a fun read to me. The tales lacked sophistication and the dialog was a bit weak but the stories, themselves, were intriguing. That is why I gave it a four star rating. I see wonderful promise for future novels. I also appreciated the romance vs sex approach. A more Gothic feel is achieved using romance.

I will look for future novels by Ms. Pressey.

**Ruth Caves says****Spirited**

Things that go bump in the night aren't always ghosts, and restless spirits aren't always evil. Lots of suspense and evil intentions. Boredom and jealousy don't mix well. It does help to have a boyfriend that is a cop.

---

**Virginia Allen says****I enjoyed the books**

They were all enjoyable. The third one I knew one of the people that done it before the end but it still didn't spoil the end.

---

**Cheryl Taylor says****Great story lots of twists.**

Very suspenseful. Realistic characters. Good read. You keep reading to find out what will happen next. Can't wait to get the next book.

---

**Sandra A. Oltz says****Awesome**

I really enjoyed these books. I couldn't stop reading and i loved the characters. I will be reading more of these.
