## Baumgartners Empty Nest Selena Kitt

For the first time in years, Carrie Baumgartner doesn't have any chicks in the nest—all the fledglings have flown the coop and she's finally got her sexy, energetic husband all to herself! Doc suggests they take advantage of this newfound freedom, and his adventurous wife has no objections. She intends to enjoy their little nest, preferably in every room, in every position they can possibly imagine.

But an empty house has its echoes, and while Doc buys a new muscle car and considers retiring from his practice to mark his mid-life crisis, his wife experiences a much deeper quandry. Carrie has been in communication with someone from her past, and their relationship has blossomed into something no one expected. Things with Jody are so intense, it scares her a little, and even her usually open-minded husband has his reservations.

When Carrie and Doc go on a hot, fun-in-the-sun vacation to their Florida Keys timeshare, couple time is interrupted by a very sexy, but distraught third. Jody's in trouble and has nowhere else to turn. Of course, the Baumgartners offer their assistance—and even their bed. But this is the kind of threesome the polyamorous couple could never have imagined, even in their wildest fantasies, and it's about to turn everything upside down.

*If you thought the Baumgartners were uninhibited before, you're about to see what it's like when they really let their freak-flag fly. Join them down where it's hot, moist and humid—and where the surprises sometimes come faster than they do!*

WOW. Just wow. Carrie and Doc are alone for the first time in a long while. Kids are grown and so they take a fun ride to Key West, but pick up Jody (an old friend of Carrie's) while she's looking to escape.

After Carrie & Jody reconnect after years of being apart, inviting her into her marriage comes with complications, complications that Carrie isn't sure how to bring up to Doc. But Doc, who sees through Carrie - invites Jody in with open arms - turning this taboo read into an experience that I didn't see coming.

Another hot installment of this series. Seriously. This is erotica at it's best. I can't get enough.

I received a free copy in exchange for an honest review.

I absolutely love this series. They are all short reads that don't take up too much of your time but they sure pack some heat and get the motor running.

Once again we catch up with Carrie and Doc Baumgartner and get a peek into their very interesting life. Carrie and Doc are facing a new change in their life. Their children have all grown up and the last one, Henry, is about to get married. This gets Carrie emotional, as it would do for any mother when their baby grows up and leaves the nest for good.

Doc then sets about trying to cheer Carrie up with letting her know of all the things they can now do that they couldn't do before when the children were still home. Some of the things they get up to can make you wish your kids were flying the coop.

Selena does it again with another visit to the Baumgartners. It's hard to say with all they have done, but I was a little shocked. The kids are grown and have moved out. Carrie has hooked up with an old friend online, but is keeping part of the affair secret from Doc. What would possibly make Carrie lie to Doc, even if it's only by omission? Doc isn't so innocent when it comes to hiding things either. What is he not telling Carrie? Jodie is amazing, but she has a history and past as well. Will it all work out? Well, it is the Baumgartner's, so you know the adventure will be full of some amazingly hot scenes. A must read if you've read any of the previous books.

The Baumgartners are at it again! Selena Kitt, you wonderfully wicked and brilliant woman! I loved this read. I've followed the journey of Doc and Carrie from their steamy start in college and wasn't disappointed

at their latest journey. With the last duckling officially moving on with their life, Doc and Carrie are facing a midlife crisis of sorts.

Everything is changing and yet is still the same...kind of. The past has come calling for Carrie via social media and has shaken up her whole life. Doc on the other hand is ready to enjoy the fruits of their labors so to speak. He's worked hard and wants nothing more than to enjoy his life and his wife. Even after all these years these two are hot for each other. I'd say get a room, but with them...it's not necessary.

Selena allows Doc to shine in this read. He is hot, sexy and loving. He made me swoon and pant all at the same time. Who the hell doesn't want a Doc of their own. That being said...I never saw the twist in this story coming. I shouldn't be surprised, Selena loves to make you stop and say "WTF". I will admit to rereading a couple of passages in order to understand what I'd read.

No spoilers here though! I loved this addition to the Baumgartner legacy. It was familiar and yet fresh. The perfect summer read to make you hot and horny. Go ahead and one-click it!

Doc and Carrie's sexcapades continue, and if you have read any of the previous Baumgartner books you know how HOT they get. This story does NOT disappoint at all.

Carrie is feeling out of sorts since the kids are all gone and starting families of their own. Jody and Carrie had been friends when they were teenagers living in the same foster home, but they lost contact for a while and have recently reconnected and things are getting pretty serious between the two. They have lots of skype sex and there's more to it than Doc even knows. Doc seems to be going through his own midlife crisis which means ROAD TRIP!!!

Key West is a place where they can let their "Freak-Flag Fly" and boy do they during this trip. Carrie, Doc and Jody have an interesting time together...and by interesting I mean HOT!

A new phase in life doesn't mean it has to be boring...

Carrie and Doc Baumgartner are moving into another phase of their lives. They have raised their children, are now grandparents even, and are exploring what to do next. Good investments plus Doc's partner retiring opens up options they never considered. Carrie reconnecting with a childhood friend is also adding to the dilemma of what to do. Jody was part of Carrie's past but over the last months has become more than just a friend despite their long distance connection. With so many choices, what is the right decision?

I've read all the books in this series and was really looking forward to this new installment. Carrie and Doc, their whole families really, have been loving and totally open to sexual experiences. What I love about this series is that there are real stories and people behind the hot sexual encounters that happen. And there are always sexy scenes as the author is an expert at building, and delivering, on the sexual tension. Carrie and Doc love each other and have always been supportive of each others needs in and out of the bedroom. As

they face making decisions about their future they face it together despite even Carrie's reluctance to share all the details surrounding Jody. Great dialogue, an intriguing story and all the sexiness I've come to expect makes this one of my favourites in this series.

**\*\*Thank you to the author for providing this book for review.**

### **Jeannie Christo says**

I have read a ton of Selena Kitt's book. I honestly haven't ever been disappointed and Empty Nest is just another story to add to the books that I've thoroughly enjoyed.

I really appreciated the development of these characters. Carrie and Doc have grown throughout the books. It is also refreshing to see an older couple enjoying their lives and the next stages that come with children growing and leaving the nest. One can only read about 20-30 something billionaires for so long. Carrie and Doc have stayed true to themselves and live their lives the way they see fit. Introduce Carrie's friend Jody from the past and some very interest twist start to unfold.

I love that these three can start new adventures filled with love, romance, and very hot steamy sex. I was pleasantly surprised at the turns this story took.

As always, I will continue to read any Selena Kitt book that I can get my hands on.

I received a complimentary copy of the book from the author in exchange for an honest review.

I have not previously read any of Selena Kitt's Baumgartner series, and found Empty Nest to be interesting. I loved that Carrie and Doc Baumgartner are older with grown children. It is refreshing to read a sexy story about people who are no longer in their 20's or 30's. The idea of rekindling the intimacy and adventurousness of your marriage is a great premise for an erotic story.

Carrie's and Doc's explorations involve a friend of Carrie's--Jody. Jody is a wild one who is not only an old friend of Carrie but also a love interest who doesn't mind sharing Doc with Carrie. Their sexcapades take up much of the book.

NC-17 content and language; for mature readers only.

I received a copy of this book in exchange for an honest review.

Typically I have enjoyed the books in this series, however I was a tad disappointed in this installment. I wouldn't exactly say the book was poorly written, but I found reading it to be a little boring and far fetched at times. Usually I can get into the books in this series and it just wasn't the case with this one. I was disappointed in this one. :-(

Carrie and Doc are going through what all parents do when the youngsters have grown up, tried their wings and left the nest. Carrie is having trouble accepting that the nest is empty. Other changes are on hand as Doc's partner wants to retire and leave the partnership and even get rid of the time share in Key West. But good fortune smiles on some investments that their accountant has made for them and Carrie may have found someone to help fill that empty nest. Will they be able to overcome some obstacles in their way and will they be willing to accept the changes that must occur in their lives. An excellent continuation of the Baumgartner saga. Well written and the new characters fit in perfectly.

★★★★

Doc and Carrie have always been adventurous . Now the last of their children is about to get married and Carrie is feeling blue. So it's Doc's job to show her all the things they can do now, that they couldn't before. Over the years of their marriage they have often added another woman to their love lives. Carrie has reconnected with Jody , who was in foster care with her. Jody lives the other end of the country, so it has only been on the phone and Skype but that can be great fun.

Then Doc declares a holiday, A chance to meet up with Jody. There are quite a few secrets to be revealed and lots of excitement both in and out of the bedroom.

A very sexy story for adults only. Strong language and some unusual sex scenes.

## **Cilicia White says**

This is a new story in the awesome Baumgartners series and we are back with our favorite couple, Doc and Carrie. Carrie has a secret and doesn't know how to tell Doc no it's not that she has a new lover he knows this no it's a bigger secret. Doc knows Carrie is hiding something but he doesn't know what. Now that the kids are gone Doc decided to take Carrie on different road trips but one trip will change their lives forever. When Jody, Carrie's new love and someone from her past needs help Doc will do anything to protect that woman. What will Doc do when he learns their secret. This book teaches us not to judge a book by its cover. We still know that this couple still can't keep their hands off each other and the sex scenes are hotter than ever and when Jody joins in the chemistry and heat are off the charts...

I was given a copy of this book for an honest review....

Carrie and Doc Baumgartner each seem to be experiencing a mid-life crisis. While he buys a muscle car and wants to start traveling, hers is a bit more emotional. When she reconnects with Jody, an old high school friend, emotions go deeper than she expected. Unfortunately, there's more to this relationship than she thinks Doc is willing to accept. When events have them meeting Jody sooner than intended, time will tell. So, this is actually my first time reading a Baumgartner book. I'm not really into this form of ménage. However, I really love Selena Kitt's writing style so I thought I'd give it a try. While not all of it was for me, I found it to be as well written as her other books I've read. It's very hot and easy to see the feelings these characters have for each other.

## **Racy says**

If you have never read any of Selena Kitt's books then you are truly missing out. She is an amazing author who writes hot and steamy stories that will leave you very hot and bothered and needing a very cold shower. This book is no exception.

I think this book really brought out the character of "Doc" (Steven Baumgartner). He is such an amazing guy and this book showed how amazing he truly is. Though his wife Carrie lied and deceived him, he took it well. He knew she was just nervous and trying to figure out a way to tell him about the secret that she is keeping. Doc shows courage, wisdom and strength in this book. A true white knight, so the speak.

Carrie is feeling a little sad. Though her daughter is married the thought of her son (the baby) getting married just does something to Carrie. Carrie is having a hard time excepting the fact of losing her baby. Doc her wonderful husband plans to show her what they can do now that the kids are going to be married off. He wants to make his wife smile and show her this change is a good thing and not a bad thing.

Carrie had been without a woman for a while. Her and Doc had always had someone to share in their marriage. That is just the kind of people they were. When Carrie had met Jody online, she started having

some pretty strong feelings for Jody. Carrie felt uneasy to share everything about Jody with Doc.

This story will take you on one of the Baumgartner's adventures. If you have read any of this series then you know how fun their adventures can be.
