Fast Love Blue Sky Books

Nathan Hart is a wealthy, handsome sports car mogul whose ex-girlfriend--a shallow, materialistic car show model who left him for an older man--is back in town and looking to get back in his good graces.

Reluctant to give the vixenish heart breaker another chance at his affections, the chagrined billionaire employs his executive assistant, the spirited and no nonsense Chere Vanity, to pose as his new girlfriend--their at first comical charade leading to a real life romance.

A spirited BBW with an iron clad attitude, Chere values both her job as well as her longstanding friendship with Nathan Hart. Yet she refuses to be used as a toy or a token by her dashing playboy boss; demanding that he reveal his true feelings as their relationship progresses. Yet can the two of them throw their fast love into high throttle; eventually finding the road to true romance?
