## **Spy High Mission Six: The Annihilation Agenda A.J. Butcher**

The sixth and final installment in this thrilling series.

Bond Team have a lot on their minds. Not only are they about to get their exam results, they're also caught up in Spy High's investigations into terrorism at the Solartech power plant.

And while Lori, Jake and the others may be freaking out about the exams, their discoveries at Solartech are way more worrying. Because Bond Team have uncovered a plot that's going to make those exam results seem pretty irrelevant. In fact, it's going to make everything pretty irrelevant.

Because humanity is about to be wiped out, and there's nothing anyone can do to stop it.

Great book. It appears to have a follow-on series, but unfortunately, I haven't been able to land my hands on it.
