When Ellen and Peter walk into the bar where Ellen books live music acts, neither is sure that they'll still be together by the end of the night. Five years of marriage has dulled their attraction to each other, and the musicians Ellen works with are more than happy to appreciate her.

But when Ellen stumbles upon the drummer having sex with his girlfriend, she can't turn away from a scene that reminds her of the way she and Peter used to be. By the time she goes back in the bar, she's ready to jump anyone.

Peter isn't going to give up so easily. He knows Ellen, and when he sees how hot she is, he recognizes his chance to prove that he still wants her. And when they get started, the clothes come off and the belt goes wild, no matter who might walk to the back of the bar and find them.

This was a fun little short with lots of build up.  
I recommend this story to people who have fallen behind on their reading goal.

### **Sexy...**

And fun. These two have to decide if it's worth getting caught or not. I needed more descriptions of these two but it worked for now. I think I will try more by this author.

This was an interesting book about a relationship gone stale. As a married woman (25 years) I can relate, therefore, I found the book entertaining. Long story (actually very short story) short (shorter!) Married couple ... she is a promotion-er for night clubs.. husband is a tag-along (I get the jest he is not real happy with her job). She takes him to a club opening and he sees the attention she gets from other men. Kind of opens his eyes to his desirable wife. Meantime, she catches a "private" show, which turns her on. Because hubby is now in-tune to his wife, he notices. They have "scorchin'" hot sex in a "possibly we are gonna get caught" environment. They do!~ adds to the experience. And hopefully they live hot and bothered ever-after!

### **Temptation**

Their marriage of 5 years is on the brink of collapsing until Ellen watches a couple in the back of a van about to have sex. Now her husband is in the bar and she is getting aches that need to be released. When her band is about to perform her husband, Peter runs into her and he sees that she is getting hot under the collar and he takes her under his control. In comes bondage and lots of sex in places that aren't in the bed. But Peter has to leave for work to a computer game convention. Someone from his past is there and she wants to revisit their weekend fling after 10 or so years. I thought he would head into temptation but he didn't. Same when Ellen has someone from her recent past comes back and he has feelings for him but she doesn't head towards her temptation. But what about next time for this two married couple when someone they felt feelings for....

Short and to the point. Just another example of how hot kinky sex can do wonders to save a marriage. If you don't try it with your spouse then you will never know what wild crazy stuff y'all are capable of! This story proves that in a cute fun way!

Short quick erotica read... Interesting & well written

### **N.N. Light says**

I loved the premise of this book but I found the characters very one-dimensional and the plot invisible. Sure, it's super-hot with lots of sex but nothing other than that.

Note: I read the re-release called "Hot Husband".

My Rating: 3 stars

This isn't long, but it's a cute and sexy little story about a couple who gets kinky in a bar. I love sneaky fun and spanking anytime.

Very short story of Ellen & Peter. Story continues on. Sex is hot.

I loaded a bunch of books on my Kindle, for the simple fact that they were free. I can understand why. The ones I gave a one star to, had really no plot. Some had bad grammar usage, and I am glad I didn't waste actual money on.

A relationship can be hard if you don't put your mind to it. We can get caught in doing our own thing and forget about the other person. Marriage takes work.

Picked this up for free today. This is how you do a short erotic story. It was quick (30 some pages), but it punched all the right buttons. I'm always looking for arousing and easy to read. This quickie did a fabulous job of entertaining me
