Women respond to a man's testosterone without any thought... Tainted by bad memories of past betrayal, Mary Wickes knows getting involved with SWAT team member Dace "Hard Man" Banovic would be a big mistake. Yet working with him for six months at the sheriff's department has proven that her hormones don't care what she thinks--only what she wants. Men respond to a woman's softness without any thought... Dace is puzzled by Mary's avoidance tactics, and although he's tried to ignore the powerful attraction he feels for her, he can't help wanting to learn everything about the woman he's desired for months. When danger comes, sometimes it takes a special man and woman to see it through to the end... When a hostage situation forces them to confront their fears, Mary and Dace must find the courage to face the feelings they've tried so hard to deny.

Sandra Patiño says

Qué lástima, me decepcionó mucho la historia, muy simple y predecible, ya no seguiré la serie.

Rachel Costa says

A cute, short read. The characters seemed a little wooden at times, and the hero was just a little too gushy for my taste, but it wasn't bad.

diana marcela Ballestas says

Although I liked the story line, the characters felt lacked strength. I did not get a real connection. I felt that the story was "clipped" leaving too many gaps.

Michelle says

I love all of Denise A. Agnew's books and this one is no different. I just love how she develops all of her characters. Just ahhh!! Love. Sexual content warning.
