A sensual "quickie" about a hot night of naughty paddling - (Approx. 4250 words) Perfect for mobile eReaders - have access to a quickie whenever you need a fix.

Amy calls Brad her Master. In his house she becomes Feral, his willing sex slave. Brad is falling for the beautiful redhead and has only her pleasure in mind the night he brings out the paddle. After an erotic night of naughty pleasure, Brad expresses his true feelings in the bedroom. Amy opens her heart to him, unaware that an old flame has returned to rip their world apart.

Amy never thought she would enjoy being submissive to Brad, but the man knows just how to please her. After a chance meeting with her almost-lover Troy, Brad is shaken enough to express his true feelings for Amy in a night of deep passion. She assumes Troy has moved on and decides to start a life with Brad. Her budding relationship is threatened the day Troy returns for her with his arms wide open.

Excerpt from The Flame:

Brad played with her long red hair murmuring, "My beautiful Feral." He grasped the back of her neck and kissed her deeply. The look he gave her at the end of the kiss was ripe with tenderness. Brad escorted her to The Room and asked her to strip down while he retrieved something from the kitchen. Amy stood in the secret room naked and alone. She looked at the wall of sex toys and wondered what tonight's entertainment would be.

Brad returned with a single chair and placed it next to her. "I need you to get the paddle off the wall." Amy's insides churned. Was he going to punish her for what happened earlier with Troy? She took it down slowly, her hand trembling as she walked back to him.

When she returned to his side, Brad was already wearing his leather mask and had other items laid out for her. She handed the paddle over saying softly, "Don't hurt me, Master."

Brad's green eyes stared at her from behind the dark mask. "I will do what I want, Feral." She was relieved when he smiled and added, "But I promise you will like it."

This story was ok, poor Brad got left in the end. Amy doesn't seem to know what exactly she wants, so I am unsure if I like her character at all. Since this is a short story, I can understand the under development of her character. I hope to read more from this author to get a better feel of his/ her writing style:-)

This is my second book by this author, and after having read this quickie, I think I'm going to have to go back and download all the Sensual Erotica chapters so I can get the full story. These aren't really quickies. They are chapters, and this one leaves you hanging. This is a light-on-the-BDSM and heavy-on-the-erotica story. I found the dominant Brad very compelling, and I think Amy's crazy to throw that away for Troy over what amounts to a really good case of 'the grass is always greener...' syndrome. (Sounds like a soap opera for the fetishly-inclined.) I was so engrossed in the story, I only saw one mistake. But for me, it's a major one and that's why I gave this 4 out of 5 stars. When one scene ends and another begins, they need to be separated out (a series of \* \* \* do well for this purpose). Not just for ease of reading, but because it jolts the reader from the story when there is no visual aid to let them know the one scene (which was flowing so well) had come to an end and now, suddenly, several days have passed and our characters are somewhere else, doing something different.

This small, niggling point aside, the story did what it was meant to: My appetite has been whetted for more by this author and from these characters. I thoroughly enjoyed the seduction of the tale, I very much want to download the rest of the story's 'quickies', and I am probably going to end up being a Red Phoenix fan for life. I can definitely recommend this series for those who enjoy a little fetish with their erotica.

A twist-filled little short erotica piece that is well-composed and deliciously kinky. "The Flame" is not at all what you might expect, and whets the reader's appetite for more from author Red Phoenix. Think BDSM with an actual plot, a pinch of romance, and a fine coating of sensuality!

Ok, again. Hello Master Anderson! Or Master Brad or just Master works for me too. He can call me Feral or anything he wants. Lol! Yummy!!

I've probably said this already but I swear as I read each installment, they just keep getting hotter and hotter and who thought that could happen?

This next quickie is all about Amy and her Master...\*insert swoon\* He teaches her new things and brings her to new heights and I'm sad, because I know they don't end up together. Hence the title of the book. Lol! But I'm totally enjoying Amy and Troy's journey back to each other and I love each little quickie more and more.

Finally, we get to see Troy and Amy together...I feel bad for Brad but I think Amy needs to explore what possibilities lie within a relationship with Troy before she can ever truly move on...I enjoyed every part of this book.

*The Flame* is a short story about a girl, Amy and Master, Brad. They have a Master/slave relationship and he loves her. Troy, an old friend comes back into her life and she makes a difficult choice between the two men. The writing is excellent but the plot is about an immature girl that comes across as not knowing what she wants.
