Mortal Deception Liz Lipperman

alt cover for ASIN: B006IP5QZ0

A mix of deceit and lies rocks the world of a dying child, an ex-cop on a mission to clear her dead husband's name and an anesthesiologist who desperately wants out of a loveless marriage. To save her nephew's life, the young widow seduces the doctor accused of murdering his wife. But even as she collects evidence that proves he's the killer, she can't stop her heart from falling for him. Until the game turns DEADLY...

From Reader Review Mortal Deception for online ebook

Pepper Phillips says

"Wow!". A premise that I've never read before! Fast-paced, interesting, and filled with family love...I mean, what lengths would you go to save the life of someone you love? Almost anything? Maybe more than you ever thought you would do? This is such a great story, I can't wait for the next one by Liz Roth.

Robyn says

Mortal Deception is a fantastic book by a phenomenal author! Dani is a former cop turned private investigator. Her husband, who was also a cop, was killed and she is trying to find out why. Dani will do anything for her family and sometimes gets in over her head. She tries to prove her husband's innocence and save her nephew's life while unwittingly putting her own life in danger. I loved the fast paced action, the twists and turns and the way this book kept me on the edge of my seat. I highly recommend this book!

Angie says

This was a great read. Written by the mother of a girl I went to high school with.

Liese Sherwood-Fabre says

How far would you go to save a child's life? Dani Perez draws a line that some of us may not cross. Lying and stealing, possibly. But dressing as a hooker to get someone's DNA?

The result of Dani's deception brings on all sorts of trouble she never anticipated and hampers her ability to solve the issues around her husband's death a few years before.

Liz Lipperman does a great job of weaving a story with elements of romance, sex, and danger along with some very interesting and memorable characters. My only complaint was that she didn't make the book a little longer to more fully flesh out one story thread. All the same, she had me flipping pages to get to the end.

Liz Lipperman says

This book was originally published under the pseudonym Liz Roth. It received excellent reviews. Hopefully, they will show up here.

Sasha Summers says

I couldn't put this one down. High drama, suspense, love and honor, intrigue and one strong, yet womanly, heroine. If you haven't read Lizbeth Lipperman's debut novel, I strongly encourage you to do so. I had the pleasure of reading this while I was down with the flu - and I almost forgot I was sick! Can't wait for your next book!

LORI CASWELL says

What would do if you found out your nephew was dying? Dani Perez's twin sister's son is dying. There is a long shot cure that would save him but can Dani follow through on the crazy plan the sisters come up with. She is also trying to clear her husband's name. He was killed during a bust and has been labeled a "dirty cop". Her entire world is turned upside down as she tries to complete and survive both missions.

Dollycas's Thoughts

This is one of those stories that I don't want to tell you too much about so that I don't ruin any of the suspense. I read the whole thing in one sitting. I couldn't put it down.

This is a exciting story with really strong family relationships. The things we do for love. Dani puts her life on the line for both her nephew and her husband's memory.

The author takes us with these characters on a journey of love, loss, surprise, tension, fear, worry, and hope in an extraordinary way.

This is my first Liz Roth novel that I would classify as a romantic thriller. I hope she has another one it the works because I definitely want more!! I highly recommend this one.

Katrina says

it's rare that I don't guess the bad guy :)

Melissa says

I had gotten this book as a free offer on my Kindle. Certainly glad I didn't pay money for it. It was predictable and had a so-so story line. It suited my purpose though as fluff to read poolside.

Jean says

A mix of deceit and lies rocks the world of a dying child, Dani, an ex-cop on a mission to clear her dead husband's name and Nate, an anesthesiologist who desperately wants out of a loveless marriage. To save her nephew's life, the young widow seduces the doctor accused of murdering his wife. But even as she collects evidence that proves he's the killer, she can't stop her heart from falling for him. Things really start to heat up when someone is out to kill Dani and put Nate in prison for murdering his wife.

Hannah says

Overall, a decent thriller. I enjoyed the genetics aspect. A few times it was annoying to not know who was speaking, though I understand it created suspense.

N. Kuhn says

This was a cute little mystery type romance. Dani was sweet, but I didn't get the feeling that she was an ex-cop. She acted more like a scared little woman. I felt no back bone as you would expect from an officer.

The plot was interesting, the twists certainly weren't what you expected. I just wish Dani had been stronger.

The fact that Nate fell in love with her, after sleeping with her once and thinking she's a hooker was a bit too much, there's wasn't a whole lot of development there. The ending was maybe a little rushed. It's not a bad book, it passed the afternoon away from me. Would I read it again, probably not.
