## Vicky Marie says

I enjoyed the entire series overall. There were some flaws, such as too much cheesiness, melodramatics, and repetitiveness, but that's to be expected from 90's manga/anime. If there was something that I can't fault it would be the artwork. Seriously, it's stunning, and also very 90's.

Solid abs satisfying ending. Probably my least favorite of the series but still good.

Fuu, Umi, and Hikaru are haunted by their time in Cephiro. During a reunion at the Tokyo Tower, the girls are transported back to this magical land, which is in total disarray after Emeraude's death left the kingdom without a pillar. The artwork is gorgeous, the girls' regrets are believable, and the story begins to ask important questions about the pillar system and the legitimacy of it.

The ending of this second series, though, didn't surprise me like the first, and the series lost a lot of its staying power for that reason. The constant repetition of Emeraude's death and the friendship of the heroines, the confusing battle scenes, the cliches, the lack of character development, the romances, the (view spoiler)... meh. Not a series I would reread, though the artwork is undeniably gorgeous.

## Hikari says

Allgemein: Magic Knight Rayearth von Clamp ist eine 6teilige Reihe über 3 Mädchen, die in die Welt namens Cephiro gerufen werden, um diese zu retten. Dabei steht vor allem zu Anfang der großartige Humor im Vordergrund, doch auch tiefgründige Gedanken über das Glück von vielen gegenüber einzelnen, über Schuld, Trauer und Liebe spielen eine Rolle.

Band 6: Der Abschlussband der gesamten Reihe. Alle Parteien denken nochmal gründlich darüber nach, warum sie nach Cephiro wollen und der Pfeiler werden wollen. Die Gründe ändern sich und werden weiser und besser. Die Geschehnisse zwingen alle dazu, nachzudenken und zu reifen. Doch schließlich öffnet sich der Weg zum Pfeiler nicht nur für einen - doch nur einer darf zurückkehren. Das spannende und großartige Finale beginnt. Und was für ein schönes Ende zudem. Wirklich eine großartig gemachte Reihe, die einen zum Lachen bringt und zum Nachdenken anregt. Die wichtige Anliegen vermittelt und Herz hat. Ich kann sie jedem empfehlen.

Ho adorato questa manga così avventuroso e magico. Tuttavia, per il finale della seconda stagione mi aspettavo qualcosa di più. Il confuso triangolo Hikaru-Lantis -Eagle non mi è andato proprio giù.

L'anime, che ha accompagnato la mia infanzia, invece regala molte più soddisfazioni, soprattutto con la storia d'amore tra Luce (o Hikaru) e Lantis, i personaggi che mi hanno più colpito. I loro sguardi valgono più di mille parole. Sarebbe stato bello avere una terza stagione per vedere l'evoluzione della loro storia. Nella mia testa già esiste, perché l'ho immaginata mille volte.

La seconda parte dell'anime, seppur più cupa e tormentata, è molto emozionante e complessa rispetto al manga. Ho molto gradito l'approfondimento psicologico di alcuni personaggi che nel manga ahimè manca.

Il personaggio di Eagle nel manga non mi è piaciuto, mentre nell'anime l'ho adorato.

Consiglio vivamente la lettura di questo bellissimo manga che non si dimentica facilmente, ma per quanto riguarda la seconda stagione, meglio guardare l'anime.

3.5

Este último tomo me pareció un poco forzado (ok, traído de los pelos) y me dio la sensación de que rellenaron un poco con pelea porque no sabían bien a dónde llevar la historia.

El giro sobre la creación del mundo fue tan sorprendente como WTF?! aún no decido si es algo que me gustó o no sinceramente, quizás más tarde decida que sí y le suba media estrella.

As Cephire's neighboring worlds launch a final attack, the Magic Knights are desperate to find the magical Road that will lead them to the new Pillar. Establishing a new Pillar seems to be the only hope for Cephire, but the fluffy little Mokona has been hiding the secret all along.

I was interested to see how the side characters finally revealed their hidden motivations, and when it came to the final test, they all had secrets to show. I just wish that the characters had more depth. The story is a little bare and predictable. The girls are so cute though, so I don't mind that they aren't complex.

The action panels were still so confusing, and I could never tell half of what was happening during any of the battles. But the pretty artwork in other areas of the book made up for that!

I'm glad that I read this series, because I really needed a fun and easy read for this week. It's not amazingly

life-changing literature, but it's interesting and entertaining!

Everything tied up pretty okay. I was able to predict how things were going to end. I didn't feel entertained by the battles and even the ending discoveries, but I appreciated having a solid ending for the three ladies that I grew to like so much. I'm going to continue to remember volumes 1-3 fondly, and then just those last few pages of volume 6 were worthwhile.

This Volume: 3

The entire series: 2

The second part of the Magic Knight series was an enjoyable read. I especially liked the third part because it was so funny. Though the series still kept it fast paced story progression it was much better than the first part of the series in which i just wanted to gag from all the repetitive nonsense, lack of world building, and barely any relationship progress between all the characters.

Speaking of problems, this whole part 2 had many. the first two volumes kept hammering the reader constantly with the fact that the main three females were friends. I mean, they kept repeating it over and over until I just wanted to shoot someone. Another thing, the whole tragedy that happened in the first part of the series was repeated also, even more so than the friendship aspect, i think for the first two volumes they kept mentioning it every other page. :/

Why the 2 and 3 stars then? Well, honestly because I liked it despite its many, many flaws. Does that even

make sense? It was a fun, fast manga. I thought the characters were cute and funny. I especially liked the smart girl and prince falling in love trope. Sue me. Honestly, I think it appealed to the little girl in me that adored the three besties who saved the world concept. Either way it was one of Clamps lighter mangas.

Conclusão épica do segundo volume das Guerreiras Mágicas de Rayearth, o mangá termina com muita competência toda a história criada ao longo das quase 1200 páginas (caso somadas as 6 edições) e nos mostra a verdadeira força da amizade, que é capaz de criar novos laços entre as pessoas e mudar os nossos universos particulares. O CLAMP conseguiu, isso em 1994, escrever uma história que já dialogava com temas que nos são bem contemporâneos, como a violência entre os países, a aceitação, o doar-se pelo o outro, enfim, uma obra que possui os elementos mais interessantes do Mahou Shoujo, com personagens cativantes e twists incríveis em cada final de volume.

SPOILER ALERT! We have the closest thing to a canonical polyamory in anything I ever read, and that alone should have earned it 5 stars. The second half was for more enjoyable for me than the first, due to the fact that it's much more serious but with humour and has a better pacing, which is still not perfect, but a lot of fun.

Back to the threesome, damn did I love it. It's a small little thing yet I love it so much and it alone made this a worthwhile ride. I mean it. It's not one of those two people are into one person threesomes, it's a legitimate polyamory where all three are clearly attracted and attached to each other.

Lantis makes it clear that he cares about both Eagle and Hikaru. Hikaru of course loves everyone and she shows her love for both, and Eagle's motivation is entirely built on his love for Lantis, and he clearly fell for her when she saved his life. I need all the fanfics! I'm sorry, I know I should talk about story and characters and whatnot but my mind is overtaken by this awesome OT3!
