## **The Damned** Laura Thalassa

Taken. Whisked away to hell. Forever bound to a monstrous god. This is seventeen-year-old Gabrielle Fiori's fate. It's everything she's ever feared, and it has all come to pass. Only ... the devil isn't the monster she remembers. At times he seems gentle and, most unnerving of all, she's drawn to him. He wants her for all eternity, and if she gives in, everything he has to offer can be hers. The only cost? The last of her soul-and her humanity. By a twist of myth, Gabrielle finds herself back on earth from dusk to dawn. Back where the living breathe, where Andre de Leon, the king of vampires and her former soulmate, await her. Yet she can't help but feel that something's wrong. She's wrong. Her blood seeds demons and her powers can move earth and air and all manner of creation. Now angels flood the skies, gods and demons are made flesh. A battle between good and evil is erupting, and if Gabrielle wants to escape hell and save the world, she'll need to end it, once and for all.

## Jamie (The Kansan Reader) says

**If you haven't read the first four books fair warning spoilers.**

Can we give praise for Thalassa's writing? This woman almost had me fall in love with the devil. THE DEVIL for crying out loud. I felt sorry for the guy or god or whatever the heck he is.

Gabrielle was in for the battle of her life. Literally she was. She had to fight not only her head and heart but her body and soul too. She had to struggle with this power in her body that made her want to create chaos and destruction. As it is mentioned she is one of the most damned with the purest soul. She doesn't want to be queen of the Underworld, which I don't blame her. Gabrielle wants to be back with Andre.

Even though their bond is broken Andre and Gabrielle still feel everything they had before Gabrielle past. It made me love them more. Also again with praise to Thalassa because I was fighting myself on who I wanted Gabrielle to be with. If that doesn't make you want to pick up this series then I don't know what will. I was seriously starting to doubt the ship between Andre and Gabrielle should stay.

Finally the devil started showing his true colors again and my train to Asiri and Gabrielle stopped right there. Thankfully. The ship between Andre and Gabrielle stayed strong. That's a true ship there. Even in the moment of doubt it comes back strong.

One of my main questions that probably won't ever be answered is when the Devil punishes a demon to death, does the demon come back or is he truly dead? Just wondering.

This book like the last book did a dual P.O.V. I hate that this series ended but I'm happy too. Bittersweet endings all good series are. The only thing that I can say that is bad about this series is that there were a lot of grammatical errors throughout the series. But that is really the only bad thing I can say about the series.

Probably my favorite book in the series and I totally have some new Bargainer series theories now!

#### . . . . Persephone is my favorite

OK, so now that I'm done with the books I'll be honest: I hate controlling "for your own good" types. Can't fucking stand them. If the person in question isn't incapacitated or a toddler, then fuck the fuuuuuuuuck off.

I hate Andres. I wanted him dead, turned to dust, and roasting in hell for an eternity. I'm not even a little sorry for feeling that way either.

(Caleb getting offed would've been nice too)

Oliver was the literal sparkle of the series, Leanne didn't get enough screen time, and I'm slightly miffed that Asiri didn't actually get redeemed.

Apparently controlling assholes who ~\*only want what's BEST for you\*~ are prime relationship material, but only if they're guilt-ridden when their partner is in the same room or if they give up their goals and interests in life because they met a sixteen year old girl.

It's a very fine line, because that same combination without the magical bond that existed without consent is apparently a fate worse than death.

Who fucking knew.

FUCK Andres.

I didn't hate this. It dragged on a bit and the romance side is sappier and less graphic than I prefer it, but overall it was a good conclusion to this guilty-pleasure, beach-read supernatural series. I probably wouldn't have read this at all if it weren't for Kindle Unlimited, and it don't find myself leaning towards recommending this, but if you are on KU, you could do worse.

This book had some interesting twists, though the overall ending was quite predictable; but the main problem I have is that the characters are really boring. They are supposed to be interesting because they are supernatural, but they are a little one-dimensional so you constantly know what to expect from each and every one of them.

Also, the dialogue is a bit blah, with the exception of Oliver who is way over the top and that gets old as well (though he is the most entertain character, without a doubt).

Overall, ok read if you need something light, but nothing to write home about.

Damn that was so good! I'm sad the series is over! I sure hope to see some of these characters in The Bargainer series!

The story was really good! I actually started to read it after I got my hands on Rhapsodic and while Gabrielle irritated the bejesus out of me, I kept reading as I just NEEDED to know what will happen.

Some Spoilers might follow:

Those hints that the devil is not all bad, well I'm a sucker for that kind of romance. The only thing is that the story stopped making sense at some point. Why did Gabrielle love Andre so much? My answer is because she found out about the bond with him first and had to love him, but that's it. She found him overbearing, cruel, but oh my god so gorgeous, so she just had to love him?!

On the other hand we have the devil...Asiri...who actually was able of righting every wrong he's done, loving her as only a god can and so much more. And this doesn't hold a flame to her thing...ahem...love, she called it?...for Andre?!?!? Come on!

It is only my opinion, but I was really rooting for Asiri and feel that this future Gabrielle saw with him at the end, would have been a much more wonderful finish of that story. Instead I got a trapped imprisoned devil damned to be alone and lose every ounce of good left in him, and a run-of-the-mill they-lived-happily-ever-after. I'm just sad and disappointed!

### **Angela McPherson says**

I've no idea how other to explain this book than anxiety-ridden. Yes, anxiety-ridden is the best term for The Damned.

There's something sinfully delicious when falling for the bad guy, and Satan, The Devil, Pluto, Hades, Asiri is the epitome of evil. The thing is, I found myself leaning toward him a few times. I admit, a tiny part of me wanted Gabrielle and the Devil to share a happy moment, and yes, I felt so terrible afterward thinking it.

"The devil wasn't supposed to have a caring side. He was sadness and despair and loneliness and anger and violence and—"

"I am everything and nothing," he continued. But know this Gabrielle: I am not the devil. Not with you."

See what I mean! Oh, man I didn't think I'd be able to read the entire book without indulging in a glass—okay, bottle—of wine! He's caused Gabrielle and Andre grief from day one, though while he had Gabrielle trapped in hell, Pluto changed.

However, as the myth goes, Gabrielle can leave Hell and return to Earth. Return to Andre, her true soulmate and love of her life. Their affections for one another never wavers, if anything, their bond is strengthened.

"He tasted like I remembered—like home."

So all was right in the world for like, a second. Oliver and Leann turn up and save the day, duh. ;) Oliver, oh how I missed the smart-mouthed fairy. His one-liners had me rolling! Leann is a great seer and leads them from ambush after another.

Gabrielle is kick ass in this book! She's strong and bold and refuses to back down or shy away from what she wants: a life with Andre and her ties free from the Devil for good. Action from page one and the nonstop excitement never slows for a second.

At the end of a series I'm always left feeling something was missing, but not the case with The Damned. Laura Thalassa did a fantastic job writing the final book in The Unearthly Series.

Bea Miller's Dracula, among others, totally made me think of The Damned!

### 4.5 stars

A female God, two soulmates, three living fates and a upcoming apocalypse. Angels, demons, supernaturals and humans fighting against their destiny.

I loved this series, it was an entertaining, fast and *almost light* read. I am looking forward to read other books written by Laura Thalassa.

This series is one of the best I've ever read. Everything was well thought out and written beautifully. The characters developed immensely during the series. And once again, I have to say that I love Oliver. He was definitely my favorite of the characters.

This is easily one of my favorite series. :D

## **Ari Reavis says**

What a perfect ending to this series. I was on the edge of my seat most of the story. Gabrielle and Andre kicked butt and didn't even take names, as usual. Oliver and Leanne continued being the devoted and hilarious friends they've been throughout the series. There were times that I didn't see how it could have a happy ending, but my heart just wouldn't lose hope and it paid off. Love prevailed and I loveddd the epilogue. I am thoroughly satisfied.

## **The Book Whisperers says**

That Awkward Moment-

When a series you're reading makes you question your own morality.

The Unearthly

This series by Laura Thalassa was a throw away read for me. One of those books you pick up for free and think "hmm I don't know could be good could be really bad but it's free so I'll give it a shot". Well I'm happy to report that it was not bad. It was actually a pretty good read. The author does a great job of weaving myth in with present day. The characters aren't as three dimensional as a C.S. Lewis or Tolkien book but she makes up for it with loads of humor and edge of your seat action.

The premise of the series is the 16 year old main character Gabrielle Fiori (thank you for not giving us weird, hard to pronounce names) who is accepted to an exclusive boarding school on the Isle of Man in the British Isles. Once there she learns that she's some sort of supernatural and during the awakening it's discovered she's half vampire and half siren and all the way damned. Yes she's damned from the start especially when she discovers that she has a soulmate who is the biggest, baddest, scariest, dude in the entire supernatural community, think Godfather. Oh but what's a young adult book series without an epic love triangle! This one has one so epic it's literally hellish as in the Devil is her other soulmate. You read that correctly Laura Thalassa broke the rules and gave this girl two soulmates. If you're not feeling sorry for Gabrielle Fiori yet then you are made of stone my readers!!

Gabrielle faces off against some pretty scary bad guys but never alone. She has her Seer friend and roommate Leanne and BBF (Best Bitches Forever) Oliver the gay fairy. Yes he's a gay fairy and you will LOVE him! As expected Oliver provides most of the humor in this series that spans five books and his jokes usually come at the expense of Gabrielle and Leanne (again thank you for not giving them weird, unpronounceable names).

Laura does a great job of painting the devil as the true father of lies, the deceiver, and it's not until book five that you really start to question everything you thought you knew about him. I was so torn by book five I wasn't sure if I was rooting for the Devil to win Gabrielle's heart or her other soulmate Andrea de Leon. I wasn't unhappy with how the story ended but I've come to realize I will always be the girl that hopes Dracula wins in the end. Not sure what that says about my own morality but whether you pull for the Devil or Andre you'll love reading all about their struggles and triumphs in this series.

What a great series! I loved these books! What a unique storyline - The "last" siren on earth soulmated to the devil and a 700 year old vampire king. Lots of action as the devil pursues his Persephone. Great cast of friends a very fairy Fairy, a seer and shifter. Couldn't stop reading til I devoured them all. Nice ending too.

Highly recommend!
