### It just keeps getting better

This series gets better with each book.

There are no bad points to raise, its a phenomenal tale that takes the reader on a fast paced, funny as hell, dramatic journey.

### That should be 4 1/2 stars...OK, 4 3/4

In the last 3 days, I have read the first 6 books in this series. I am a voracious reader, so I will definitely be chewing my way thru the rest of the series, and chasing it with a tall Dr Pepper...no ice. No petrified H2O here.

Actually, my first introduction to this series was the short story "You Do Not Mess With John's Cousin". I'm not sure why it took me so long to get started on the rest of the series....but better late than never.

What do I like best...

I like that there are PEOPLE! Not just characters.

I like that sometimes the people have the same names. It happens in real life, why NOT in a book?

I LOVED the "Billings, meet Billings" scene

The only reason I didn't go for a full 5 stars? It wasn't for the cussin'....I grew up with 'worse'. Certainly what I heard every day was less original!

No, I just felt I should leave some room for growth....

Looking forward to whatever comes next! I

I was a bit worried about the "Europe is erupting is tension and violence." statement in the book blurb. It almost sounded like the story was going to turn into some kind of apocalypse story.

Luckily the book blurb was a bit exaggerated. The events were more or less just another terrorist attack. Apparently a rather bloody one but still. Not exactly "Europe erupting in violence". To me that was a good thing. I am not too fond of apocalypse stories.

Bethany Anne as well as her bitches continues to kick ass. All of them are working towards Bethany's modest goal of saving the world. In the process they are of course slaying Nosferatu's and bad guys with great enthusiasm and a healthy dose of innovative politically incorrect language.

At the same time they are working on expanding their understanding and inventory of alien technology. It is

almost as fun to read these parts as it is reading about Bethany Anne's ass-kicking, although it is not exactly hard core science fiction. Actually it is more fiction and less science.

In contrast to the fast paced action the main story arc is moving forward in a more leisurely pace. It is just the right pace for me though. Bethany Anne and her people are evolving, the plot is evolving, the save the world part of the story is evolving etc...

I really do not want to go into details out of fear of spoiling things too much but one of Bethany Anne's projects for technology development interacts with Bethany herself in a slightly unexpected way. This gives the author the opportunity to drop somewhat of a Tsar Bomba, at least for Bethany Anne, at the end of the book. Luckily the next books are already published otherwise I would have called it cruelty towards the readers.

Bottom line, great book and as enjoyable as the other ones in the series have been.

The most exciting, action-packed book so far. Had a great battle between the good vamps and weres against the zombie like vamps. Really a fun read. Still easy to recommend this series to paranormal and sci-fi fans.

### **Yvonne says**

Massive adventure story with a cast of what seems like thousands and fun to read craziness.

**Awesome.. Need more.**

When I started this series I never realised the impact it would have on me. I honestly read the first one because of my prime membership where you get a free book a month. It sounded good. What I didn't know was how good.

I love the paranormal. I love vampires and werewolves. There are no sex scenes. There is however lots and lots of action. The swearing is to die for. The characters are very realistic. It won't be the best book you've ever read but the storyline is out of this world literally.

This book deals with David one of Michael's children. He is a serious douche bag. He has no remorse killing and using humans as cattle. He wants to enslave the humans and rule the world according to him.

BA and the TBQ's are out to save the planet. They have just leased an old air force base in Colorado. BA has a third voice in her head. Takes arguing with yourself to a whole new level.

As I said, this isn't the best literature you'll ever read. But it's one of the best stories I've ever read. It keeps you hooked and coming back for more. Extra nice they are all on Kindle unlimited. Enjoy!

The problem with writing a review for this book, or the other previous books, is that one gives so much away by even mentioning a name. These books now have a few more subplots - some I care about others I don't. I do have a new favorite character, Gabriella. Ok, Gabriella and Bethany Ann and Stephen. Also, normally I wouldn't be so interested in characters who seem so omnipotent, but here I am.

I am continuing to think the book has too many characters, but oh well, I am racing off to get obtain #7 and get my fix.

AMAZING SERIES! LOVE IT! SUPERB NARRATION BY EMILY BERESFORD!

Wow this series is absolutely amazing, fun, fast paced and exciting. If you haven't started it, just do it.

So much action, dialogue, fantastic characters and story lines. This series has sucked me in and can't wait for the next one. I know they are coming out as fast as possible which is a bonus! No waiting a year for the next book like some series.

Michael Anderle has built a fascinating world here. I just love everything that keeps going on and progressing. The great thing too is he doesn't leave them as cliffhangers. They end and you can move forward or you can just stop. I don't recommend stopping at all!

I absolutely love listening to the narrators notes and the authors notes at the end of each book. Such a treat to actually hear their thoughts and appreciate that they take the time to do it.

As for the narration, it is wonderful! Emily Beresford does such a fantastic job bringing these characters to life! Everyone gets their own distinct voice and she read with emotion.

Thank you @emily\_beresford

Hmm, so I may have been too hard on these books/series. I found out that these books are more of a serial and are written in less than 30 days. So for starts I usually hate serials so with that said I don't hate this book/series so that is a good start. For books that are written in less than 30 days these are pretty good. I still having problems rating them more than 3 stars but I will have to go back and update my other reviews.

update

Okay so now that I found out these books are really a serial and written in less than 30 days I will have to bump them up by one full star, even tho I am not really into serial type books.

### **Back to amazing!**

Aside from two rather heinous errors; the first being that Gabrielle's name was spelled three different ways in one paragraph (which I blame on software) and the second being that a vampire as old as Stephen would not speak using modern vernacular, especially in the heat of battle (dangling participles) this was definitely a five star read.

So much was accomplished, so much was outlined for future novels, so many characters had huge accomplishments (At least for them) that this book brought me completely into their world. I laughed out loud at certain parts and i was generally concerned at others.

Have you ever noticed that whenever you see a Paul in a book or film, he's usually either a douche or he dies rather quickly? I'm a Paul and i notice it constantly. Just an observation.

Congratulations Mr Anderle on another great read!

If you ever need specifics on police or corrections, feel free to contact me. I've got over twenty years in with both. I don't offer my services lightly, but I'm a fan and would hate to see a scene derailed by something that can be fixed easily.

These books can't come fast enough to Audible for me. They are truly fantastic. I absolutely love Bethany Anne. Between her kick-assness and her serious potty mouth she's just awesome. She puts the funniest and craziest swear words together.

One reviewer on Amazon, or was it two? Anyway, they mentioned they didn't understand why Michael Anderle wrote these books in a matter of weeks? Really? If I could put out books that fast that were selling 1000 books or more each I would certainly be writing them that fast. AND I would be so proud of myself for being able to do that. Jeez, most authors can only put out a book a year. Several a year is incredible, IMO. This book was published one month before the next one and the next one has 501 pages, so it's not like he's writing short stories. He's a very talented author.

And, every book is just as excited as the last one. The battles with the Nosferatu, zombie-like creatures, are always so incredible...and bloody. And this time instead of waiting for the three hundred Nosferatu to come after them a very pissed off Bethany Anne attacked them. It was one great battle. And her anger at David is really growing, since he planned this trap with the creatures. She really wants David dead, as does Michael and Stephen.

I do love the conversations Bethany Anne has with TOM (Thales Of Miltus), the alien computer in her head and now, at the end of this book, there's another surprise for her. It was just awesome.

Even though these aren't really cliffhangers I can tell you that you can't just pick a book somewhere in the middle and read it and expect to know who anyone is. There are a lot of wonderful characters in these books and they enter in the first, second, third or whatever book, and are still in this book.

There's no sex in these books. The F-bomb is used 75 times, along with other awesome swearwords.

As to the narration: Emily Beresford is doing a phenomenal job. I mean, you'd expect her female voices to be good but her male voices are incredible. If the book didn't say "Lance said" or "Bobcat said" or "John said" you'd already know who said it without being told because the voice is so identifiable. And their voices remain the same in each and every book.

### **I can't stop!**

Cheesy speeches, pretentious vampires and slightly ditzy females. Ugh! Why do I keep reading this series? I want to know what Bethany Anne plans to do to continue her quest to save the world, by way of eradicating bad vampires.

I've been wondering what it was that bugged me most about these books. The scenes with women expressing their feelings of problems are too brief compared to the vast amount of computer science discussions and chest bumping bravado of the military and Were males. All relationship problems involving women do not end with tears, hugs, a marriage proposal, chocolate, shoes or going shopping!

Whatever happened with that bombshell a couple books back, that Bethany Anne could still have a menstrual cycle? For those of us with them, it is no small part of our lives during our reproductive years. It's not something that only affects us once every few years.

I feel like these books could have been divided into two different series. One dealing with the supernatural and another being strictly sci fi.

All of that negative stuff aside, I'm giving you five stars for a compelling story with a ton of research and effort. Your output speed is impressive. I really enjoy your candid notes at the end of each book. Oh, and the swearing is so hysterical and creative that I'll be passing these books along to my older teenage sons.

I'd like to hear more about Ashur, since we know he's not just a dog anymore. I'm enjoying your books the way I enjoyed Claire Farrell's all encompassing supernatural world of Ava Delaney. I'll be moving on to the next book now.
