## From Reader Review Me and Katie (the Pest) for online ebook

### Tiffany says

I loved this as a kid, but didn't remember just how mean the main character was!

---

### Kristen says

I read this to Katie for her reading nights. We didn't love it. The plot is weak, the sister characters bratty to each other, and the parents annoying. Meh.

---

### Claire says

I have been reading this book for years... (the cover is starting to come off). Even now as an adult, I have mixed feelings about this book. I can't remember who I favoured more, Wendy or Katie, as a child. But as an adult I am torn. Katie is annoying sure, but Wendy seems to be worse. She flies off the handle at the smallest things and even when Katie *is* making an effort, Wendy just doesn't trust her. I am a middle child and by default I subconsciously favour Katie, because I totally understand what it is like for the older sister to be screaming at you for no real reason. Still, always a good book for when you are feeling like reading about horses, strange and competitive children and have about an hour to kill. (or in my case last night to help with insomnia!)

---

### Stephanie Graves says

I read this to my six year old friend recently... and I'd completely forgotten it, but while reading the whole thing came back to me, especially the part about the Saga of Barbie and Ken, and suddenly I felt 8 years old again like the book was a time machine that took me back to the tree that I used to read under as a kid.

To sum up: books are magic.

---

### Gabrielle S says

More like 2.5 stars really. This was not great. Wendy was sort of horrid to Katie. I say this as someone who had a pesky younger sibling so I have sympathy.

---

### Cws says

JEAR3-Mar

---

**Sally says**

Loved it - although it made me glad I was an only child!

---

**miaaaa says**

Interesting story. I think it is pretty tiring when you have a sister that basically can do everything. Not just doing them, but winning medals regularly. I think I can understand when Wendy wanted to puke, I had these butterflies inside my belly any time my younger sister won my parents attention when we're young!

\*\*\*

Kisah kakak-beradik yang seru. Emang nyebelin sih kalau punya adik yang bisa melakukan semuanya dengan baik, dan sering mendapatkan penghargaan. Rasanya aku paham perasaan Wendy ketika dia ingin muntah, aku masih ingat rasa tak enak di perutku setiap kali adik perempuanku mencuri perhatian orang tua kami saat masih kecil. Sekarang sih setelah dewasa, walau dia masih agak menjengkelkan, jalan berdua seru juga hehe

---

**Palsay says**

I really liked the story about typical relationship between siblings. Quarrel all the time, but never lack of love...

yea it's family we all love, don't we?

---

**Ashley says**

I never knew that this book was a sequel to *Stage Fright*, until I read this review about the latter.

I really enjoyed this book, it was much better than *Stage Fright*. I liked Wendy more than Sara, I liked her family more than Sara's mom (even The Pest!) and I found the story more engaging this time. A fluffy book, but definitely a gem by AMM.

---

**Laura Talley says**

Read this to my daughter. She loved it, I liked it. It deals with issues such as sibling rivalry, significance, friendships, etc.
