## **Oushata Massacre: Arrow and Saber Book 1** Robert Vaughan

Fort Reynolds, Colorado: 1868

Fresh from WestPoint, Second Lieutenant Marcus Cavanaugh arrives with a platoon of recruits from the East into territory seething with Indian trouble. Two Eagles and his renegade band of Cheyenne warriors have broken the peace, raiding railroad crews and wagon trains, slaughtering men, women, and children, then disappearing into the hills.

Scouting for Two Eagles war party, Cavanaugh, at last, discovers their winter village, barely escaping with his life to report back to the fort. Byt nothing in his military training has prepared him for the savagery and danger he encounters as he leads his men against hostile braves in the bloody battle known as the...

## **From Reader Review Oushata Massacre: Arrow and Saber Book 1 for online ebook**

### **Rose James says**

#### **Oushata Massacre : Arrow and Saber Book 1**

This wa a quite interesting book. It was written very well. If you like to read stories about Native American people, tthen this is a book that you will enjoy readig.it is about the fighting over Native American land that the settlers felt was theirs.

---

### **John Kilgallon says**

The first in another great western series featuring the US Cavalry! Had the original paperback under Mr. Vaughan's pseudonym, G.A. Carrington, but hadn't read it. when the Kindle version came out, had to snag it. Great storytelling and description. Great characters and action. Looking forward to the second volume of Arrow and Saber!

---

### **Bryan Boswell says**

Really good book. Reads very fast and keeps your attention. I loved the ending. Can't wait to read the next book in the series. I received an advance copy for an honest review.

---

### **David says**

Fast-paced and a surprising ending.

---

### **Jean says**

This is a fast passed western. This is my first experience with both the author and the narrator. I was

impressed enough to look for more books by both.

The protagonist is 2nd Lieutenant Marcus Cavanaugh. He is fresh from West Point and arrives as Two Eagles of the Cheyenne has gone to war. The story takes place in 1868 in Eastern Colorado. The book is a standard Calvary against the Indians western story. The book is well written and is past paced. The story has lots of information about Army life in the middle 1800s. There is lots of action, but the book is too short to allow for much character development. The book was a great change of pace story. Looking forward to reading more books by Vaughan.

I read this an audiobook downloaded from Audible. The book is three hours and thirty-nine minutes. Clay Lomakaya does a good job narrating the book. Lomakaya is an actor and audiobook narrator.

---

### **Allan Stein says**

Fast moving. Unfortunately, there wasn't a lot of character development with the new recruits in Marcus' first command. A good story line, although I wish more would have been told about the people involved, not just the officers . Even with what I perceived as shortcomings, I enjoyed the book and will probably read more of Mr. Vaughan's western books.

---

### **Richard Myers says**

#### **Great book**

I am not familiar with many Western novels except for Zane Grey. I picked up this book and I couldn't put it down. Great story lines, good character descriptions and a great read. I recommend this book to everyone.

---

### **Charles Castell says**

**I have been addicted to Author Robert Vaughan for awhile and this book definitely falls into his best of the best category. There is a lot of camaraderie in this dramatic representation of our old American war heroes. Too, there is enough time to relax and enjoy the fruits of life as the military cranks up their assignments, and encounters the renegade throughout this classic masterpiece.**

No problem awarding five stars to this descriptive story of our old western folklore. This story certainly reaches out and grabs you immediately and doesn't let you go long enough to really catch your breath before you are traveling with the U. S. Army in a full gallop once again!

Mr. Vaughan has been in the business long enough that his selection of characters are always interesting and outstanding, regardless of their roles. Too, his extraordinary selection of storylines are unsurpassed throughout all of his great novels.

This story is very touching, but has many moments of truly heartwarming adventures throughout all the exhilarating experiences involving Lt. Cavanaugh and his fine assortment of exciting adventures. Once the action begins there was very little time between each exciting episode to relax, but the anticipation certainly kept me glued to follow the Calvary charge once again.

Most definitely recommend this book to everyone, as it will enlighten you to some of the adventures our forefathers incurred in the true old western endeavors. Although the story is fiction there are some surreal episodes that grabbed my undivided attention. I am anxiously awaiting the soon to be released Book 2!?

---

### **Bob Cantrell says**

#### **Good story**

When I started to read this book I was afraid this was just a thinly disguised telling of Custer's fight on the Washita around 1868. But I was pleasantly surprised when it was a different story altogether. One thing that makes a good story for me is character that seem to be cut from whole cloth not cardboard. So you get to like them or not like them because of their character. Now some of the character get very little story time, but you still get a feel for them. If you like western then grab a copy and be ready to hit the trail.

### **Paul Bishop says**

#### **BEST DAMN CAVALRY STORY EVER**

Author Robert Vaughan is known as a top Western wordslinger, and this first book in the Arrow and Sabre series shows him at the top of his game...The characters are engaging enough to make the reader anxious for their safety when they get into the thick of the action, which comes fast and often. A terrific read. I can't wait to get started on the next book in the series...

### **D. E. says**

#### **An RV Arrow and Saber Novel (1)/a New Officer/A First Battle/A Second Battle**

RV has penned a western about a young Cavalry officer, a recent graduate of the Military Academy, who is assigned to a fort in Colorado. His first engagement is aboard a Stage coach where he coached the riders and others to fight an Indian attack. He reached New York but was curious about how word had been heard all the way across the Country. This is an excellent read for the genre.....DEHS

### **Robert Hersh says**

#### **Excellent!**

You will not get bogged down in this book. Action is constant and not forced. I enjoyed this one and look forward to many more very good novels by an exceptional writer.

---

## **john o'reilly says**

### **First one but not the last**

Enjoyed the book some thing different but likable will certainly look for more books from this author in the near future

---

## **Olin E. Mcdonald Sr says**

### **Good job**

Good reading

Couldn't put it down.Recommended for every one to read. If you like western military reading. A little education

---

## **Robert C. smith says**

Excellent Early Frontier Calvary vs. Indians!

Vaughan artfully creates a realistic frontier scene with realistic characters that take readers back in time to the challenges and prejudices of "white men" and "redskins!" Very enjoyable and well worth the time to read it.
