## That East Side Love Lucinda John

Diamond is not your typical teen. Instead of attending house parties, dating boys, and enjoying her teen years, she is forced to take care of her little sister Kay. With the help of her best friend Bobby, she turns to the streets and began to sell drugs as her source of income. Being Bobby's right hand man means that she has to bottle all the feeling she has for him and watch him love another woman the way she wished to be loved.

Zoe was the man on the block when his father Gustave ran the East. When Gustave is murdered by Bobby's uncle, Zoe is deported back to his parent's country, Haiti, to serve a prison sentence for drug and trafficking. Five years later, Zoe returns to the East to claim territory that is rightfully his. In the midst of running his father's empire, Diamond steals his heart. There is only one problem, she is affiliated with the enemy.

In this modern day Romeo and Juliet hood love story, will love conquer all, or will it cause a war?

#### **Waiting**

Hate it ended that way. I hope it doesn't take long for part 2. Can't believe Diamond played herself like that.

Diamond came out the gate having issue after issue, you really wanted her to win along with her sister. Bobby seemed like a nice guy but just not right for her, he seemed too messy and sneaky to really be with her even though he was looking out for her. The two needed to keep it on a friend's level. Zoe I wanted to not like him from the jump. He came off as heartless and no good to the bone, I think he was too focused on following in his father's footsteps to see a brighter picture. When they started their relationship I thought for sure it would be over but was hoping she didn't fall for the bull at the very least.

She had too much history with Bobby to deal with Zoe with the issues the two had. The ending is frustrating because I'm really hoping all of them fall. Who meets up like that anyway? But still it was silly to even get to that point. Of course I'll read the series out because I just can't stop with the first one of any series unless it's just plain old ridiculous but this one is actually not that bad. At times it's boring but you still want to read what's going on with Diamond and how she develops.

#### **That East Side Love**

Dang...That Haitian Love is powerful and very raw. Zoe is a murdered drug kingpin's son and loyal to the street code. Along comes an American girl that catches his eye and really opens his heart to love. And Bobby wants more than a friendship with Diamond, while chasing the next female in the city. It was Interesting to read about these characters fighting to be top dog of the Florida streets. Good storyline but I rate this 3 \*\*\* because of the spelling errors and words were dropped from sentences.

### **Good, Quick Read!**

This was actually a real good read. There were a few grammatical errors but it didn't take away from the flow of the story too much. Poor Diamond's life was hell. I was all for Bobby until Zoe showed up in the picture. I really think that Zoe is a better match for her than Bobby. Bobby was playing too many games and never really acted on his true feelings until another man came into the picture. I hope part two won't be too long of a wait because I'm anxious to see how everything plays out.

### **Enjoyed it!**

Another good read by Lucinda John! This was so good. I loved how Diamond was holding it down for her and lil sis Kay. Bobby looked out for her. They got a strong connection that Zoe can't break. Question is who's baby is it???????

## **Zaneta says**

Diamond (DeeDee) wasn't your typical prissy teenage girl. Instead, she was bleeding the block with the best of them to make things happen for her and her younger sister. Diamond handled her responsibilities as a older sister with ease until tragedy struck, leaving her family shattered. With everything that going on in Diamond's life she managed to find her self trading her cargos, her manly ways and her blocks for a chance at love not once but twice.

I really enjoyed reading this book. Lucinda really did her thing as always. Although it felt like it was too short, it was entertaining. I sat and read it in one setting. I was on pins and needles reading the last few pages and they have me amped for part two. Great Job!

### **Loved It**

She did it again. Lucinda never disappoints. Once again she gave us a read with just enough, but not too much drama. This book had a nice flow to it. There were a few mistakes but A very good read nonetheless.
