Secret Twins for the Texan (Texas Cattleman's Club: The Impostor) Karen Booth
Six years later, his ex is back. And she's got twin secrets to spill...

What will wealthy private investigator Cole Sullivan say when he discovers the woman he left years ago is the mother of his twins? Before Dani Moore can drop the baby bomb, they share a searing kiss, confirming their explosive chemistry is far from over. But will Cole's own life-or-death secret—the one that destroyed their relationship—continue to keep them apart?

Dj says

Six years later, his ex is back. And she's got twin secrets five-year-old Cameron and Colin...What will wealthy (rancher/private investigator) Cole Sullivan say when he discovers the woman he left years ago is the mother of his twins? He decided to break it off with her after getting hurt on his job as Texas Ranger and receiving a deadly diagnosis. He didn't think she should remain with a man who could die in a week, month, year, or decade. She took his rejection to heart and left Royal for culinary fame and fortune in New York. Now she's back and before Dani Moore can tell him to stay away, they share a searing kiss instead, confirming their explosive chemistry is far from over. But will Cole's own life-or-death secret—the one that destroyed their relationship—continue to keep them apart?

Harlie Williams says

I'm such a sucker when it comes to Desire books and especially Ms. Booths. She writes about very strong women and the strong men that they still have to bring to their knees. But this story was a bit different than other Desire's. In this one, Dani doesn't have anything to prove to Cole. The black moment happened BEFORE this book. So the build-up for it to happen again never materialized. I loved that. Yes, LOVED that. I didn't have to hold my breath and pray that they would overcome anything.

Its a grown-up book about two people that are still desperately in love with each other but still had two big secrets between them that they needed to address. Personally, I thought Cole's was bigger than Dani's. Sure, sure, the typical secret babies plot is there but for me, that wasn't even a blip on my radar. Cole had some major explaining to do and I especially liked how his parents finally admitted to their treatment of Dani during that time.

While being grown-ups, Cole still had to stop the imposter. OMG!!! I've been reading the Texas Cattleman's Club books for like forever and I'm really digging The Imposter line. Its almost wrapped up and Ms. Booth's entry is spot on. Not too heavy on the suspense but I really enjoyed getting to know what is going on with Megan and her book is next.

The twins are cute but not overly. They are not the main focus of the book and Ms. Booth knows this and works with it. Cole's surprise is realistic and he doesn't hound Dani about it. I would have liked to have read about his parent's reaction to them. But I digress.

Overall, Ms. Booth has written an awesome entry into the Imposter line. After reading Ms. Rock's entry, I couldn't wait for Cole's book. I was not disappointed and I look forward to reading the conclusion in Megan's book.

Great job Ms. Booth but then again, you always do a great job.

Lynn Brooks says

Fast-paced, heartwarming and filled with super sexy chemistry! With the next book in the Texas Cattleman's Club: The Imposters series, Karen Booth brings us the story of the private investigator who has been trying to find answers on the fake Will saga. We get some additional insight into where things stand with catching Rich up in his tricks, and we get to know Cole and his ex Dani. Lots of turmoil, sweet connections and happily ever afters. Really enjoyed their story!

When Cole Sullivan hears that his ex Dani Moore is back in town, he's not sure what to think. He never stopped loving her, and only broke her heart because he was trying to protect her from the big secret that he's been hiding. Will there be any chance of a re-connection ... and even if there is, can it end any differently than before considering his future?

Dani Moore was blown away when Cole broke her heart all those years ago, and she didn't waste any time hightailing it to New York to pursue her dreams of becoming a high-end chef. She's accomplished a lot in the years that she's been gone from Royal, TX ... and she comes back with some secrets of her own ... namely a set of twins that bear a remarkable resemblance to Cole!

Cheryl says

Lots of books in this series but they keep your interest and are spellbinding. We are getting closer to finding the imposter!

Belinda says

This is our next installment of the TCC The Imposter series. Each book is so good and leads us closer to find out where Rich is and why he has done what he has done!

This book is about Cole. He is one of the PI's that Will hired.. Six years ago he sent Dani away when he got a diagnosis at the Dr that he was afraid to have anyone in his life..

Dani went to New York and was a successful chef..She also has a secret..

Fast forward 6 years and Dani has moved back to Royal. She goes to Cole to let him see what he loss...But they fall right back into each others arms.

Meanwhile there has been a sighting of "Will" out and about in Royal when he is not even there..

Not to spoil anything Cole and Dani just can't stay away from each other and they need each other so much...

The FBI and investigators find a stash house too and you will be amazed what they find hidden..

Another must read book

charmaine White says**Good ?Read**

Nice story and a good read. Mystery, thrills and suspense and just enough laughter to keep you coming back. I'll try another of her books.

Kathleen Booker says

I have read several books about the Texas Cattleman's Club and this one was just as good as the others. Dani and Cole fell in love years ago and he was going to ask her to marry him then, he had an accident and discovered he had a brain tumor that could kill him at any time so he pushed her away. She leaves Royal, TX to be a chef in NY and discovers she is pregnant she reached out to Cole but he would not respond to her so she stayed in NY for 6 years. She comes home to Royal to raise her twin boys and of course they end up back together. It works out in the end but we still have to worry about that nasty brain tumor-- let's pray that it just goes away.

CaroMommie says

This was cute, and loving, and cute :-). Cole and Dani's story was an intimate tale between two old lovers that invites joy in and asks you to sit in the chair across from them and enjoy the front row seat to their lives.

This was so well written that I didn't want to give up my seat when it was all over.

Cole is flawed, Dani has some pettiness in her, but it's all forgivable. I loved this book and their story. But...there are one or two questions left unanswered, but it didn't make me dislike the work. It just gave me hope for the next installment.

I think you will enjoy.

Michelle Padilla says

Real quick read. I have enjoyed the Texas Cattleman's Club series. You can read them as stand-alones and still get the idea of what the whole series is about. The story of Cole and Dani is one that will have you rooting for them to get back together. However, they both have secrets that the other doesn't know and will they tell each other about them?

Traci Westling says

Thrilled to read & review Karen's first TCC BOOK ! While it was her first cowboy Romance , one would never know! I was hooked literally from the get go just knowing the Dani the heroine had twin secret sons to our hot hero Cole ! Cole and Dani had a past prior to her return & both of them have secrets that they dance around in between their passionate occurrences! Naturally the plot thickens when he discovered she had twins & wonders about their biological father possibilities! This is easily a quick read between their chemistry & the secrets! I love when romances include any kind of medical issue like this one did ! Great fun, sexy & heartwarming story !
